First Regular Session, 99th General Assembly

January 4, 2017

Senators and Guests

I know it's a tradition that the new President Pro-Tem gives a big speech on the first day and sets the agenda. But I'm not big on long, windy speeches.

So rather than stand here and set the agenda for 2017, I'm going to say a few words that I hope will set the TONE for 2017.....and beyond. In other words, how should we go about conducting the business of the Missouri Senate?

What we do here matters, and how we do it matters.

Take a look around. Not just at each other, but take a look at this magnificent chamber, which is at the heart of the most beautiful capitol building in America.

Why is it that Missourians- who are not unnecessarily extravagant people – decided more than a hundred years ago to build such a wonderful capitol? And not just the building itself, but all the wonderful artwork throughout the Capitol, including this very chamber?

These great Capitol decorations are not placed simply for the purpose of expounding beauty and art, but to inspire in succeeding generations patriotism. Without a knowledge of history there can be no patriotism. Without a reverence for our pioneer forbears there can be no respect for the government they sacrificed to build.

We could do our business sitting around a bunch of card tables. Instead, we are here in this grand chamber.

I think Missourians then – and Missourians now - want us to feel the weight of what we do here. They want us to feel the weight of history; to appreciate what has come before us; and to apply it to what we do in this chamber.

Look behind me and you'll see Daniel Boone at the Judgment tree. Daniel Boone loved Missouri. He built his own coffin out of the wood of a wild cherry tree he found here. He planned ahead.

On another panel you will see President Jefferson greeting Lewis and Clark. The vast amount of information Lewis and Clark gathered on their expedition was tremendously important. Lewis and Clark knew the importance of details.

Also behind me, a depiction of Senator Thomas Benton's historic speech in St. Louis in 1849. Benton wanted to build a railroad from St. Louis to the Pacific. Folks back east ridiculed the idea; nothing out west but savages, they said. In his speech, Benton said, quote – “Let us rise to the grandeur of the occasion.” – end quote. He did; and so should we.

I also draw your attention to the panel showing Frank Blair giving a speech in Louisiana, Missouri in 1866. He fought for the Union and was a fearless general. But in 1865, when the state Constitution required a loyalty oath in order to vote, or practice medicine, or preach, Blair denounced it. He took the stump in Louisiana, Missouri as a Democrat and gave the first Democratic speech in Missouri after the Civil War. He was warned that if he showed up, he would be shot.

But he showed up, anyway. Blair walked up to the platform, laid two revolvers on the desk and said, -- quote – “I understand I am to be shot if I speak here today. Perhaps we would better attend to this ceremony now.”

Nobody stepped forward. Nobody shot him. Frank Blair was a man of courage.

This is the history that should weigh upon us as we go about our business in this chamber.

Plan ahead. Pay attention to the details. Have the courage to say what needs to be said. And, of course, rise to the grandeur of the occasion.

So let us pledge to each other that in 2017 and beyond, we will conduct the business of the Senate in a way that rises to the grandeur of the great state of Missouri.

But, of course, we're human, and we make mistakes, especially in the passion of the moment. I'm sure even the greatest figures in our history fell short of what they expected of themselves from time to time. But when the moment demanded it, they rose to meet the occasion, and that's what history remembers.

How will history remember us?

I'm hoping we are remembered for respecting the institution of the Senate and each other; for restoring civility to the chamber; and that we were able to be passionate about our convictions without being combative with one another.

We have a lot to do, so I'll close now with one last bit of advice from a man I greatly admire - Winston Churchill. He might have been thinking about the Missouri Senate when he said:

Quote – “Courage is what it takes to stand up and speak; courage is also what it takes to sit down and listen.”

Which I intend to do.

God bless you all, and God bless the great State of Missouri.

President Kinder assumed the Chair.

Senator Richard nominated Adriane D. Crouse for Secretary of Senate.

No further nominations being made, Ms. Crouse was elected by the following vote:

CONCURRENT RESOLUTIONS

Senator Emery offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 2

Whereas, under Article IV, Section 3, of the United States Constitution, “The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States”; and

Whereas, the Constitutional Convention intended this provision of the Constitution to maintain the status quo that had been established to transfer federal territorial lands only to create new states with the same rights of sovereignty, freedom, and independence as the original states; and

Whereas, under these express terms of trust, over time the states claiming federal territorial land ceded their western land to the confederated Union to allow the confederated government to dispose of the lands only to create new states and apply the net proceeds of any sales of the lands only to pay down the public debt; and

Whereas, the United States Constitution contains no expression of intent to authorize the federal government to indefinitely exercise control over western public lands beyond the duty to manage the lands pending the disposal of the lands to create new states, and therefore the lands should be returned to the western states; and

Whereas, in order to promote legitimate federal interests, the western states should upon transfer of the public lands directly to the state where the public land is located agree to affirmatively cede lands for the national park system, the national wilderness preservation system, and lands reserved for federal military use, military parks, and military reservations to the federal government under Article I, Section 8, Clause 17, of the United States Constitution, on condition that the lands permanently remain national park lands, and that they not be sold, transferred, left in substantial disrepair, or conveyed to any party other than to the state where the land is located; and

Whereas, limiting the ability of western states to access and utilize the public lands’ natural resources within their borders is having a negative impact upon the economy of the western states and therefore the economy of the entire United States:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, in order to provide a fair, just, and equitable remedy for the federal government’s past and continuing breaches of its solemn promises to the western states:

(1) Calls upon the federal government to transfer title to all federal public lands within the western states to the state where the land is located;

(2) Urges the United States Congress to engage in good faith communication, cooperation, and consultation with the western states to coordinate the transfer of the public lands, and supports the western states in these efforts;

(3) Calls upon the western states to agree, upon transfer of the public lands, to affirmatively cede to the federal government all lands currently designated as part of the National Park System under 16 U.S.C. Section 1a-1, the National Wilderness Preservation System under 16 U.S.C. Section 1131, or for military use, military parks, or military reservations;

(4) Urges that if any public land in the western states be sold to private owners, 95% of the net proceeds be paid to the Bureau of the Public Debt to pay down the federal debt; and

(5) Calls upon all other states of the United States to pass a similar resolution in support of the transfer of the federal public lands to the western states; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the Secretary of the United States Department of the Interior, the Majority Leader of the United States Senate, the Speaker of the United States House of Representatives, and each member of the Missouri Congressional delegation.

Senator Emery offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 3

Whereas, the growth and abuse of federal regulatory authority threaten our constitutional liberties, including those guaranteed by the Bill of Rights in the First, Second, Fourth, and Fifth Amendments to our Constitution; and

Whereas, federal regulators must be more accountable to elected representatives of the people, and not immune from such accountability; and

Whereas, the United States House of Representatives has passed with bipartisan support the Regulations from the Executive in Need of Scrutiny (REINS) Act to require that Congress approve major new federal regulations before they can take effect; and

Whereas, even if enacted, a law may be repealed or waived by a future Congress and President:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby urge that the United States Congress vote to propose the Regulation Freedom Amendment to the United States Constitution as follows:

“Whenever one quarter of the members of the United States House of Representatives or the United States Senate transmits to the President their written declaration of opposition to a proposed federal regulation, it shall require a majority vote of the House of Representatives and the Senate to adopt that regulation.”; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the President and Secretary of the United States Senate, the Speaker and Clerk of the United States House of Representatives, and each member of the Missouri Congressional delegation.

Senator Kehoe offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 4

Relating to an application to Congress for the calling of an Article V convention of states to propose certain amendments to the United States Constitution which place limits on the federal government.

Whereas, the Founders of our Constitution empowered state legislators to be guardians of liberty against future abuses of power by the federal government; and

Whereas, the federal government has created a crushing national debt through improper and imprudent spending; and

Whereas, the federal government has invaded the legitimate roles of the states through the manipulative process of federal mandates, most of which are unfunded to a great extent; and

Whereas, the federal government has ceased to live under a proper interpretation of the Constitution of the United States; and

Whereas, it is the solemn duty of the states to protect the liberty of our people - particularly for the generations to come - to propose amendments to the United States Constitution through a convention of states under Article V to place clear restraints on these and related abuses of power:

Now, Therefore, Be It Resolved by the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby apply to Congress, under the provisions of Article V of the United States Constitution, for the calling of a convention of the states limited to proposing amendments to the United States Constitution that impose fiscal restraints on the federal government, limit the power and jurisdiction of the federal government, and limit the terms of office for its officials and members of Congress; and

BE IT FURTHER RESOLVED that the General Assembly adopts this application with the following understandings (as the term “understandings” is used within the context of “reservations, understandings, and declarations”):

(1) An application to Congress for an Article V convention confers no power on Congress other than to perform a ministerial function to “call” for a convention;

(2) This ministerial duty shall be performed by Congress only when Article V applications for substantially the same purpose are received from two-thirds of the legislatures of the several states;

(3) The power of Congress to “call” a convention solely consists of the authority to name a reasonable time and place for the initial meeting of the convention;

(4) Congress possesses no power whatsoever to name delegates to the convention, as this power remains exclusively within the authority of the legislatures of the several states;

(5) Congress possesses no power to set the number of delegates to be sent by any states;

(6) Congress possesses no power whatsoever to determine any rules for such convention;

(7) By definition, a Convention of States means that states vote on the basis of one state, one vote;

(8) A Convention of States convened pursuant to this application is limited to consideration of topics specified herein and no other;

(9) The General Assembly of Missouri may recall its delegates at any time for breach of their duties or violations of their instructions;

(10) Pursuant to the text of Article V, Congress may determine whether proposed amendments shall be ratified by the legislatures of the several states or by special state ratification conventions. The General Assembly of Missouri recommends that Congress specify its choice on ratification methodology contemporaneously with the call for the convention;

(11) Congress possesses no power whatsoever with regard to the Article V convention beyond the two powers acknowledged herein;

(12) Missouri places express reliance on prior legal and judicial determinations that Congress possesses no power under Article I relative to the Article V process, and that Congress must act only as expressly specified in Article V; and

BE IT FURTHER RESOLVED that this application shall expire five (5) years after the passage of this resolution; and

Be It Further Resolved that the Secretary of the Senate be instructed to prepare a properly inscribed copy of this resolution for the President and Secretary of the United States Senate, the Speaker and Clerk of the United States House of Representatives, each member of the Missouri Congressional delegation, and the presiding officers of each of the legislative houses in the several states requesting their cooperation.

Governor Eric Greitens Inaugural Address

January 9th, 2017

Thank you Justice Breckenridge.

And thank you President Pro Tem Richard and Speaker Richardson, and my fellow citizens.

Today, we gather to take part in our republic's most revered ritual: the peaceful transfer of power.

Governor Nixon, you—and your team—have been gracious during this transition, and in doing so, have honored our system of government and upheld its finest traditions. We thank you.

I come before you today conscious of the fact that so many have given so much to this state—none more so than the families of our fallen. Those who have fallen fighting our wars, enforcing our laws, fighting our fires.

I know these men and women; I have served with them. I know the pride of carrying our nation's flag abroad—and I have felt the grief of burying too many friends beneath that flag at home.

Their families sit with us today as a testament, not to loss—though their loss has been great—but to love, the tremendous love that so many have for our country, for our state, for our fellow citizens.

We hope that you feel our state's gratitude. Your loved ones gave their lives—and in their sacrifice, they made possible the democratic renewal we solemnly mark today.

We have inherited their legacy. We have also inherited an immense responsibility: to make the lives we live worthy of the lives we have lost. The people have spoken; a new direction has been decided.

For decades, Missourians have talked about change. Now it's time to fight for that change.

No one imagines that all of these battles will be won overnight—or over four years, or even eight. But we begin today.

Our state's world famous motto, "Show me," reminds us that Missourians don't much value big talk.

Our state's great history reminds us that Missourians have always understood that big achievements demand hard work.

"Show me" doesn't mean "Give me." It means "prove it can be done, and we will do it."

It was from Missouri that the West was won—and here was laid the first mile of the interstates that joined America in ever closer union.

In Missouri, we built the steamships that plied the Mississippi.

It was people of Missouri who believed that a human being could fly across the Atlantic Ocean alone.

And it was Missourians who built the capsule in which an American first orbited the earth.

That is who we were. It remains who we are.

This state in the heart of America has proven that the worst in our history can be overcome by the best in our people.

It was here that a slave named Dred Scott was told by the United States Supreme Court that a black man had no rights that a white man need respect—and it was a son of Missouri, a poet named Langston Hughes, who delivered the best answer to Dred Scott's unjust judges, when he said: "I, too, am America."

In that same spirit, we are all Missouri.

This does not mean we will agree on everything. In fact, we should not agree on everything.

Proverbs reminds us, "The fear of the Lord is the beginning of wisdom."

The Lord put each of us here for a purpose. Sometimes the purpose of our opponents is to be our teachers.

There are big fights ahead for big things, and our new administration won't back down because of political pressure or political correctness.

Yet even as we fight for our convictions, we resolve that the greatest conviction, is to love our neighbors as ourselves.

Our ears will be open to reason, and our eyes alert to new facts.

We will go to work with humble hearts, and we will extend our hand in friendship to all those who will take it, but...

To those who would commit violence against a fellow citizen...

To those who would abuse a child...

To those who would assault a member of law enforcement...

To those who would steal from the needy...

I assure them this: they will feel the might, strength, and resolution of the firm fist of justice.

As Governor, I will always remember why you sent me here and what you expect from me. I will be loyal to your needs and priorities—not to those who posture or pay for influence.

This is the people's house. And to those who would trouble this house for their own selfish and sinful gain, hear me now: I answer to the people. I come as an outsider, to do the people's work.

And I know that the people do not expect miracles, but they do expect results—and we will deliver.

Yet no matter how well we do in government, there is a limit to what government can do well.

One of the worst lies of our present politics is the false promise that government can fix any problem and find every answer.

That never has been—and never will be—part of America's promise to its people.

But together, our people can fulfill America's oldest and best promises.

An administration can work on schools and invest in education. But I know—not only as your Governor, but as a father—that a child learns more than her letters when she falls fast asleep to the soft sounds of a parent reading to her.

An administration can do its part to empower business leaders to do good and to dare greatly — but the doing and daring is up to you.

An administration can render a check. But no amount of money given by a government can ever provide the meaning, strength, and dignity that comes from a good-paying job.

An administration can commit resources to serve those in need. But bureaucracy is the wrong place to look if you're seeking compassion. Caring comes from individual people, inspired by the ancient ideal laid down in Isaiah: "If you tend to the hungry and satisfy the needs of the oppressed, then your light will rise in the darkness, and your night will become like the noonday."

An administration can invest in police and law enforcement. But the most important anti-crime program ever known is a dad playing ball with his son—and setting his boy an example of how a strong man cherishes women, protects the young, and honors the old.

Everywhere Sheena and I visit in this great state, we ask people to pray for us. I can feel the power of those prayers around me today.

I asked you to fight alongside me. You have—I know you will.

And now, gratefully accepting the responsibility that you have entrusted to me, let's get to work.

God bless the people of Missouri. God bless you all.

The 135th Army Band, Missouri Army National Guard, Springfield, performed "America the Beautiful".

The Benediction was pronounced by Rabbi James M. Bennett.

The Colors were retired by the Missouri National Guard.

The audience remained standing and Governor Greitens and Mrs. Greitens were escorted from the platform by the Legislative Inaugural Committee.

The Joint Session of the 99th General Assembly was adjourned by President Pro Tem Richard. The Senators returned to the Chamber, where they were called to order by President Parson.

Journal of the Senate

FIRST REGULAR SESSION

FOURTH DAY—TUESDAY, JANUARY 10, 2017

The Senate met pursuant to adjournment.

Senator Dixon in the Chair.

Reverend Carl Gauck offered the following prayer:

“Who is wise and understanding among you? Show by your good life that your works are done with gentleness born of wisdom.” (James 3:13)

Almighty God, bless each of us this day. May we discover in each, in their encouraging words and helping hands that they are here to be of help to us. And although we may differ on some issues may we come to know that they have only our good in mind and are truly willing to share their knowledge and wisdom to assist us. Learning this may there be peace and righteousness sown in us. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal of the previous day was read and approved.

Senator Sater offered Senate Resolution No. 24, regarding Jim and Joan Stauber, Noel, which was adopted.

Senator Sater offered Senate Resolution No. 26, regarding the death of Glenn V. Thomas, Blue Eye, which was adopted.

Senator Sater offered Senate Resolution No. 27, regarding Jessica Spencer, which was adopted.

Senator Romine offered the following resolution:

SENATE RESOLUTION NO. 28

Whereas, Mr. Scott Pruitt is an ideal nominee to lead the Environmental Protection Agency because as a state attorney general he has witnessed the real world consequences of the agency's unconstitutional overreach, and he has been a leader in working to restore the Environmental Protection Agency to its original, lawful mission; and

Whereas, Mr. Pruitt has earned bipartisan respect and recognition during his tenure as Oklahoma Attorney General by demonstrating an expertise in constitutional law and the federal regulatory system, in addition to his willingness to take on tough fights on behalf of Oklahoma; and

Whereas, like Mr. Donald J. Trump, Mr. Pruitt is committed to clean air and clean water, and to faithfully enforcing the environmental laws written by Congress. At the direction of Mr. Donald J. Trump, Mr. Pruitt will restore a thoughtful balance to the Environmental Protection Agency and will seek to preserve the environment in a responsible manner that will not unduly sacrifice our nation's economic well-being to appease the extreme left; and

Whereas, Mr. Pruitt has a long record of environmental protection in Oklahoma as the state's Attorney General. He negotiated a historic water rights settlement with Native American tribes that preserved the ecosystems of scenic lakes and rivers; he worked with his Democrat counterpart in Arkansas to reduce pollution in the Illinois River; and he represented the interests of Oklahomans in rate cases against utility companies and in numerous actions against those who contaminated his state's air and water, including lawsuits against oil and gas companies that were profiting off pollution and defrauding taxpayers; and

Whereas, for too long, the Environmental Protection Agency has overreached and sought aggressive measures that have achieved little environmental protection but have devastated economies and destroyed jobs. Mr. Pruitt will usher in an era of responsible stewardship, taking into account true costs and benefits of various approaches to environmental regulation. Unlike the current Environmental Protection Agency, he will be faithful to the wise balances struck in our nation's environmental laws; and

Whereas, unlike the current administration, Mr. Pruitt fully supports American energy producers and believes we must unleash America's energy revolution in order to create jobs and bring new wealth to the American people; and

Whereas, as Oklahoma Attorney General, Mr. Pruitt pushed for protections for local oil and gas producers to ensure they were not being infringed upon by an overbearing regulatory state; and

Whereas, Mr. Pruitt has demonstrated his willingness to take on and sue oil and gas producers when they have polluted in his own state; and

Whereas, Mr. Pruitt led efforts along with 18 attorneys general to successfully block the Environmental Protection Agency's attempts to harass America's farmers and ranchers by redefining what the term "navigable" water means under the Clean Water Act:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, hereby urge the United States Senate to confirm Mr. Pruitt as Administrator of the Environmental Protection Agency; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the President Pro Tempore of the United States Senate and to all members of the Missouri Congressional delegation.

Senator Riddle offered Senate Resolution No. 29, regarding the 2016 Class 4 state champion Troy Buchanan High School Girls' Trojans Softball Team, which was adopted.

Senator Riddle offered Senate Resolution No. 30, regarding the 2016 Class 3 state champion Warrenton High School Girls' Warriors Softball Team, which was adopted.

Senator Riddle offered Senate Resolution No. 31, regarding Janice Sneller, Holts Summit, which was adopted.

Senator Riddle offered Senate Resolution No. 32, regarding Corrections Officer I Patsy Whitley, New London, which was adopted.

Senator Riddle offered Senate Resolution No. 33, regarding Corrections Officer I Melissa Archer, Mexico, which was adopted.

Senator Riddle offered Senate Resolution No. 34, regarding Jim and Brenda Shortridge, Monroe County, which was adopted.

Whereas, there have been several recent outbreaks of serogroup B meningococcal disease on college campuses, with some cases resulting in death; and

Whereas, vaccines are available to prevent meningococcal disease, and different vaccines provide coverage against certain specific serogroups of the disease; and

Whereas, while there are vaccines that help provide protection against all three serogroups (B, C, and Y) commonly seen in the United States, only vaccination for serogroups A, C, W, and Y is routinely recommended by the Centers for Disease Control and Prevention; and

Whereas, the Centers for Disease Control and Prevention's Advisory Committee on Immunization Practices recommends that decisions to vaccinate adolescents and young adults sixteen through twenty-three years of age against serogroup B meningococcal disease should be made at the individual level with health care providers; and

Whereas, it is critical that students, parents, educators, and health care providers understand the dangers of meningitis B and are aware that a vaccine is available to prevent disease resulting from this serogroup:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, urge the Missouri Department of Higher Education and the Missouri Department of Health and Senior Services to encourage all public and private high schools, colleges, and universities in Missouri to provide information to all students, parents, and guardians about meningococcal disease, explaining the different disease serogroups, symptoms, risks, and treatment options; and

Be It Further Resolved that such information should also include a notice of availability, benefits, risks, and limitations of all meningococcal vaccines receiving a recommendation from the Advisory Committee on Immunization Practices, including Category A and Category B recommendations, with specific information as to those persons at higher risk for the disease; and

Be It Further Resolved that each public and private high school, college, and university in Missouri is urged to recommend that current and entering students receive meningococcal vaccines in accordance with current Advisory Committee on Immunization Practices guidelines; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the Director of the Missouri Department of Higher Education and the Director of the Missouri Department of Health and Senior Services.

SENATE CONCURRENT RESOLUTION NO. 7

Whereas, the state of Missouri and Israel share a deep and abiding friendship based on a shared commitment to democratic values; and
Whereas, Missouri's own President Harry S. Truman announced on May 14, 1948, that the United States would become the first country to recognize the new Nation of Israel; and

Whereas, since its establishment, Israel has fulfilled the dreams of its founders, who evidence a vigorous, open, and stable democracy; and

Whereas, Israel's Declaration of Independence enshrines a foundation of freedom and democracy using the strongest possible language

that Israel will “ensure complete equality of social and political rights to all its inhabitants irrespective of religion, race or sex; it will guarantee freedom of religion, conscience, language, education and culture...” This idea is practiced in the unbroken tradition of free and open elections that is a necessary component to any vibrant democracy; and

Whereas, the election on March 17, 2015, is the most recent example of the commitment of Israel to the democratic ideals of freedom and pluralism, ideals that Israel shares with the United States; and

Whereas, Israel has a special relationship with the state of Missouri through cultural and economic partnerships resulting in numerous Israeli companies locating in Missouri for their North American headquarters as well as the Cooperative agreement between the Chief Science Officer of Israel and the Missouri Department of Economic Development to foster strategic partnerships between Israeli- and Missouri-based companies developing cutting edge technologies in agricultural science and other key technologies:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby:

(1) Express their respect and admiration for the people of Israel;

(2) Commend the people of Israel for reaffirming their dedication to democratic ideals as expressed in the election on March 17, 2015; and

(3) Restate the mission of the Missouri-Israel Cooperative Agreement, signed by the Missouri Department of Economic Development and the Israel Ministry of Industry and Trade in 1988, which calls for projects of mutual economic benefit through improved trade, technology development, science, agriculture, and tourism; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the Prime Minister of Israel, Benjamin Netanyahu, and the Director of the Missouri Department of Economic Development.

VACANCIES: 1

The Joint Committee appointed to wait upon His Excellency, Governor Eric Greitens, escorted the Governor to the dais where he delivered the State of the State Address to the Joint Assembly:

Governor Eric Greitens
2017 State of the State Address

A Message From The People

Thank you, Lieutenant Governor Parson; Speaker Richardson and the members of the Missouri House; President Pro Tem Richard and members of the Missouri Senate; Chief Justice Breckenridge and the judges of the Supreme Court of Missouri; State officials; and our honored guests. Thank you.

And thank you to Sheena, my beautiful wife, and Missouri's First Lady.

We meet tonight in the people's chamber.

This is the seat of our republic—where the people's will should be done.

Many of you have been good keepers of the public's trust. Your families have sacrificed so that you can serve the people, and I appreciate you and your families.

But too many good, strong public servants have come here only to see the will of the people obstructed and corrupted by insiders and lobbyists.

This is a big place, with a powerful purpose, and it has too often been consumed by small goals and petty politics.

So tonight, I come bearing a simple message from the people of Missouri: They want a government that fights for them, and I come as an outsider ready to lead that fight.

Last week, I signed an executive order banning gifts from lobbyists to state employees of the executive branch.

I think all elected officials should do the same. And I thank Speaker Richardson, President Richard, Senator Kehoe, Representative Cierpoit, and other leaders in this room for their commitment to passing a ban on gifts from lobbyists.

In our first executive order, we also slammed shut the revolving door between employees of the Governor's office and lobbyists. The people in my office come to work knowing they will never be able to lobby our office.

I urge the legislature to do the same. During the campaign, we came up with a simple proposal that the people supported. If you've been in a legislative office for one year, and you decide you want to become a lobbyist, you have to wait one year. If you've been in office for two years, then you have to wait two years—and so on.

This is a simple, sensible proposal, and I'm committed to working with you to close the revolving door.

I also call on this legislature to put on the ballot, term limits for every statewide officeholder. I know that the people of Missouri will vote for term limits, and people are counting on us to put an end to politics as a lifelong profession.

This is the people's government, and these basic measures will begin to restore our people's trust in their government.

Missourians are a hardworking people. They want good, quality jobs.

I remember being out one morning meeting folks and shaking hands at a diner in Portageville.

It was 5 AM, and it was going to be a hot day—but people were up. They were ready to work.

In county after county—in Pemiscott County, and in Dunklin County, and in Mississippi County—I spoke to people who want to work, who want a job, who want to provide for their families.

They are sick of seeing their friends have to get in a truck and drive across state lines for work. But they look over the border—and see opportunity.

They see that in Arkansas and in Tennessee, paychecks are getting bigger.

They see other Midwestern states like Michigan and Indiana that are leading the nation in new factory job growth.

Since 2009, the country has had 10% private sector job growth. If we had grown just as fast as the rest of the country since '09, we would have 120,000 more jobs in Missouri today.

And if income in Missouri had risen at the same rate as the rest of the country, the average Missouri family would be making \$2,400 more every year. Instead, we've fallen behind.

The people have sent us a message: We must do everything in our power to put people back to work in good, high-paying jobs.

That's why we must join 27 other states and sign Right to Work.

That's why we must do away with expensive Project Labor Agreements that drive up the costs of construction and slow down important projects in our communities.

We must repeal our state's version of the Davis-Bacon act, which drives up the cost of important construction work that needs to get done. It hurts rural workers. It sets back rural families.

I've heard from small-town Mayors and County Commissioners who say that they are ready to build, to grow—but they need these reforms.

Our cities see the negative impact, too. People are tired of losing new jobs to Indianapolis, Nashville, or Des Moines. We must stay competitive.

We will eliminate these ineffective and outdated laws. And we will tap into the ingenuity and hard work of Missourians, because Missourians are ready to work.

There's another thing holding back jobs.

A report released about a month ago looked at every state, every city, and every county in the United States. And that report named St. Louis, Missouri the worst judicial hellhole in America.

This isn't a pretty picture. Here's what's happening: Out of state lawyers are suing businesses on behalf of out of state clients in Missouri's courts.

We're the place where the nastiest lawyers come to do work so dirty, and engage in lawsuits so murky, they wouldn't pass muster anywhere else.

What does this do? It scares away businesses. It means fewer jobs and smaller paychecks.

The companies intimidated by this shady practice have customers here. They could make even more money here. But they're afraid to expand their business here.

Trial lawyers can sue people in the state of Missouri, and because of how broken the system is, if they win just one dollar for their client, they still get paid huge legal fees.

For too long in this state, trial lawyers have picked our people's pockets.

It's time to do different.

There are some common sense changes we can make to fix this. We need to move to the Daubert standard for expert witness testimony. Right now, our standards are far too low. By moving to the Daubert standard, we'd be adopting the same standards used by the federal government and 39 other states.

We need to change our joinder and venue rules to end these out of state lawsuits. And we must end frivolous lawsuits by reforming the Missouri Merchandising Practices Act.

Our judicial system is broken, and the trial lawyers who have broken it, well, their time is up.

The people need us to fight for the jobs that lawyers are forcing out of our state. As Governor, I'm not afraid to take on the trial lawyers, of either party. I'm here to fight for the people, of both parties.

Another thing holding back jobs: burdensome regulations...

Last week, I signed an executive order putting a freeze on all new regulations and rulemaking. Let me tell you why.

There were two women in Missouri who had grown up braiding the hair of their family and friends and figured they could make a business of it.

Then they looked up what they'd need to do to become a hair braider in Missouri, and they were shocked.

Missouri's government mandates 1500 hours of expensive training for a hair braiding license. That's 30 hours per week of training for almost a full year...to braid hair.

We need to end frivolous regulations like these so that our people can start their own businesses and create jobs.

Over the course of the last 17 years, Missouri has issued over 40,000 pages of new regulations. If you laid those pieces of paper end to end, that's over 5 miles of new regulations.

These regulations, and those that come down from Washington, cost people money.

But there's a hidden cost, too. All of this regulation takes the joy out of running a business, running a farm, starting something new.

Farmers want to farm—not be lawyers and accountants. Business people want to build great things—not fill out endless paperwork.

And there's another problem: Some rules are necessary to protect health and safety. But when government spends time enforcing frivolous regulations, important things like safe water and safe travel don't get the time and attention they deserve.

I have ordered a complete review of every regulation in the state of Missouri. We're going to reduce unnecessary and outdated regulations so that we can get back to creating good, quality, high-paying jobs...

We need an effective government that serves the people and makes it easy to do business.

If you want to start or grow a business in the state of Missouri and hire more people with good jobs, I will be your friend and ally. I want the state of Missouri to work for you. To make it easy for you.

Right now, getting permits takes too long. People stand in too many lines for too many hours for too many basic services.

Part of the reason for this is that our government is running on too many broken and outdated systems that make it too hard to serve the people.

Some of our government's systems are still programmed using COBOL, a computer language developed in 1959.

We need a modern government that allows people to do more on-line instead of making them wait in line.

We also need to remember that many essential government services, whether it's law enforcement, transportation, or education, are delivered by people.

We need to support the hard-working employees in our government who do important public service. We have people at the State Emergency Management Agency, MoDOT and the Missouri State Highway Patrol, who worked non-stop from last Wednesday, straight through the Chiefs game, to make sure our state weathered this ice storm.

And our best state employees are being hurt by a big bloated bureaucracy. In Indiana, they have 46 state employees per 10,000 people in their state. In Illinois, they have 47 state employees for every 10,000 people. In Ohio, they have 55.

And in Missouri? We have 92 employees for every 10,000 people in our state.

Because of this, we are 50th out of 50 in state employee pay. We need to change that. Our government employees do important work—often really important, life-saving work. We need to reward the greatest in government service with better pay.

This is how a good business would run. We'd pay and promote our best people and make sure they know they are valued. And we'd have a government focused on doing fewer things but doing them well. That's how we'll be able to pay our star performers what they deserve.

That's one of the reasons why I'm committed to civil service reform, with a focus on making a smaller government that works better for all of our people and will make Missouri a better place to do business.

And there's another thing that's holding back jobs: our burdensome, complex, and unfair tax credit system.

All of you know how to run a family budget.

First, you pay down your credit card debt. Then, put some money away in a rainy day fund. Then, you budget for your most important needs.

Our constitution is wise. It follows that same advice. Our constitution lays out where our tax money should go.

First, it's supposed to pay off the debt. Then, it's supposed to fund our priorities.

There's a lot of wisdom there.

But unfortunately, the people who get paid first today are insiders and lobbyists who have rigged the system to get special interest tax credits.

Insiders are gaming this system. Since 2010, almost \$2 billion has been promised to special interests. The people taking the money swore that it was going to create jobs, but their performance hasn't lived up to their promises.

If special interest tax credits made for a prosperous economy, Missouri would be thriving.

What our people want is a tax structure that is simple, fair to everyone, and low.

But instead we have a tax structure that is complex, corrupt, and high.

Together, with a team of outsiders and legislators, we are going to do a thorough, end-to-end audit of our tax credit system—and create a tax code that works not to benefit privileged insiders, but instead is fair to all.

I ask all of you—all of you—to work with me. Our state can create more jobs by doing the right thing here.

And another thing that's holding back jobs is our broken welfare system.

For almost ten years, I worked with veterans who had been let down by the VA.

My wife Sheena and I would have these strong men and women around our dinner table.

And we'd hear over and over again about how the system failed these men and women.

When they came back from war, the VA told them, "If you're 60% disabled, we'll pay you as if you're 100% disabled as long as you don't work..."

So what do you think happened? People didn't work.

And not having a job sapped their spirits. The government handed them checks and pills. And instead of building new lives here at home, too many got stuck. They became trapped in lives of dependency and depression.

They lost their sense of dignity. And what's worse, it also affected their children and their families.

Missouri's system of welfare too often does the same to our people.

We must find a way to reform it—and replace it with a system that builds lives of self-reliance, dignity, and meaning.

But that's not the system we have now.

Recently, a non-partisan think tank took a close look at the welfare system in each state.

Here's how things work in Missouri:

Let's say you're a single mom working 30 hours a week, making \$12.25 an hour. You're working as hard as you can, taking care of your kid and trying to raise him right.

One day, your boss comes to you and offers you a \$5 an hour raise. That should add up to about \$7,500 to \$8,000 more a year.

But here's what happens in Missouri: If you take the raise, you'd lose over \$700 a year in food stamps and \$800 in housing subsidies.

You lose \$4,700 in childcare subsidies, and \$1,200 in the earned income tax credit. And you'd pay an extra \$800 in taxes.

That \$8000 raise cost you over \$8,200 dollars. That hard-working single mom is essentially robbed of her raise.

We need to build a system based on two simple principles:

- 1) It should always, always, always pay more to work in the state of Missouri.
- 2) If your boss gives you a raise, you should make more money.

I will work with all of you to build a system that lifts people out poverty and into the middle class, one based on hard work and personal responsibility.

Everywhere I went in the state of Missouri, people talked to me about the need for more jobs and higher pay.

They also talked about the need for safer streets.

Despite the failures of past politicians, the vast majority of the people in this state know, honor, and respect the men and women of law enforcement...

I want to say tonight—from this podium and in this place—thank to our law enforcement officers and first responders. And thank you to your families, who sacrifice every day so that we can be safe.

Here are the facts: three of the eleven most violent cities in America are in Missouri—St. Louis, Kansas City, and Springfield.

This violence affects far too many families—mine included.

And it's not just in the cities. When you talk to sheriffs, chiefs of police, and front line officers around the state, they'll tell you it's getting harder to do police work.

They'll tell you about what the FBI has identified: The Ferguson Effect.

They'll tell you that it's harder to recruit people to become police officers, and the officers who are on the job feel less empowered to proactively police.

Now, we're in a tough place in Missouri and we have to come together. We cannot go forward divided.

God has not given any of us a monopoly on wisdom. We all must make an effort to understand.

We will work with the law enforcement community and concerned citizens and clergy, to update our peace officers' standards and training.

We will make sure that all of our officers have the training, resources, and support they need both to protect themselves and to build strong relationships in their communities.

Here's what we have to do together: make this the greatest state in America to be a law enforcement officer, firefighter, or first responder. And we need to make this a state where every citizen feels that they too are safe and protected.

I want to establish a Blue Alert system, so that we can find and bring swift justice to anyone who assaults a law enforcement officer.

And my administration will work with this body to pass the toughest laws in the country for anyone who assaults a peace officer.

We need to make sure that our state highway patrol, that our corrections officers, have nonlethal tools like TASERs and adequate body armor when they are called to go into harm's way.

We also need to stand by our law enforcement officers, firefighters and first responders by aggressively applying for Homeland Security, AFG and SAFER Grants to make sure that they get every federal dollar they deserve.

And we also must work with the Department of Defense and with our military representatives here at home, including at Fort Leonard Wood, to make sure our military police officers and military firefighters can much more easily come back home and serve as police officers and firefighters on our streets.

We will do these things. But we need all of you to work alongside us to make Missouri safe.

And those of us in this room have a particular obligation. It is an obligation to hear people who are often unheard. To understand the frustrated, to listen to those who too often do not have a voice.

We need a justice system that does justice by all of our people. As a constitutional conservative, I believe, as you do, that the constitution applies to every citizen. I believe in the 6th Amendment, which guarantees the right to a fair trial and adequate legal representation for all.

I believe—as many of you do—that we must reform our corrections system. I believe our corrections officers do hard work, under difficult circumstances, and I am committed to standing by them and standing up for them.

In order to protect them, and in fact, in order to protect every citizen in Missouri, we need to find ways to reduce recidivism. If somebody gets out of prison, we want them to go to work. We want them to pay their fair share in taxes. We want them to take care of their kids. We want them to set a good example.

And the last thing we want is somebody coming out of prison and committing another crime which hurts another family and starts that same bad cycle all over again.

We need to do different. People who are in prison should have a clear plan—from the day they enter—about what direction their lives will take the day they leave.

To tackle this problem, we need to engage groups from across society: most importantly our faith community. I have seen that a turn towards faith can actually save lives in prison. And I will welcome our churches and our synagogues into our corrections facilities.

These steps are but the beginning. And the path towards safer streets for all is built on a combination of support for law enforcement, relationships rooted in understanding, economic and educational opportunity, and a justice system that has the confidence of all of its citizens.

Peace is more than the absence of war. And safety and security are more than the absence of violence. Safety and security are built on the basis of understanding—and we in the people's house must be examples for making an effort to understand each other and bring communities together.

That understanding starts with our young people. And it begins in our homes—and in our schools.

I think we will all agree that we have incredible young people here in the state of Missouri.

And yet, we have an education system that ranks near last in every measure that matters.

Our people have done their part. Missouri pays about the national average for its education system.

Yet even though we spend what the rest of the country spends on education, we rank 47th in starting teacher pay. We have great teachers, and I believe our great teachers deserve to be paid more.

And let me be perfectly clear: this administration is committed to protecting teachers' pensions.

What we need to do is make sure that the money we spend finds its way into the classroom.

Over half of Missouri school districts do not offer a single Advanced Placement class. Over 200 of our 520 school districts did not have a single student in physics. Over 100 did not have a single student enrolled in chemistry.

We need to expand course access programs, so that every child in Missouri can use technology to get the education they need.

We also need to make sure that every child in Missouri, especially those kids with special needs, get a fair shot at the American Dream. I will work with you to implement Education Savings Accounts for children with special needs.

Education Savings Accounts are simple. Kids with special needs have IEPs, individualized education plans. With education savings accounts, parents are able to use their fair share of state education money in a way that fits with what their kids need.

Arizona was the first state in the country to try these accounts, and the program has been a success. Parents are much happier with their children's educations, and children are able to get the kind of education that meets their needs.

We do best when we put power into the hands of parents and teachers at the local level.

Special needs families know their children best. And it is time we gave control back to those parents, to select the best possible education for their children.

Every kid in the state of Missouri—whether in a public school, private school, or homeschool—deserves a fair shot at the American Dream. And these are just a few of the things we can do to make that happen.

What I have outlined tonight are some of the simple and sensible requests that the people have for all of us.

And this is how we begin. Not every problem that we're facing in the state of Missouri can be solved in the next week, the next month or the next year. But this agenda is a strong and bold start.

We have an opportunity to have a truly historic legislative session. Let's heed the voice of the people and let's take Missouri in a new direction.

Thank you very much. God bless you and God bless the people of Missouri.

On motion of Senator Kehoe, the Joint Session was dissolved and the Senators returned to the Chamber where they were called to order by President Parson.

CONCURRENT RESOLUTIONS

Senators Schupp and Nasheed offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 8

Whereas, extensive and credible reports have revealed mass killing of prisoners of conscience in the People's Republic of China, primarily practitioners of the spiritual based exercises of Falun Gong, but also other religious and ethnic minority groups, in order to obtain organs for transplants; and

Whereas, the organ transplantation system in China does not comply with the World Health Organization's Guiding Principles of traceability and transparency in organ procurement pathways, and the government of the People's Republic of China has resisted independent scrutiny of the system; and

Whereas, traditional Chinese custom requires bodies to be preserved intact after death. With rare voluntary organ donation, however, China's transplantation industry significantly increased since 2000; and

Whereas, the Department of State Country Report on Human Rights for China for 2011 stated, "Overseas and domestic media and advocacy groups continued to report instances of organ harvesting, particularly from Falun Gong practitioners and Uighurs"; and

Whereas, a new investigative report, published in June 2016, conducted by human rights attorney David Matas, former Canadian Secretary of State for Asia-Pacific David Kilgour, and journalist Ethan Gutmann, estimated that China is performing 60,000 to 100,000 transplants per year as opposed to 10,000 transplants claimed by the Chinese government, which is "an industrial-scale, state-directed organ transplantation system, controlled through national policies and funding, and implicating both the military and civilian healthcare systems"; and

Whereas, China's Liver Transplant Registry System indicated that more than 25% of cases were emergency transplants, for which an organ was found within days or even hours. Wait times for non-emergency liver transplants were usually quoted in weeks. Most patients in other countries have to wait years for a transplant; and

Whereas, the Chinese government claims that 90% of China's organ transplant sources come from executed prisoners. However, the

number of executions has dropped 10% annually since 2002 and is far less than the number of transplants taking place. The government has never acknowledged the sourcing of organs from prisoners of conscience; and

Whereas, Falun Gong, a spiritual practice involving meditative “qigong” exercises and centered on the values of truthfulness, compassion, and forbearance, became immensely popular in China in the 1990s, with multiple estimates placing the number of practitioners at upwards of 70 million; and

Whereas, in July 1999, the Chinese Communist Party launched an intensive, nationwide persecution designed to eradicate the spiritual practice of Falun Gong, including physical and mental torture, reflecting the party’s long-standing intolerance of large independent civil society groups; and

Whereas, since 1999, hundreds of thousands of Falun Gong practitioners have been detained extra-legally in Chinese reeducation-through-labor camps, detention centers, and prisons, where torture, abuse, and implausible medical exams and blood tests on Falun Gong practitioners are routine; and

Whereas, Freedom House reported in 2015 that Falun Gong practitioners comprise the largest portion of prisoners of conscience in China, and face an elevated risk of dying or being killed in custody; and

Whereas, the United Nations Committee Against Torture and the Special Rapporteur on Torture have expressed concern over the allegations of organ harvesting from Falun Gong prisoners, and have called on the Government of the People’s Republic of China to increase accountability and transparency in the organ transplant system and punish those responsible for abuses; and

Whereas, in June 2016, the U.S. House of Representatives unanimously passed House Resolution 343, condemning the systematic, state-sanctioned organ harvesting from Falun Gong and other prisoners of conscience; and

Whereas, the killing of religious or political prisoners for the purpose of selling their organs for transplant is an egregious and intolerable violation of the fundamental right to live; and

Whereas, organ tourism to China should not be shielded by medical confidentiality, but openly monitored. No nation should allow their citizens to go to China for organs until China has allowed a full investigation into organ harvesting of prisoners of conscience, both past and present:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby:

(1) Call on the Government of the People’s Republic of China to immediately end the practice of organ harvesting from all prisoners and prisoners of conscience, and explicitly from Falun Gong prisoners of conscience and members of other religious and ethnic minority groups;

(2) Call upon the Government of the People’s Republic of China to immediately end the 17-year persecution of the Falun Gong, and the immediate release of all Falun Gong practitioners and other prisoners of conscience;

(3) Call upon the President of the United States to undertake a full and transparent investigation by the United States Department of State into organ transplant practices in the People’s Republic of China, and calls for the prosecution of those found to have engaged in such unethical practices;

(4) Will take measures to initiate a registry for residents of Missouri who travel abroad to receive organ transplants; and

(5) Will take measures to ban the entry of those who have participated in illegal removal of human tissues and organs, and seek prosecution of such individuals should they be found on the soil of Missouri; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the President and Vice President of the United States, the Secretary of the United States Senate, the Speaker and Clerk of the United States House of Representatives, the chair of the Senate Committee on Foreign Affairs, the chair of the House Committee on Foreign Relations, and each member of the Missouri’s Congressional delegation.

CONCURRENT RESOLUTIONS

Senator Holsman offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 9

Relating to an application to Congress for the calling of an Article V convention of states to propose certain amendments to the United States Constitution which regulate elections.

Whereas, the framers of the Constitution of the United States of America intended that the Congress of the United States of America should be "dependent on the people alone" (James Madison, Federalist 52); and

Whereas, that dependency has evolved from a dependency on the people alone to a dependency on powerful special interests, through campaigns or third-party groups, that have created a fundamental imbalance in our representative democracy; and

Whereas, Americans across the political spectrum agree that elections in the United States of America should be free from the disproportional influence of special interests and fair enough that any citizen can be elected into office; and

Whereas, the Constitution of the State of Missouri states "that all political power is vested in and derived from the people; that all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole" and the people have the exclusive right to alter their constitutions of government whenever they deem it necessary (Article I, Sections 1 & 3); and

Whereas, Article V of the United States Constitution requires Congress to call a convention for proposing amendments to the federal Constitution on the application of two-thirds of the legislatures of the several states; and

Whereas, the Missouri General Assembly perceives the need for an amendments convention in order to restore balance and integrity to our elections by proposing an amendment to the federal Constitution that will permanently protect free and fair elections in America by addressing, inter alia, issues raised by the decisions of the United States Supreme Court in *Citizens United v. Federal Election Commission* (2010) 130 S.Ct. 876 and related cases and events, and desires that said convention should be so limited; and

Whereas, the State of Missouri desires that the delegates to said convention shall be comprised equally of individuals currently elected to state and local office, or be selected by election, in each Congressional district for the purpose of serving as delegates, though all individuals elected or appointed to federal office, now or in the past, be prohibited from serving as delegates to the convention, and intends to retain the ability to restrict or expand the power of its delegates within the limits expressed herein; and

Whereas, the State of Missouri intends that this be a continuing application considered together with applications calling for a convention passed in the 2013-2014 Vermont legislature as R454, the 2013-2014 California legislature as Resolution Chapter 77, the 98th Illinois General Assembly as SJR 42, the 2014-2015 New Jersey legislature as SCR 132, the 2015-2016 Rhode Island legislature as HR 7670 and SR 2589,

and all other passed, pending, and future applications until such time as two-thirds of the several states have applied for a convention for a similar purpose and said convention is convened by Congress:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby apply to the United States Congress, under the provisions of Article V of the United States Constitution for the calling of a convention of the states for the exclusive purpose of proposing an amendment to the United States Constitution that will restore free and fair elections as described herein; and

Be It Further Resolved that the Secretary of the Senate transmit copies of this resolution to the President of the United States; the Vice President of the United States in his capacity as presiding officer of the United States Senate, the Speaker of the United States House of Representatives, the Minority Leader of the United States House of Representatives, the President Pro Tempore of the United States Senate, to each Senator and Representative from Missouri in the Congress of the United States with the respectful request that the full and complete text of this resolution be printed in the Congressional Record, to the presiding officers of each legislative body of each of the several states, requesting the cooperation of the states in issuing an application compelling Congress to call a convention for proposing amendments pursuant to Article V of the U.S. Constitution.

Read 1st time.

Senator Wieland offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 10

Whereas, the deeply held religious convictions and moral beliefs of the people of the State of Missouri and the City of Saint Louis should be respected rather than attacked; and

Whereas, Saint Louis Board of Aldermen Board Bill 203 would allow the City of Saint Louis to penalize by fines of up to five hundred dollars and imprisonment for up to ninety days, property owners and Missouri citizens who choose not to be associated with the abortion industry; and

Whereas, Board Bill 203 would allow the City of Saint Louis to penalize by fines of up to five hundred dollars and imprisonment for up to ninety days, religious institutions and Missourians of faith for making employment decisions based upon their religious beliefs and practices; and

Whereas, Board Bill 203 would force the citizens of Missouri and the City of Saint Louis to be complicit in the intrinsic evil of abortion; and

Whereas, Board Bill 203 would violate religious liberty and individual rights to conscience; and

Whereas, Board Bill 203 would represent a grave abuse of local authority and threaten constitutional liberties of the residents of, and property owners and employers in, the State of Missouri and the City of Saint Louis, including those guaranteed by the Bill of Rights, the Missouri Constitution, and Missouri law, such as the Missouri Religious Freedom Restoration Act of 2003 and Senate Bill 749 of 2012; and

Whereas, it should be the moral imperative of all governmental bodies to RESPECT and PROTECT life at all of its stages; and

Whereas, the United States Supreme Court has ruled that citizens cannot be compelled to violate their religious practices and beliefs, such as in its 2014 decision of *Burwell v. Hobby Lobby*; and

Whereas, Board Bill 203 would violate Missouri law related to the regulation of abortion, including but limited to, the right of conscience of health care providers and institutions, employers, and taxpayers who oppose abortion and the funding thereof, as found in Chapters 188, 191, and 197 of the Missouri statutes:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby urge the City of Saint Louis Board of Aldermen to defeat Board Bill 203 and protect the religious liberty and right of conscience of all Missouri citizens, property owners, and employers; and

Be It Further Resolved that the Secretary of the Senate be instructed to prepare properly inscribed copies of this resolution for the Mayor, the President of the Board of Aldermen, and each member of the Board of Aldermen of the City of Saint Louis.

VACANCIES: 1

The Joint Committee appointed to wait upon the Chief Justice of the Supreme Court, Patricia Breckenridge, escorted the Chief Justice to the dais where she delivered the State of the Judiciary Address to the Joint Assembly:

2017 State of the Judiciary Address

Lieutenant Governor Parson, Speaker Richardson and members of the House, President Pro Tem Richard and members of the Senate, Governor Greitens and other statewide officers. I am proud to be here today as the voice of the judicial branch.

I am so grateful to have served in the judiciary since my appointment to the trial bench by Governor Kit Bond, to the court of appeals by Governor John Ashcroft, and to the Supreme Court by Governor Matt Blunt. It has been my privilege to serve with judges appointed by both Republican and Democratic governors and to work to decide cases according to the law.

Before I begin, I would like to introduce my husband, Bryan. For 40 years, he has loved and supported me and kept me grounded. Thank you for being here with me this morning.

Earlier this month, I swore in Governor Greitens and other statewide officials. Not all chief justices get to participate in this democratic transition of power, and it was such an honor. For me, it served as a reminder of how alike we are. We share a commitment to work separately *and together* to make the great state of Missouri *even greater*. Some, however, focused on how we are different. One tweet questioned the legitimacy of the oaths because of those differences. Apparently, I – correctly – said “MissourAH,” while *you* said, “MissourEE.”

Our different pronunciations reflect the rich diversity of our state – we come from cities, towns and rural areas to work in Jefferson City. You represent literally every nook and cranny of Missouri. We on the Supreme Court are also geographically diverse. I am from Nevada, in the southwest corner of the state. Judge Zel Fischer grew up in Watson, as far north and west as you can get and still be in Missouri (rumor has it, you can see Nebraska from there). Judge Paul Wilson is from right here in Jefferson City. Judge George Draper is from St. Louis, and while Judge Laura Stith grew up in St. Louis, she has lived in Kansas City for more than 35 years. And Judge Mary Russell is from Hannibal.

This is my fourth and, I am relieved to say, last big speech to deliver as chief justice. But I welcome the chance to talk about my favorite subject – the courts, often called the “least understood” branch of government.

Our 3,400 employees serve in your courts and, every year, are asked to do more with less. I encourage you to visit a local courthouse and meet these dedicated professionals who embrace their responsibility to treat every person fairly and equitably and to resolve disputes according to the law.

Our state employees are the lowest paid in the nation. Despite this, they are hardworking, dedicated, and deserving of our respect. I know budget times are tight, but we must find a way to pay them 21st century wages for 21st century work. Please join me in recognizing our state employees who serve in *all* branches of our government.

In the last fiscal year, more than 1.8 million cases were filed in Missouri courts – of these, 60 percent involved municipal ordinance violations. In our circuit courts, the largest number of cases involve the prosecution of state crimes. Seventeen percent of our cases are civil – primarily small claims, domestic relations, landlord tenant matters and disputes of less than \$25,000. About 5 percent of *civil* cases – and fewer than 1 percent of *all* cases – involve tort claims like wrongful death or personal injury.

I understand Governor Greitens and some of you in the General Assembly have called for changes in the law governing certain types of cases.

Do *not* view these calls for action as a condemnation of our judicial system.

Our citizens can be proud of our courts, where they go to resolve their disputes peaceably and where their constitutional rights are protected. Day in and day out, in the courtrooms in your communities, hundreds of thousands of cases are adjudicated without fanfare. We, more than anyone, want our courts to live up to their responsibilities to properly administer justice.

So when serious problems in some St. Louis County municipal divisions came to light, we owned those problems. Though the vast majority of our 625 municipal divisions function well, the challenge of problem municipal divisions in St. Louis County and elsewhere in the state became an opportunity to make *all* of our municipal divisions better.

From within the judicial system, judges, prosecutors, defense attorneys, and clerks rolled up their sleeves and crafted solutions that would work. We are grateful for this leadership. Their yeoman's work turned recommendations for reforms into tangible change. Changes came when our Court imposed mandatory standards – effective upon their adoption in September – detailing how municipal divisions must operate under the law. The *standards are extensive*. We also put in place a code of conduct for all municipal division personnel and defined what constitutes a conflict of interest for judges who choose to wear multiple hats.

While some say the standards don't go far enough, others say they have gone too far. Some municipalities are finding it difficult to do what they *should* have been doing all along. But my years on the trial bench taught me if both sides are not totally satisfied, perhaps we got it right.

We and the state court administrator's office have also worked with a number of municipalities to consolidate their court operations, including 13 in St. Louis County. Consolidation results in reduced costs, which we hope will disincentivize municipalities from using courts as revenue generators. Many have worked hard to accomplish consolidation, particularly in St. Ann and Normandy. Unfortunately, the cost savings may not be fully realized for some, due to a law that caps the number of municipalities a judge may serve.

Additionally, Missouri's constitution places responsibility on the presiding judge of each circuit to supervise the municipal divisions. So, last month, the Supreme Court adopted protocols to guide presiding judges and make their authority clear. We recognize supervision poses a special challenge in St. Louis County and, in an effort to assist, the Supreme Court is providing municipal division monitors.

Municipal divisions are not alone in the spotlight. Others leveled criticisms at our juvenile divisions, including their very structure. Missouri has never been afraid to lead, and this state decided long ago our juvenile system should be different from other states. Our juvenile proceedings are designed to be non-adversarial, and all parties are required to act in the best interest of the child.

Nonetheless, we thoughtfully considered the criticisms and responded by enacting reforms that make *all* of our juvenile divisions better. In doing so, the judiciary worked with leaders from around the state to develop standards for juvenile officers. These standards, adopted in December, create uniform practices and procedures; establish a code of conduct; and outline best practices that promote better outcomes for Missouri's children.

Our next goal is to improve pretrial incarceration practices. Incarcerating persons simply because they are too poor to post bond needs to be examined in both municipal and criminal cases. Under our Missouri Constitution, an individual may be incarcerated before trial only when charged with a capital offense; when a danger to a crime victim, a witness, or the community; or a flight risk. All other persons are entitled to reasonable conditions of release prior to trial, based on the particular circumstances of their cases.

Our cities and counties incur costs for pretrial incarcerations of people who simply are poor. There are individual and societal consequences from these unwarranted pretrial incarcerations. The consequences impact the defendants, their families and, ultimately, the state. Defendants lose not only their freedom but also their ability to earn a living and to provide for loved ones. Children may even come into state custody, because incarcerated parents are not home to care for them. And – after only *three days* in jail – the likelihood that an individual will commit future crimes also increases.

A Supreme Court task force will examine how other states and cities have addressed the problem of unwarranted pretrial incarceration and recommend changes to our practices. We look forward to sharing what we learn with you and working together to enact common-sense reforms.

We also will be sharing with you the work of the Supreme Court's committee on treatment courts. The committee is completing a strategic plan that can be a roadmap to improving both the quality of and access to treatment courts in Missouri. Our branches of government have long worked together because treatment courts are a proven, cost-effective way to change the lives of persons charged with crimes due to addiction or mental health disorders. Missouri is a national leader in developing quality treatment courts; however, we have not realized their full potential to reduce recidivism, produce productive citizens, reunify families, and address the needs of our veterans. Your continued support will be essential if we ever are to realize the full potential of treatment courts.

Technology also remains a top priority as we strive to make courts as accessible as possible to our citizens. As Governor Greitens noted last week, we need a modern government that allows people to do more online instead of making them wait in line. We share that goal.

We are thankful for the expertise of our 21st century workforce, which has been invaluable in improving and modernizing our computer

systems. Our judges and staff are collaborating in the development of software that puts more information at a judge's fingertips and will allow potential jurors to get information about their service from their smartphones. We are also developing a traffic and ordinance case management system to increase the efficiency of municipal divisions in managing and disposing of cases, assessing authorized costs, and processing payments. The system will ultimately reduce the number of litigants who must come to court because they will have increased access to the courts from their mobile devices.

We are grateful the legislature recognized the need to automate our courts back in 1994 and has partnered with and supported us in accomplishing that goal. The work has been overseen by the Missouri Court Automation Committee, on which Senators Bob Dixon and Scott Sifton – along with Representatives Robert Cornejo and Joe Don McGaugh – work with the judicial and the executive branches.

In 2016, Missouri completed its statewide electronic filing system. We are *the first* state to have e-filing in all courts of record. We also finished implementing “Pay by Web,” which allows Missourians to pay fees and costs online. And “Track this Case” lets the public receive e-mail notices of activity in pending cases. Who here doesn't know about Case.net, which provides information about more than 20 million cases statewide and receives an average of 5 million hits every workday.

While Case.net lets you know that documents have been filed in court, you cannot access those documents without going to a courthouse and using a public computer terminal. The Missouri Court Automation Committee has recommended the judiciary allow remote access, but expansion of public access to case records can be done *only* if the security and reliability of the courts' essential operations can be guaranteed. And such expansion of the system will require more resources than currently available. To defray the expenses of expansion and maintenance, the courts and legislature may need to consider means such as subscription fees or pay-per-view charges like those assessed by federal courts.

Equally of concern is the question of exactly what should be available online. Missouri statutes govern which case documents are public. But many of these statutes were enacted before – sometimes *long* before – the modern computer age. So it is safe to say statutes making certain case documents “public” meant available at the clerk's office, and in paper form, not available instantly to anyone anywhere in the world.

Certainly, a strong presumption of openness is a bedrock of our legal system. But – given the unique concerns arising from online access – the Court wants to *be sure* the legislature has the opportunity to reexamine statutes governing public case documents to determine if they are the will of *this* body and the people *you* represent. We are willing to advise and assist in any way we can.

As we move forward with innovations and improvements, we do so with two significant changes in leadership.

In late November, our colleague Judge Richard Teitelman passed away. Simply known as Judge Rick to many, he was the first person of Jewish faith and the first legally blind person to serve as a judge of our state's high court. He believed in the goodness of humanity and was a steadfast champion of equal justice. While we may not have always agreed in our legal opinions, we knew no friend more loyal or caring, and *we miss him*.

And so the process to fill his vacancy has begun. As provided by our state constitution, any licensed Missouri attorney who meets the age and residency requirements may apply until February 3rd. If you know of qualified individuals you believe would be an asset to our Court, please nominate and encourage them to apply. Interviews will be held at the end of February at the Supreme Court and are open to the public. The Appellate Judicial Commission will select three well-qualified nominees for the governor's consideration. The constitution gives Governor Greitens 60 days to conduct his own review and select the new judge. We look forward to this appointment.

We also begin the year with a new leader at the Supreme Court. Bill Thompson, who expertly guided us as counsel and clerk for more than 38 years, retired in December. He was succeeded by the first woman ever to hold the position of clerk – Betsy AuBuchon. Many of you may know Betsy from her days in the capitol. She has earned our respect and trust, and we are confident she will be an exceptional leader for Missouri's judicial system. We know these two additions to the judiciary will help us continue to make our courts better for Missouri's citizens.

Speaker Richardson, you commented in your address on the first day of the session that we must ensure our court system is fair to *all* litigants. We agree ... and are so very grateful our courts are staffed by dedicated and talented people who share that belief and properly handle cases of *all* types. Missouri has a judicial system of which we can be proud. We constantly strive to better serve our citizens and, as we look to the future, I have no doubt we will continue to do so.

Thank you for your support of the judicial branch. I wish you all the best in your service to the people of Missouri.

FIRST REGULAR SESSION

TWELFTH DAY—WEDNESDAY, JANUARY 25, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Reverend Carl Gauck offered the following prayer:

“And those who know Your name will put their trust in You: for You, O Lord, have not forsaken those that seek You.” (Psalm 9:10)

Dear Lord, each day we hear the news that is full of trouble, with so much pain and sorrow and calls to our office seeking help for their difficulties, that it seems that is all there is. So we turn to You and know that You are near on our darkest days and there we find comfort in knowing You are present in our lives. Your presence gives us light and direction to lighten our mood and energize our efforts so we give You thanks and praise for Your being in our lives. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

SENATE CONCURRENT RESOLUTION NO. 12

Relating to Law Enforcement Recognition Week.

Whereas, designating a period of time to recognize and appreciate our law enforcement officers is an altogether fitting expression of our gratitude toward them; and

Whereas, the brave men and women who undertake the difficult and sometimes impossible pledge to protect and serve the public are essential to the safety of our citizens; and

Whereas, our law enforcement officers too frequently receive little or no expressed appreciation for performing services which place enormous burdens upon themselves and their families and which may, at any time, place them in danger of losing life and limb; and

Whereas, the people of Missouri hold law enforcement officers in the highest regard and wish to express profound appreciation for them:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby designate the week beginning on the second Saturday of June each year as "Law Enforcement Recognition Week" in the state of Missouri, and encourage citizens of Missouri to observe the week with appropriate activities and events to recognize and support the men and women who protect and serve the public; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare a properly inscribed copy of this resolution for the Governor for his approval or rejection pursuant to the Missouri Constitution.

Journal of the Senate

FIRST REGULAR SESSION

FOURTEENTH DAY—MONDAY, JANUARY 30, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Senator Rowden offered the following prayer:

Our Father, as we enter in to a new week here in the Missouri Senate, we do so with a deep understanding of the challenges and opportunities before us. We are humans — deeply flawed and in need of guidance and wisdom that only You can provide. We come before You in humility, recognizing the importance of the decisions we make in this chamber and their impact on the people of this great state.

Today, we pray for those in this state who are in need. The single mom struggling to make ends meet, the family broken by addiction, the grandmother struggling to raise her two young grandchildren alone. As we begin our duties this week, I pray that we would have the clearest understanding possible of the work that can be done in this chamber to help those who, for whatever reason, cannot help themselves.

I pray that we would heed the words on the prophet Micah —

He has told you, O man, what is good—

and what does the Lord require of you,

but to do justice and to love kindness,

and to walk humbly with your God?

We thank You for placing us here at this time and at this place to serve the people of Missouri. It is a responsibility we will not take for granted, but embrace with thankfulness in our hearts. AMEN

Journal of the Senate

FIRST REGULAR SESSION

FIFTEENTH DAY—TUESDAY, JANUARY 31, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Senator Schupp offered the following prayer:

Good morning.

The Torah is the first five books of Moses...Genesis, Exodus, Leviticus, Numbers and Deuteronomy. The Torah portion being studied this week by Jews around the world deals with the final 3 plagues that result in Israelites being granted their freedom from slavery under the Egyptian Pharaoh.

The 9th and final plague was the plague of darkness, darkness so thick that the people were immobilized and felt lost even in their own familiar surroundings... for whole of the three days the plague lasted.

As we look to the lessons for today, we recognize that we, too, can get lost in the darkness, losing sight of what is really important in the midst of this familiar place. ...Losing sight of the true needs: for justice, for equality, for freedom and protections for all of the people of Missouri.

Today's prayer is in the form of a poem from Alden Solovy, with adaptations entitled:

For Political Leadership

God of history,

We yearn for thoughtful leadership,

For men and women of inspiration and insight,

Visionaries to build nations and communities

In Your image,

Stewards dedicated to justice,

Unafraid to face the challenges of our day,

Doing so without being lead by fear...

So that our cities and countries resonate with

Compassion and health,

Justice and mercy,

Kindness and peace.

Bless our leaders

With dedication and foresight,

Fortitude and imagination

To solve the complex issues that threaten our future.

May they lead us to a time when neighbors embrace
 And the communities thrive,
 A time when liberty and equality
 Reign supreme.

Source and Shelter,
 Grant safety and security to all nations and communities,
 So that truth and harmony will resound
 From the four corners of the earth.
 Let the light of wisdom
 Shine brightly in the halls of power,
 A beacon of hope
 For every land and every people.
 And together we say: Amen

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal for the previous day was read and approved.

The following Senators were present during the day's proceedings:

SENATE CONCURRENT RESOLUTION NO. 14

Relating to an application to Congress for the calling of an Article V convention of states to propose an amendment to the United States Constitution regarding term limits for members of Congress.

Whereas, Article V of the Constitution of the United States requires a Convention to be called by the Congress of the United States for the purpose of proposing an amendment to the Constitution upon application of two-thirds of the Legislatures of the several states; and

Whereas, the Legislature of the State of Missouri favors a proposal and ratification of an amendment to said Constitution, which shall set a limit on the number of terms that a person may be elected as a member of the United States House of Representatives and as a member of the United States Senate:

Now, Therefore, Be It Resolved by the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby make an application to Congress, as provided by Article V of the Constitution of the United States of America, to call a convention limited to proposing an amendment to the Constitution of the United States of America to set a limit on the number of terms that a person may be elected as a member of the United States House of Representatives and to set a limit on the number of terms that a person may be elected as a member of the United States Senate; and

Be It Further Resolved that this application shall be considered as covering the same subject matter as the applications from other states to Congress to call a convention to set a limit on the number of terms that a person may be elected to the House of Representatives of the Congress of the United States and the Senate of the United States; and this application shall be aggregated with same for the purpose of attaining the two-thirds of states necessary to require Congress to call a limited convention on this subject, but shall not be aggregated with any other applications on any other subject; and

Senator Hoskins offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 15

Whereas, on August 21, 2017, the moon will orbit between the earth and the sun and obstruct the light of the sun, thus creating a total solar eclipse; and

Whereas, the last total solar eclipse visible in the continental United States occurred in 1979; and

Whereas, this total solar eclipse will travel across the continental United States from Oregon to South Carolina; and

Whereas, the last total solar eclipse visible in Missouri occurred in 1869; and

Whereas, the center of this solar eclipse will travel directly from St. Joseph, Missouri to Perryville, Missouri, and the moon will cast a seventy-mile-wide shadow over the cities of Rock Port, Savannah, Kansas City, Chillicothe, Marshall, Moberly, Sedalia, Columbia, Jefferson City, Chesterfield, Farmington, and Cape Girardeau; and

Whereas, the moment when the moon's leading edge first obstructs the sun's light and the moon begins to cast a partial shadow is called first contact; and

Whereas, the moment when the moon's leading edge obstructs the other edge of the sun and the moon first fully obstructs the sun and casts a full shadow is called second contact; and

Whereas, the moment when the trailing edge of the moon begins receding from the sun's edge and the moon again casts a partial shadow is called third contact; and

Whereas, the time between second contact and third contact when the moon obstructs all of the sun's direct light is called the totality; and

Whereas, during both the second contact and third contact when the sun is not quite entirely obstructed by the moon, bits of sunlight will shine only through the valleys and craters of the moon creating bright spots called Baily's Beads; and

Whereas, during the totality day turns to night, stars can be seen in the sky, insects chirp, the temperature cools, the sun produces a halo effect around the black orb of the moon, and the sky on the horizon in every direction is the color of a sunset; and

Whereas, the moment when the moon's trailing edge fully passes away from the sun and no longer casts any shadow is called fourth contact; and

Whereas, first contact will occur at 11:40 A.M. on the western border of Missouri and at 11:51 A.M. on the eastern border of Missouri; and

Whereas, the time between first contact and fourth contact will be approximately two hours and fifty-five minutes; and

Whereas, the totality's Greatest Duration is located so that the length of the totality throughout all of Missouri will be within two seconds of the Greatest Duration: two minutes and forty seconds; and

Whereas, the rare event of a total solar eclipse will be an economic boon to the state; and

Whereas, over an estimated half million people will travel to Missouri to experience this total solar eclipse; and

Whereas, counties along the path of the eclipse expect to double and triple their populations for the day; and

Whereas, hotel rooms are already fully booked, public viewing areas have been designated, buses have been chartered, and small businesses are gearing up for large crowds; and

Whereas, Rosecrans Memorial Airport in St. Joseph was reserved as a viewing area five years in advance of the eclipse; and

Whereas, Faurot Field at the University of Missouri - Columbia has sold out its seventy-one thousand seats for viewing the eclipse; and

Whereas, over five hundred thousand special viewing glasses have been ordered for the multiple eclipse-related events across Missouri; and

Whereas, hundreds of people across the state have worked for two years in anticipation of the economic opportunity the total solar eclipse presents to the state by holding meetings, providing educational packets to schools, and creating events to inform the public; and

Whereas, various communities throughout the state will host eclipse-related celebrations, festivals, and activities; and

Whereas, schools and colleges are planning eclipse-related education lessons and events; and

Whereas, no picture can do the experience of a total solar eclipse justice, and one must be seen in person; and

Whereas, Missouri is an ideal location to view the 2017 total solar eclipse:

Now Therefore Be It Resolved that the members of the Senate of the Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby designate August 21, 2017, as "Total Eclipse Day" in the State of Missouri; and

BE IT FURTHER RESOLVED that the citizens of and visitors to this state are encouraged to observe the day with appropriate events and activities to witness the total solar eclipse.

TWENTY-THIRD DAY—TUESDAY, FEBRUARY 14, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Reverend Carl Gauck offered the following prayer:

“Enjoy life with the wife whom you love, all the days of your vain life that are given you under the sun...” (Ecclesiastes 9:9a)

Loving Lord, You have shown the beauty and depth of love You have for us Your children and we know that You require us to show this love to those You have given us to love, as well as those for whom we are responsible. So on this Valentine’s day of love we ask that You help us so we might express openly the depth of our love to our spouse and children so they may truly know how much we care and appreciate them in our lives and the richness they add to it. In Your Holy Name we pray. Amen.

SENATE CONCURRENT RESOLUTION NO. 16

Whereas, on April 19, 1775, the Continental Army engaged in the first battles of the Revolutionary War, known as the Battles of Lexington and Concord. The battles marked the outbreak of open armed conflict between the Kingdom of Great Britain and thirteen of its colonies on the mainland of British America to establish American independence; and

Whereas, the first Militia units, transforming into today's National Guard, were established in the Massachusetts Bay Colonies on December 13, 1636, armed to protect American citizens; and

Whereas, between 1775 and today over 41 million Americans have served in the Armed Forces of the United States, in addition to countless Militiamen between 1636 and 1775; and

Whereas, the United States has suffered casualties of over 1.4 million men and women, including scores of Missouri citizens, who have made the ultimate sacrifice defending democracy and freedom; and

Whereas, the families who have lost immediate relatives in the support of military operations, known as Gold Star Families, are also tragedies of war and armed conflict; and

Whereas, the people of Missouri wish to properly honor our military men and women who gave their lives in the service of our country, and thank their families for their sacrifice and bravery, recognizing that no one has given more for the nation than the families of the fallen; and

Whereas, war memorials perpetuate the appreciation and legacy of our fallen hero warriors and their families present and past and educate communities about the price paid for our way of life; and

Whereas, the purpose of the Gold Star Families Memorial Monument is to honor Gold Star families, relatives, and Gold Star children who have sacrificed and lost loved ones in the service of their country, and who stand as a stark reminder that freedom is not free; and

Whereas, it is appropriate to honor the fallen warriors and their families from the state of Missouri by recognizing the Gold Star Families Memorial Monument, which is to be constructed on the College of the Ozarks campus, as the official Gold Star Families Memorial Monument of the state of Missouri:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby recognize the Gold Star Families Memorial Monument, which is to be constructed on the College of the Ozarks campus in Point Lookout, Missouri, as the official Gold Star Families Memorial Monument of Missouri; and

Journal of the Senate

FIRST REGULAR SESSION

TWENTY-FOURTH DAY—WEDNESDAY, FEBRUARY 15, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Reverend Carl Gauck offered the following prayer:

“I will sing of your steadfast love, O Lord forever; with my mouth I will proclaim your faithfulness to all generations.” (Psalm 89:1)

God of all generations You have promised us Your steadfast love and have shown Your faithfulness toward us. You provide through others the experience of love that will never let us go. You open our hearts to the richness of Your grace and require us to share and witness such love with others whom You put in our lives. Such love and caring is wonderful to embrace and for which we give You thanks. In Your Holy Name we pray. Amen.

Senator Brown offered Senate Resolution No. 268, regarding Paula Volkmer, Rolla, which was adopted.

Senator Curls offered Senate Resolution No. 269, regarding the Fiftieth Birthday of Andre Lazar Davis, Lenexa, Kansas, which was adopted.

Senator Kraus offered the following resolution:

SENATE RESOLUTION NO. 270

Whereas, federal identification standards pose a grave threat to the full faith and credit guaranteed to each of the several States in Article IV, Section 1 of the United States Constitution; and

Whereas, the tenth amendment to the United States Constitution reserves for the States or people all rights not delegated to the federal government; and

Whereas, the Constitution of the United States does not delegate authority to the federal government to create identification standards, nor to condition the full faith and credit owed to a State's acts, records, and proceedings; and

Whereas, identification documents have traditionally and historically been the province of the several States; and

Whereas, the REAL ID Act increases the administrative burden on the States, and will result in increased expense for license and identification card applicants, as well as extended waiting and processing times; and

Whereas, history has shown that all governments, even our own, present a hazard of overreach and tyranny; and

Whereas, in 2009, the Missouri General Assembly passed legislation, signed by Governor Nixon, expressly forbidding the state from cooperating with the REAL ID Act; and

Whereas, in 2013, the Missouri General Assembly passed legislation, signed by Governor Nixon, clearly prohibiting the Department of Revenue from retaining source documents as required by the REAL ID Act; and

Whereas, in 2014, the people of Missouri passed Amendment 9 to ensure their personal privacy is not violated by our government; and

Whereas, the people of Missouri have made it abundantly clear that they value their privacy and refuse to sacrifice it under the guise of security; and

Whereas, implementation of the REAL ID Act will put in place a system that would further enable a surveillance state; and

Whereas, federal identification standards pose a profound threat to the unencumbered exercise of the constitutional rights forming the bedrock of ordered liberty and a free society; and

Whereas, the brave men and women of our armed forces put their lives on the line, and sometimes make the ultimate sacrifice, to defend the very freedom and liberty the REAL ID Act asks our nation to so recklessly abandon:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, hereby urge that the United States Congress repeal the REAL ID Act of 2005; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for each member of Missouri's Congressional delegation.

CONCURRENT RESOLUTIONS

Senator Curls offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 17

Whereas, twenty-eight million United States citizens have cognitive disabilities such as intellectual disability; severe, persistent mental illness; brain injury; stroke; and neurodegenerative disorders such as Alzheimer’s disease; and

Whereas, people with cognitive disabilities are entitled to inclusion in our democratic society under federal laws such as the Americans

with Disabilities Act, the Developmental Disabilities Assistance and Bill of Rights Act, the Individuals with Disabilities Act, Section 504 of the Rehabilitation Act, and under state and local laws; and

Whereas, the disruptive convergence of computing and communication technologies has substantially altered how people acquire, utilize, and disseminate knowledge and information; and

Whereas, access to comprehensible information and usable communication technologies is necessary for all people in our society, particularly for people with cognitive disabilities, to promote self-determination and to engage meaningfully in major aspects of life such as education, health promotion, employment, recreation, and civic participation; and

Whereas, the vast majority of people with cognitive disabilities have limited or no access to comprehensible information and usable communication technologies; and

Whereas, people with cognitive disabilities must have access to commercially available devices and software that incorporate principles of universal design such as flexibility and ease of use for all; and

Whereas, technology and information access by people with cognitive disabilities must be guided by standards and best-practices, such as personalization and compatibility across devices and platforms, and through the application of innovations including automated and predictive technologies; and

Whereas, security and privacy must be assured and managed to protect civil rights and personal dignity of people with cognitive disabilities; and

Whereas, enhanced public and private funding is urgently required to allow people with cognitive disabilities to utilize technology and access information as a natural consequence of their rights to inclusion in our society; and

Whereas, ensuring access to technology and information for the 28 million people with cognitive disabilities in the United States will create new markets and employment opportunities; decrease dependency on public services; reduce health care costs; and improve the independence, productivity, and quality of life of people with cognitive disabilities:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby urge a commitment to equal rights for people with cognitive disabilities to technology and information access and call for implementation of such rights with deliberate speed.

Journal of the Senate

FIRST REGULAR SESSION

TWENTY-FIFTH DAY—THURSDAY, FEBRUARY 16, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Reverend Carl Gauck offered the following prayer:

“But I, O Lord, cry out to you; in the morning my prayer comes before you.” (Psalm 88:17)

O Lord, on such a beautiful day we gather with the realization that You are the foundation of our lives and without You everything we do is in vain. So our prayers rise to You that You will be with us this day, bringing us safely home to share a time of love and delight with those You have given us to love. Their presence in our lives is truly a delight for which we give You thanks and praise. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

SENATE CONCURRENT RESOLUTION NO. 18

Whereas, On January 30, 2015, Secretary Chuck Hagel established the Defense POW/MIA Accounting Agency (DPAA) with the goal to remain committed to bringing our missing and fallen heroes home; and

Whereas, DPAA has launched investigations worldwide to locate sites associated with unaccounted servicemen, including Vietnam where 1,617 Americans remain missing; and

Whereas, the United States involvement in the Vietnam War ended with the Paris Peace Accords on January 27, 1973; and

Whereas, there are 35 Missourians who are unaccounted for, 20 of those men are classified as killed in action, body not recovered, and 15 are classified as presumptive finding of death; and

Whereas, those 15 servicemen include: First Lieutenant Steven Neil Bezold, Chief Warrant Officer 2 Donald Martin Cramer, First Lieutenant William R. Edmondson, Private First Class Dickey W. Finley, Private First Class Paul Alfred Hasenbeck, First Lieutenant Frederick William Hess Jr., Lieutenant Junior Grade Charles Weldon Marik, Major Carl D. Miller, First Lieutenant Bernard Herbert Plassmeyer, Lieutenant Colonel Dayton William Ragland, First Lieutenant Dwight G. Rickman, Captain Robert Page Rosenbach, Captain John W. Seuell, First Lieutenant George Craig Smith, and Sergeant Randolph Bothwell Suber; and

Whereas, the families of those 15 servicemen have not had the closure of knowing what happened to their loved ones, or the option to bring their loved ones home for an honorable burial; and

Whereas, it has been 44 years since the end of the Vietnam War and 15 Missouri families have yet to be made whole again; and

Whereas, the DPAA needs to prioritize finding the 15 Missouri servicemen who are classified as presumptive finding of death and bring closure to those families:

Now, Therefore, Be It Resolved by the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby urge the Defense POW/MIA Accounting Agency to prioritize resolving the cases of the 15 Missourians from the Vietnam War whose status is presumptive finding of death; and

Journal of the Senate

FIRST REGULAR SESSION

TWENTY-SIXTH DAY—MONDAY, FEBRUARY 20, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Reverend Carl Gauck offered the following prayer:

“Let us with caution indulge the supposition that morality can be maintained without religion. Reason and experience both forbid us to expect that national morality can prevail in exclusion of religious principle.” (George Washington)

Almighty God, on this presidents’ day we are mindful that You led the minds, hearts and spirits of those who fought for and formulated the constitution and its principles that would bring forth a new nation. Their acknowledging of Your guidance in their lives and their willingness to embrace the need of religious principles to guide the nation has continued to help us in our deliberations and the laws we pass. We are grateful that You have set down in Your word what is needful by us so we too might be faithful and connected to You. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

CONCURRENT RESOLUTIONS

Senator Emery offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 19

Whereas, allowing retail customers of electric generation to have access to competitive suppliers of retail electricity is being considered by many states, and has already been implemented in several other states; and

Whereas, the ability of Missouri citizens and businesses to compete in the global market may be harmed unless they have access to reliable electrical power at rates and on terms which are competitive with rates and terms in others states; and

Whereas, legislation designed to implement retail competition and an associated restructuring of the electric utility industry will require a careful examination of existing law, and the provisions of that legislation must take into account a variety of issues and factors:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby create the Task Force on Retail Electric Competition and the Restructuring of the Electric Utility Industry; and

Be It Further Resolved that the mission of the task force shall be to fully consider and make recommendations in a report to the General Assembly on:

(1) The method, feasibility, and impact of implementing retail electric competition on Missouri generators of electricity and Missouri consumers of electricity;

(2) The costs and benefits other states have experienced as a result of retail electric competition;

(3) The taxation and regulatory issues associated with restructuring the electric utility industry;

(4) The social, environmental, and other public service functions provided by the regulated electric utility industry to determine the potential impact of retail electric competition on these functions;

(5) Whether, and under what terms, retail electric competition should be offered in Missouri; and

Be It Further Resolved that the task force be authorized to call upon any department, office, division, or agency of this state to assist in gathering information pursuant to its objective; and

Be It Further Resolved that the task force shall consist of the following members:

(1) One member of the senate of the majority party appointed by the president pro tempore of the senate, to serve as the chair of the task force;

(2) One member of the house of representatives of the majority party appointed by the speaker of the house of representatives, to serve as the vice chair and secretary of the task force, and who will provide an agenda and report minutes of the task force;

(3) One member of the majority party of the senate and one member of the minority party of the senate appointed by the president pro tempore of the senate;

(4) One member of the majority party of the house of representatives and one member of the minority party of the house of representatives appointed by the speaker of the house of representatives;

(5) The Office of the Public Counsel, or his or her designee, to serve as a member and to provide technical assistance to the task force;

(6) The Director of the Division of Energy, or his or her designee, to serve as a member and to provide technical assistance to the task force;

(7) The Chair of the Public Service Commission, or his or her designee, to serve as a member and to provide technical assistance to the task force;

(8) A representative from each of the three segments of the retail electric industry appointed by the president pro tempore of the senate from the respective nominees submitted by the statewide associations of the investor-owned electric utilities, rural electric cooperatives, and municipally-owned electric utilities;

(9) A representative of retail electric consumers appointed by the speaker of the house of representatives;

(10) Two members representing the renewable energy industry appointed by the Chair of the Public Service Commission;

(11) Two members appointed by the Chair of the Public Service Commission representing each of the regional transmission organizations whose coverage area includes Missouri: Southwest Power Pool and Midcontinental Independent System Operator; and

Be It Further Resolved that the staff of Senate Research and House Research shall provide such legal, research, clerical, technical, and bill drafting services as the task force may require in the performance of its duties; and

Be It Further Resolved that the task force, its members, and any staff assigned to the task force shall receive reimbursement for their actual and necessary expenses incurred in attending meetings of the task force; and

Be It Further Resolved that the chair or vice chair and secretary of the task force shall call an organizational meeting within fifteen days of the adoption of this resolution; and

Be It Further Resolved that the task force shall terminate by either a majority of members voting for termination, or by December 31, 2018, whichever occurs first; and

Be It Further Resolved that on the date of termination, the task force may deliver a report of findings and recommendations to the General Assembly; and

Be It Further Resolved that this resolution does not amend any state law to which any retail electric generator or consumer is subject, and shall be interpreted to be consistent with any requirements of such state or federal law; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the Office of Public Counsel, the Division of Energy, and the Chair of the Public Service Commission.

Senator Rizzo offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 20

Whereas, Missouri residents with disabilities are deserving of having the same choice of where, how, and with whom they work and spend their time as other Missouri residents; and

Whereas, Missouri sheltered workshops, in partnership with business and industry, are an integral part of their local communities and their economies; and

Whereas, programs and employment offered by Missouri's sheltered workshops, through projects contracted at their facilities, supported enclaves, contracts at Missouri's rest stops, employment through AbilityOne contracts, and independent work assignments provide Missouri residents with disabilities the opportunity to meet new people, gain new skills, and earn the respect, dignity, and other ancillary human benefits that come with earning a paycheck and making a contribution to society; and

Whereas, approximately 6,000 Missouri residents with disabilities avail themselves of the opportunity to participate in these programs and related employment; and

Whereas, the parents, guardians, and caregivers of many of these participants support and attest to the benefits of these programs and the employment provided under them; and

Whereas, individuals with disabilities should be free to choose the settings in which they receive services or employment, including programs and employment offered by Missouri's sheltered workshops through projects contracted at their facilities, supported enclaves, contracts at Missouri's rest stops, employment through AbilityOne contracts, and independent work assignments:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby reaffirm Missouri's support of the services of the sheltered workshops of our state.

THIRTY-SECOND DAY—WEDNESDAY, MARCH 1, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Reverend Carl Gauck offered the following prayer:

“O God, you are my God, I seek You, my soul thirsts for You; my flesh faints for You as in a dry and weary land where there is no water.”

Merciful God, many of Your people observe Ash Wednesday and this season of Lent that calls us to reflect on our lives and how we are called by You to live them. May we receive from You, the God of all mercy, full pardon and forgiveness being aware of our missing the mark of Your call to righteousness. You hear our groans and provide us with hope. As we walk through this day of ashes toward Your promise to be with You always. In Your Holy Name we pray. Amen.

CONCURRENT RESOLUTIONS

SENATE CONCURRENT RESOLUTION NO. 21

Whereas, the founders of this great nation set forth on the Earth an enduring Republic and charged future generations with the solemn duty of its preservation; and

Whereas, the Constitution of these United States, which is the cornerstone of this Republic, establishes the process to propose and ratify amendments to itself, including a process reserved for the state legislatures in Article V of the United States Constitution; and

Whereas, the State of Missouri recognizes that this process to amend the United States Constitution should by right be held in esteem, worthy of the sacrifice of our founders; and

Whereas, the State of Missouri recognizes that a preexisting set of rules and procedures to convene a convention for proposing amendments under Article V of the United States Constitution is desirable to ensure that such a convention functions effectively and decisively; and

Whereas, the State of Missouri recognizes that the Assembly of State Legislatures, made up of a bipartisan group of state legislators from 45 states, has met over a period of four years to carefully craft and consider rules and procedures for the convening of an Article V convention:

Now, Therefore, Be It Resolved by the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby declares that should a convention for proposing amendments under Article V of the United States Constitution be called, the State of Missouri supports the adoption of the rules and procedures adopted by the Assembly of State Legislatures on June 17, 2016 as the official rules and procedures to convene such a convention; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare a properly inscribed copy of this resolution for the Executive Committee of the Assembly of State Legislatures.

Senator Kraus moved that **SR 270** be taken up for adoption, which motion prevailed.

Senator Kraus offered **SS** for **SR 270**, entitled:

SENATE SUBSTITUTE FOR
SENATE RESOLUTION NO. 270

Whereas, the tenth amendment to the United States Constitution reserves for the States or people all rights not delegated to the federal government; and

Whereas, the Constitution of the United States does not delegate authority to the federal government to create identification standards, nor to condition the full faith and credit owed to a State's acts, records, and proceedings; and

Whereas, identification documents have traditionally and historically been the province of the several States; and

Whereas, the REAL ID Act increases the administrative burden on the States, and will result in increased expense for license and identification card applicants, as well as extended waiting and processing times; and

Whereas, history has shown that all governments, even our own, present a hazard of overreach and tyranny; and

Whereas, in 2009, the Missouri General Assembly passed legislation, signed by Governor Nixon, expressly forbidding the state from cooperating with the REAL ID Act; and

Whereas, in 2013, the Missouri General Assembly passed legislation, signed by Governor Nixon, clearly prohibiting the Department of Revenue from retaining source documents as required by the REAL ID Act; and

Whereas, in 2014, the people of Missouri passed Amendment 9 to ensure their personal privacy is not violated by our government; and

Whereas, the people of Missouri have made it abundantly clear that they value their privacy and refuse to sacrifice it under the guise of security; and

Whereas, implementation of the REAL ID Act will put in place a system that may further enable a surveillance state; and

Whereas, the brave men and women of our armed forces put their lives on the line, and sometimes make the ultimate sacrifice, to defend our freedom and liberty:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, hereby urge that the United States Congress repeal the REAL ID Act of 2005; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for each member of Missouri's Congressional delegation.

Journal of the Senate

FIRST REGULAR SESSION

THIRTY-FOURTH DAY—MONDAY, MARCH 6, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Reverend Carl Gauck offered the following prayer:

“Teach me Your way, O Lord, that I may walk in Your truth; give me an undivided heart to revere Your name.” (Psalm 86:11)

My God of truth, life has a way of making the most hopeful people skeptical. There is so much that is bogus and so much put before us that are at best half-truths. We thank You for the gift of doubting so we may be seekers of what is truth and is helpful. We thank You for keeping us excited and eager to do what You have sent us here to do. So this week and day help us as we knock and seek and ask, obeying Your directing us to know the truth and act on it. In Your holy name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

Journal of the Senate

FIRST REGULAR SESSION

THIRTY-FIFTH DAY—TUESDAY, MARCH 7, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Reverend Carl Gauck offered the following prayer:

“All your works shall give thanks to you, O Lord, and all your faithful shall bless you.” (Psalm 145:10)

Creator God, we receive Your storms and rain with thanksgiving for it waters the earth and nourishes the land so all we need grows and we are the benefactors of Your gracious gifts to us. We are thankful for that there was no loss of life but are concerned by the destruction left behind and ask that You show us how to assist those in need. And we are thankful for this wonderful new day, crisp morning and blue skies and say it is a wonderful day to be alive. May we value the opportunities of each day and find our walk in Your presence, pleasing in Your sight. In Your Holy Name we pray. Amen.

SENATE AMENDMENT NO. 1

Amend Senate Substitute for Senate Bill No. 228, Page 7, Section 104.1003, Line 1, by inserting after all of said line the following:

“104.1091. 1. Notwithstanding any provision of the year 2000 plan to the contrary, each person who first becomes an employee on or after January 1, 2011, shall be a member of the year 2000 plan subject to the provisions of this section.

2. A member’s normal retirement eligibility shall be as follows:

(1) The member’s attainment of at least age sixty-seven and the completion of at least ten years of credited service; or the member’s attainment of at least age fifty-five with the sum of the member’s age and credited service equaling at least ninety; or, in the case of a member who is serving as a uniformed member of the highway patrol and subject to the mandatory retirement provisions of section 104.081, such member’s attainment of at least age sixty or the attainment of at least age fifty-five with ten years of credited service;

(2) For members of the general assembly, the member’s attainment of at least age sixty-two and the completion of at least three full biennial assemblies; or the member’s attainment of at least age fifty-five with the sum of the member’s age and credited service equaling at least ninety;

(3) For statewide elected officials, the official’s attainment of at least age sixty-two and the completion of at least four years of credited service; or the official’s attainment of at least age fifty-five with the sum of the official’s age and credited service equaling at least ninety.

3. A vested former member’s normal retirement eligibility shall be based on the attainment of at least age sixty-seven and the completion of at least ten years of credited service.

4. A temporary annuity paid pursuant to subsection 4 of section 104.1024 shall be payable if the member has attained at least age fifty-five with the sum of the member’s age and credited service equaling at least ninety; or in the case of a member who is serving as a uniformed member of the highway patrol and subject to the mandatory retirement provisions of section 104.081, the temporary annuity shall be payable if the

member has attained at least age sixty, or at least age fifty-five with ten years of credited service.

5. A member, other than a member who is serving as a uniformed member of the highway patrol and subject to the mandatory retirement provisions of section 104.081, shall be eligible for an early retirement annuity upon the attainment of at least age sixty-two and the completion of at least ten years of credited service. A vested former member shall not be eligible for early retirement.

6. The provisions of subsection 6 of section 104.1021 and section 104.344 as applied pursuant to subsection 7 of section 104.1021 and section 104.1090 shall not apply to members covered by this section.

7. The minimum credited service requirements of five years contained in sections 104.1018, 104.1030, 104.1036, and 104.1051 shall be ten years for members covered by this section. The normal and early retirement eligibility requirements in this section shall apply for purposes of administering section 104.1087.

8. A member shall be required to contribute four percent of the member's pay to the retirement system, which shall stand to the member's credit in his or her individual account with the system, together with investment credits thereon, for purposes of funding retirement benefits payable under the year 2000 plan, subject to the following provisions:

(1) The state of Missouri employer, pursuant to the provisions of 26 U.S.C. Section 414(h)(2), shall pick up and pay the contributions that would otherwise be payable by the member under this section. The contributions so picked up shall be treated as employer contributions for purposes of determining the member's pay that is includable in the member's gross income for federal income tax purposes;

(2) Member contributions picked up by the employer shall be paid from the same source of funds used for the payment of pay to a member. A deduction shall be made from each member's pay equal to the amount of the member's contributions picked up by the employer. This deduction, however, shall not reduce the member's pay for purposes of computing benefits under the retirement system pursuant to this chapter;

(3) Member contributions so picked up shall be credited to a separate account within the member's individual account so that the amounts contributed pursuant to this section may be distinguished from the amounts contributed on an after-tax basis;

(4) The contributions, although designated as employee contributions, shall be paid by the employer in lieu of the contributions by the member. The member shall not have the option of choosing to receive the contributed amounts directly instead of having them paid by the employer to the retirement system;

(5) Interest shall be credited annually on June thirtieth based on the value in the account as of July first of the immediately preceding year at a rate of four percent. Effective June 30, 2014, and each June thirtieth thereafter, the interest crediting rate shall be equal to the investment rate that is published by the United States Department of Treasury, or its successor agency, for fifty-two week treasury bills for the relevant auction that is nearest to the preceding July first, or a successor treasury bill investment rate as approved by the board if the fifty-two week treasury bill is no longer issued. Interest credits shall cease upon termination of employment if the member is not a vested former member. Otherwise, interest credits shall cease upon retirement or death;

(6) A vested former member or a former member who is not vested may request a refund of his or her contributions and interest credited thereon. If such member is married at the time of such request, such request shall not be processed without consent from the spouse. Such member is not eligible to request a

refund if such member's retirement benefit is subject to a division of benefit order pursuant to section 104.1051. Such refund shall be paid by the system after ninety days from the date of termination of employment or the request, whichever is later, and shall include all contributions made to any retirement plan administered by the system and interest credited thereon. A vested former member may not request a refund after such member becomes eligible for normal retirement. A vested former member or a former member who is not vested who receives a refund shall forfeit all the member's credited service and future rights to receive benefits from the system and shall not be eligible to receive any long-term disability benefits; provided that any member or vested former member receiving long-term disability benefits shall not be eligible for a refund. If such member subsequently becomes an employee and works continuously for at least one year, the credited service previously forfeited shall be restored if the member returns to the system the amount previously refunded plus interest at a rate established by the board;

(7) The beneficiary of any member who made contributions shall receive a refund upon the member's death equal to the amount, if any, of such contributions and interest credited thereon less any retirement benefits received by the member unless an annuity is payable to a survivor or beneficiary as a result of the member's death. In that event, the beneficiary of the survivor or beneficiary who received the annuity shall receive a refund upon the survivor's or beneficiary's death equal to the amount, if any, of the member's contributions less any annuity amounts received by the member and the survivor or beneficiary.

9. The employee contribution rate, the benefits provided under the year 2000 plan to members covered under this section, and any other provision of the year 2000 plan with regard to members covered under this section may be altered, amended, increased, decreased, or repealed, but only with respect to services rendered by the member after the effective date of such alteration, amendment, increase, decrease, or repeal, or, with respect to interest credits, for periods of time after the effective date of such alteration, amendment, increase, decrease, or repeal.

10. For purposes of members covered by this section, the options under section 104.1027 shall be as follows:

Option 1. A retiree's life annuity shall be reduced to a certain percent of the annuity otherwise payable. Such percent shall be eighty-eight and one half percent adjusted as follows: if the retiree's age on the annuity starting date is younger than sixty-seven years, an increase of three-tenths of one percent for each year the retiree's age is younger than age sixty-seven years; and if the beneficiary's age is younger than the retiree's age on the annuity starting date, a decrease of three-tenths of one percent for each year of age difference; and if the retiree's age is younger than the beneficiary's age on the annuity starting date, an increase of three-tenths of one percent for each year of age difference; provided, after all adjustments the option 1 percent cannot exceed ninety-four and one quarter percent. Upon the retiree's death, fifty percent of the retiree's reduced annuity shall be paid to such beneficiary who was the retiree's spouse on the annuity starting date or as otherwise provided by subsection 5 of this section.

Option 2. A retiree's life annuity shall be reduced to a certain percent of the annuity otherwise payable. Such percent shall be eighty-one percent adjusted as follows: if the retiree's age on the annuity starting date is younger than sixty-seven years, an increase of four-tenths of one percent for each year the retiree's age is younger than sixty-seven years; and if the beneficiary's age is younger than the retiree's age on the annuity starting date, a decrease of five-tenths of one percent for each year of age difference; and if the retiree's age is younger than the beneficiary's age on the annuity starting date, an increase of five-tenths of one percent for each year of age difference; provided, after all adjustments the option 2 percent cannot

exceed eighty-seven and three quarter percent. Upon the retiree's death one hundred percent of the retiree's reduced annuity shall be paid to such beneficiary who was the retiree's spouse on the annuity starting date or as otherwise provided by subsection 5 of this section.

Option 3. A retiree's life annuity shall be reduced to ninety-three percent of the annuity otherwise payable. If the retiree dies before having received one hundred twenty monthly payments, the reduced annuity shall be continued for the remainder of the one hundred twenty-month period to the retiree's designated beneficiary provided that if there is no beneficiary surviving the retiree, the present value of the remaining annuity payments shall be paid as provided under subsection 3 of section 104.620. If the beneficiary survives the retiree but dies before receiving the remainder of such one hundred twenty monthly payments, the present value of the remaining annuity payments shall be paid as provided under subsection 3 of section 104.620.

Option 4. A retiree's life annuity shall be reduced to eighty-six percent of the annuity otherwise payable. If the retiree dies before having received one hundred eighty monthly payments, the reduced annuity shall be continued for the remainder of the one hundred eighty-month period to the retiree's designated beneficiary provided that if there is no beneficiary surviving the retiree, the present value of the remaining annuity payments shall be paid as provided under subsection 3 of section 104.620. If the beneficiary survives the retiree but dies before receiving the remainder of such one hundred eighty monthly payments, the present value of the remaining annuity payments shall be paid as provided under subsection 3 of section 104.620.

11. The provisions of subsection 6 of section 104.1024 shall not apply to members covered by this section.

12. Notwithstanding the other provisions of this section or the year 2000 plan to the contrary, effective January 1, 2018, a member who is not a statewide elected official or a member of the general assembly shall be eligible for retirement under this subsection subject to the following conditions:

(1) A member's normal retirement eligibility shall be based on the attainment of at least age sixty-seven and the completion of at least five years of credited service; or the member's attainment of at least age fifty-five with the sum of the member's age and credited service equaling at least ninety; or, in the case of a member who is serving as a uniformed member of the highway patrol and subject to the mandatory retirement provisions of section 104.081, such member's attainment of at least age sixty or the attainment of at least age fifty-five with five years of credited service;

(2) A vested former member's normal retirement eligibility shall be based on the attainment of at least age sixty-seven and the completion of at least five years of credited service;

(3) A temporary annuity paid under subsection 4 of section 104.1024 shall be payable if the member has attained at least age fifty-five with the sum of the member's age and credited service equaling at least ninety; or, in the case of a member who is serving as a uniformed member of the highway patrol and subject to the mandatory retirement provisions of section 104.081, the temporary annuity shall be payable if the member has attained at least age sixty, or at least age fifty-five with five years of credited service;

(4) A member, other than a member who is serving as a uniformed member of the highway patrol and subject to the mandatory retirement provisions of section 104.081, shall be eligible for an early

retirement annuity upon the attainment of at least age sixty-two and the completion of at least five years of credited service. A vested former member shall not be eligible for early retirement;

(5) The normal and early retirement eligibility requirements in this subsection shall apply for purposes of administering section 104.1087;

(6) The survivor annuity payable under section 104.1030 for vested former members covered by this section shall not be payable until the deceased member would have reached his or her normal retirement eligibility under this subsection;

(7) The annual cost-of-living adjustment payable under section 104.1045 shall not commence until the second anniversary of a vested former member's annuity starting date for members covered by this subsection; and

(8) The unused sick leave credit granted under subsection 2 of section 104.1021 shall not apply to members covered by this subsection unless the member terminates employment after reaching normal retirement eligibility or becoming eligible for an early retirement annuity under this subsection.”; and

“And those who know Your name put their trust in You, for You, O Lord, have not forsaken those who seek You.” (Psalm 9:10)

Almighty God, You are the giver of all good things, the wherewithals of life You provide daily. You give us faith that must be mined, explored and understood for it then sustains us; inspire us and provide us with a trust in You so we may lead as You give us guidance. Help us to do what is the most loving thing we can for others, increase our appreciation for our staff who are there for us and direct us to provide laws that are truly helpful for our people. In Your Holy Name we pray. Amen.

The regional taxicab commission established under section 67.1804 may license, supervise, and regulate any person who engages in the business of transporting passengers in commerce, wholly within the regional taxicab district established in section 67.1802, in any motor vehicle designed or used to transport not more than eight passengers, including the driver. The powers granted to the regional taxicab commission under this section shall apply to the motor vehicles described in this subsection and to the persons owning or operating those vehicles:

(1) Whether or not the vehicles are equipped with a taximeter or use a taximeter; and

(2) Whether the vehicles are operated by a for-hire motor carrier of passengers or by a private motor carrier of passengers not for hire or compensation.

2. This section shall apply, notwithstanding any provisions of this chapter or of subsection 2 of section 390.126 to the contrary, except that the vehicles described in subsection 1 of this section, and the operators of such vehicles, shall be licensed, supervised, and regulated by the state highways and transportation commission, as provided under section 226.008, instead of the regional taxicab commission, whenever:

of origin. Such continuous transportation of passengers between points within and without the district is subject to regulation by the state highways and transportation commission, even if the journey includes temporary stops at one or more intermediate destinations within the boundaries of the district.

3. The provisions of subdivision (3) of subsection 2 of this section shall not limit the powers of the regional taxicab commission under this section to license, supervise, and regulate the transportation of any passenger whose journey by motor vehicle takes place wholly within the regional taxicab district, even if transported on the same vehicle with other passengers whose transportation, both within and without the boundaries of the district, is subject to the exclusive powers of the state highways and transportation commission. Such motor carriers, drivers, and vehicles shall be exempted from applying for any license, certificate, permit, or other credential issued or required by the regional taxicab commission under sections 67.1800 to 67.1822, except that the regional taxicab commission may, after December 31, 2005, require such motor carriers and drivers to apply and pay the regular fees for annual renewals of such licenses, permits, certificates, or other credentials under uniform requirements applicable to all motor carriers, vehicles, and drivers operating within the regional taxicab district.

Journal of the Senate

FIRST REGULAR SESSION

THIRTY-EIGHTH DAY—MONDAY, MARCH 13, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Reverend Carl Gauck offered the following prayer:

“The earth is the Lord’s and all that is in it, the world, and those who live in it.” (Psalm 24:1)

As we begin a new week we are mindful, heavenly Father, to remember that everything that exist comes from You. The rains that water the earth, the warmth of the sun and coolness of night and everything that breathes You have created and it is sacred to You. We know that everything, including us, is precious in Your sight and You ask of us to lead others in peace and kindness, making good decisions on how to live in harmony with all You have created. So walk with us this day helping us to make the choices that You desire for us. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

“Righteousness will go before him, and will make a path for his steps.” (Psalm 85:13)

My Lord and God if we are to succeed in finding meaning to our lives we know that we are to be a people of integrity and love. Only then will we succeed and find the significance You have placed there for us. Help us to be consistent knowing that there are days in which we are up and others which we are down but all days hold the promise of Your presence and the affirmation of living the life You have given us. In Your Holy Name we pray. Amen.

Journal of the Senate

FIRST REGULAR SESSION

FORTIETH DAY—WEDNESDAY, MARCH 15, 2017

The Senate met pursuant to adjournment.

Senator Dixon in the Chair.

Reverend Carl Gauck offered the following prayer:

“He leads the humble in what is right, and teaches the humble his ways.” (Psalm 25:9)

Holy God, move us to look at this world as You do, to see the potential of what love and compassion are capable of creating together, even with those who hate us. You soothe our fearful hearts with Your caring. Wash away hatred and resentment within us that keep us from working with those who see the world differently. Let Your truth stretch out our minds and souls so we are truly open to the potential that lays before us. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal of the previous day was read and approved.

FIRST REGULAR SESSION

FORTY-FIRST DAY—THURSDAY, MARCH 16, 2017

The Senate met pursuant to adjournment.

President Pro Tem Richard in the Chair.

Reverend Carl Gauck offered the following prayer:

God of Creation, as we leave here this day, we do so looking forward to a week of rest and activities we don't have here. May we find time to be reenergized and restored, that our minds and our bodies be refreshed and renewed. And may we find time for stillness with You, our God that allows our souls to also be nourished by Your word and grace and open to Your presence in our lives. In Your Holy Name we pray. Amen.

Journal of the Senate

FIRST REGULAR SESSION

FORTY-THIRD DAY—MONDAY, MARCH 27, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Reverend Carl Gauck offered the following prayer:

“Create in me a clean heart, O God; And renew a right spirit within me.” (Psalm 51:10)

Almighty God: We return after a time of recreation and renewal and we are grateful for that time. We know that all of life continues only as long as it is renewed and so we pray daily that we might be renewed by Your Holy Spirit so that we are capable of performing the work You have given us to do. Continue to renew us so that we see our relationships with one another as a means for us to grow and understand this world in which we live. “Righteousness will go before him, and will make a path for his steps.” (Psalm 85:13)

My Lord and God if we are to succeed in finding meaning to our lives we know that we are to be a people of integrity and love. Only then will we succeed and find the significance You have placed there for us. Help us to be consistent knowing that there are days in which we are up and others which we are down but all days hold the promise of Your presence and the affirmation of living the life You have given us. In Your Holy Name we pray. Amen.

Journal of the Senate

FIRST REGULAR SESSION

FORTY-FIFTH DAY—WEDNESDAY, MARCH 29, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Reverend Carl Gauck offered the following prayer:

“Humble yourselves therefore under the mighty hand of God.” (1 Peter 5:6)

Heavenly Father we return with much work before us and there are concerns in our hearts of what is needed and necessary. The pressure is slowly rising and our human wisdom would have us dictate to You or sit on judgment on Your will so we pray that we might surrender ourselves wholly, unreservedly to Your Holy will. Let us quiet our soul’s complaints and allow Your joy and love directs our thoughts and actions this day so that Your peace and gentle leading may open our hearts to say: “Father, not my will but Yours be done.” In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

Amend Senate Bill No. 18, Page 1, In the Title, Line 5, by striking the words “business fees” and inserting in lieu thereof the following: “the collection of money by public entities”; and

Further amend said bill and page, section A, line 6, by inserting after all of said line the following:

“1.310. 1. This section shall be known and may be cited as the “Big Government Get Off My Back Act”.

2. Any federal mandate compelling the state to enact, enforce, or administer a federal regulatory program shall be subject to authorization through appropriation or statutory enactment.

3. No user fees imposed by the state of Missouri shall increase for the five-year period beginning on August 28, 2009, **and for the five-year period beginning on August 28, 2017**, unless such fee increase is to implement a federal program administered by the state or is a result of an act of the general assembly. For purposes of this section, “user fee” does not include employer taxes or contributions, assessments to offset the cost of examining insurance or financial institutions, any health-related taxes approved by the Center for Medicare and Medicaid Services, or any professional or occupational licensing fees set by a board of members of that profession or occupation and required by statute to be set at a level not to exceed the cost of administration.

4. For the five-year period beginning on August 28, 2009, **and for the five-year period beginning on August 28, 2017**, any state agency proposing a rule as that term is defined in subdivision (6) of section 536.010, other than any rule promulgated as a result of a federal mandate, or to implement a federal program administered by the state or an act of the general assembly, shall either:

(1) Certify that the rule does not have an adverse impact on small businesses consisting of fewer than [fifty] **twenty-five** full- or part-time employees; or

(2) Certify that the rule is necessary to protect the life, health or safety of the public; or

(3) **Certify that the rule relates to the implementation of a government program that utilizes private contractors and the rule would result in net savings to Missouri taxpayers; or**

(4) Exempt any small business consisting of fewer than [fifty] **twenty-five** full- or part-time employees from coverage.

5. The provisions of this section shall not be construed to prevent or otherwise restrict an agency from promulgating emergency rules pursuant to section 536.025, or from rescinding any existing rule pursuant to section 536.021.

143.173. 1. As used in this section, the following terms mean:

(1) “County average wage”, the average wages in each county as determined by the department of economic development for the most recently completed full calendar year. However, if the computed county average wage is above the statewide average wage, the statewide average wage shall be deemed the county average wage for such county for the purpose of this section;

(2) “Deduction”, an amount subtracted from the taxpayer's Missouri adjusted gross income to determine Missouri taxable income, or federal taxable income in the case of a corporation, for the tax year in which such deduction is claimed;

(3) “Full-time employee”, a position in which the employee is considered full-time by the taxpayer and is required to work an average of at least thirty-five hours per week for a fifty-two week period;

(4) “New job”, the number of full-time employees employed by the small business in Missouri on the qualifying date that exceeds the number of full-time employees employed by the small business in Missouri on the same date of the immediately preceding taxable year;

(5) “Qualifying date”, any date during the tax year as chosen by the small business;

(6) “Small business”, any small business, including any sole proprietorship, partnership, S-corporation, C-corporation, limited liability company, limited liability partnership, or other business entity, consisting of fewer than [fifty] **twenty-five** full- or part-time employees;

(7) “Taxpayer”, any small business subject to the income tax imposed in this chapter, including any sole proprietorship, partnership, S-corporation, C-corporation, limited liability company, limited liability partnership, or other business entity.

2. In addition to all deductions listed in this chapter, for all taxable years beginning on or after January 1, 2011, and ending on or before December 31, 2014, **and for all tax years beginning on or after January 1, 2017, and ending on or before December 31, 2021**, a taxpayer shall be allowed a deduction for each new job created by the small business in the taxable year. Tax deductions allowed to any partnership, limited liability company, S-corporation, or other pass-through entity may be allocated to the partners, members, or shareholders of such entity for their direct use in accordance with the provisions of any agreement among such partners, members, or shareholders. The deduction amount shall be as follows:

(1) Ten thousand dollars for each new job created with an annual salary of at least the county average wage; or

(2) Twenty thousand dollars for each new job created with an annual salary of at least the county average wage if the small business offers health insurance and pays at least fifty percent of such insurance premiums.

3. The department of revenue shall establish the procedure by which the deduction provided in this section may be claimed, and may promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly under chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2011, shall be invalid and void.

4. Under section 23.253 of the Missouri sunset act:

(1) The provisions of the new program authorized under this section shall automatically sunset on December thirty-first three years after August 28, [2011] **2018**, unless reauthorized by an act of the general assembly; and

(2) If such program is reauthorized, the program authorized under this section shall automatically sunset on December thirty-first three years after the effective date of the reauthorization of this section; and

(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which the program authorized under this section is sunset.”; and

Journal of the Senate

FIRST REGULAR SESSION

FORTY-SIXTH DAY—THURSDAY, MARCH 30, 2017

The Senate met pursuant to adjournment.

President Parson in the Chair.

Reverend Carl Gauck offered the following prayer:

“Saying ‘Yes’ to God’s gift of love and life primarily and above all else means choosing love as a life principle.” (John Powell)

Loving God: As we complete this day’s work and journey back to those we love, let us be thankful for Your teaching us the meaning of loving imperfect people as ourselves so that we might overlook flaws of others. And help us, Lord, make love our “life principle” expressing it in our varied relationships You have given us. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

(2) As a district transitions from provisionally accredited to full accreditation, the district shall continue to fall under the requirements for a provisionally accredited district until it achieves three consecutive full school years of full accreditation;

(3)] (1) In any school district classified as unaccredited or provisionally accredited where a charter school is operating and is sponsored by an entity other than the local school board, when the school district becomes classified as accredited without provisions, a charter school may continue to be sponsored by the entity sponsoring it prior to the classification of accredited without provisions and shall not be limited to the local school board as a sponsor.

(2) A charter school operating in a school district identified in subdivision (1) or (2) of subsection 2 of this section may be sponsored by any of the entities identified in subsection 3 of this section, irrespective of the accreditation classification of the district in which it is located. 5. The mayor of a city not within a county may request a sponsor under subdivision (2), (3), (4), (5), or (6) of subsection 3 of this section to consider sponsoring a "workplace charter school", which is defined for purposes of sections 160.400 to 160.425 as a charter school with the ability to target prospective students whose parent or parents are employed in a business district, as defined in the charter, which is located in the city.

Meetings of the governing board of the charter school shall be subject to the provisions of sections 610.010 to 610.030.

9. A sponsor of a charter school, its agents and employees are not liable for any acts or omissions of a

charter school that it sponsors, including acts or omissions relating to the charter submitted by the charter school, the operation of the charter school and the performance of the charter school.

10. A charter school may affiliate with a four-year college or university, including a private college or university, or a community college as otherwise specified in subsection 3 of this section when its charter is granted by a sponsor other than such college, university or community college. Affiliation status recognizes a relationship between the charter school and the college or university for purposes of teacher training and staff development, curriculum and assessment development, use of physical facilities owned by or rented on behalf of the college or university, and other similar purposes. A university, college or community college may not charge or accept a fee for affiliation status.

11. The expenses associated with sponsorship of charter schools shall be defrayed by the department of elementary and secondary education retaining one and five-tenths percent of the amount of state and local funding allocated to the charter school under section 160.415, not to exceed one hundred twenty-five thousand dollars, adjusted for inflation. The department of elementary and secondary education shall remit the retained funds for each charter school to the school's sponsor, provided the sponsor remains in good standing by fulfilling its sponsorship obligations under sections 160.400 to 160.425 and 167.349 with regard to each charter school it sponsors, including appropriate demonstration of the following:

(1) Expends no less than ninety percent of its charter school sponsorship funds in support of its charter school sponsorship program, or as a direct investment in the sponsored schools;

(2) Maintains a comprehensive application process that follows fair procedures and rigorous criteria and grants charters only to those developers who demonstrate strong capacity for establishing and operating a quality charter school;

(3) Negotiates contracts with charter schools that clearly articulate the rights and responsibilities of each party regarding school autonomy, expected outcomes, measures for evaluating success or failure, performance consequences based on the annual performance report, and other material terms;

(4) Conducts contract oversight that evaluates performance, monitors compliance, informs intervention and renewal decisions, and ensures autonomy provided under applicable law; and

(5) Designs and implements a transparent and rigorous process that uses comprehensive data to make merit-based renewal decisions.

12. Sponsors receiving funds under subsection 11 of this section shall be required to submit annual reports to the joint committee on education demonstrating they are in compliance with subsection 17 of this section.

13. No university, college or community college shall grant a charter to a nonprofit corporation if an employee of the university, college or community college is a member of the corporation's board of directors.

14. No sponsor shall grant a charter under sections 160.400 to 160.425 and 167.349 without ensuring that a criminal background check and family care safety registry check are conducted for all members of the governing board of the charter schools or the incorporators of the charter school if initial directors are not named in the articles of incorporation, nor shall a sponsor renew a charter without ensuring a criminal background check and family care safety registry check are conducted for each member of the governing

board of the charter school.

15. No member of the governing board of a charter school shall hold any office or employment from the board or the charter school while serving as a member, nor shall the member have any substantial interest, as defined in section 105.450, in any entity employed by or contracting with the board. No board member shall be an employee of a company that provides substantial services to the charter school. All members of the governing board of the charter school shall be considered decision-making public servants as defined in section 105.450 for the purposes of the financial disclosure requirements contained in sections 105.483, 105.485, 105.487, and 105.489.

16. A sponsor shall develop the policies and procedures for:

(1) The review of a charter school proposal including an application that provides sufficient information for rigorous evaluation of the proposed charter and provides clear documentation that the education program and academic program are aligned with the state standards and grade-level expectations, and provides clear documentation of effective governance and management structures, and a sustainable operational plan;

(2) The granting of a charter;

(3) The performance contract that the sponsor will use to evaluate the performance of charter schools. Charter schools shall meet current state academic performance standards as well as other standards agreed upon by the sponsor and the charter school in the performance contract;

(4) The sponsor's intervention, renewal, and revocation policies, including the conditions under which the charter sponsor may intervene in the operation of the charter school, along with actions and consequences that may ensue, and the conditions for renewal of the charter at the end of the term, consistent with subsections 8 and 9 of section 160.405;

(5) Additional criteria that the sponsor will use for ongoing oversight of the charter; and

(6) Procedures to be implemented if a charter school should close, consistent with the provisions of subdivision (15) of subsection 1 of section 160.405.

The department shall provide guidance to sponsors in developing such policies and procedures.

17. (1) A sponsor shall provide timely submission to the state board of education of all data necessary to demonstrate that the sponsor is in material compliance with all requirements of sections 160.400 to 160.425 and section 167.349. The state board of education shall ensure each sponsor is in compliance with all requirements under sections 160.400 to 160.425 and 167.349 for each charter school sponsored by any sponsor. The state board shall notify each sponsor of the standards for sponsorship of charter schools, delineating both what is mandated by statute and what best practices dictate. The state board shall evaluate sponsors to determine compliance with these standards every three years. The evaluation shall include a sponsor's policies and procedures in the areas of charter application approval; required charter agreement terms and content; sponsor performance evaluation and compliance monitoring; and charter renewal, intervention, and revocation decisions. Nothing shall preclude the department from undertaking an evaluation at any time for cause.

(2) If the department determines that a sponsor is in material noncompliance with its sponsorship duties, the sponsor shall be notified and given reasonable time for remediation. If remediation does not address the compliance issues identified by the department, the commissioner of education shall conduct a public

hearing and thereafter provide notice to the charter sponsor of corrective action that will be recommended to the state board of education. Corrective action by the department may include withholding the sponsor's funding and suspending the sponsor's authority to sponsor a school that it currently sponsors or to sponsor any additional school until the sponsor is reauthorized by the state board of education under section 160.403.

(3) The charter sponsor may, within thirty days of receipt of the notice of the commissioner's recommendation, provide a written statement and other documentation to show cause as to why that action should not be taken. Final determination of corrective action shall be determined by the state board of education based upon a review of the documentation submitted to the department and the charter sponsor.

(4) If the state board removes the authority to sponsor a currently operating charter school under any provision of law, the Missouri charter public school commission shall become the sponsor of the school.

18. If a sponsor notifies a charter school of closure under subsection 8 of section 160.405, the department of elementary and secondary education shall exercise its financial withholding authority under subsection 12 of section 160.415 to assure all obligations of the charter school shall be met. The state, charter sponsor, or resident district shall not be liable for any outstanding liability or obligations of the charter school.

160.410. 1. A charter school shall enroll:

(1) All pupils resident in the district in which it operates;

(2) Nonresident pupils eligible to attend a district's school under an urban voluntary transfer program;

(3) Nonresident pupils who transfer from an unaccredited district under section 167.131, provided that the charter school is an approved charter school, as defined in section 167.131, and subject to all other provisions of section 167.131;

(4) Nonresident pupils who are residents of Missouri and have at least one parent employed by the charter school at which the nonresident pupil is seeking enrollment unless the pupil's enrollment will cause a resident student to be denied enrollment;

(5) Nonresident pupils from the same or an adjoining county who were enrolled in and attended an unaccredited school for at least one semester immediately prior to requesting the transfer and who were unable to transfer to an accredited school within their district of residence as provided in section 167.826, provided the school is an approved charter school, as defined in section 167.848, and subject to all other provisions of section 167.826;

(6) In the case of a charter school whose mission includes student drop-out prevention or recovery, any nonresident pupil from the same or an adjacent county who resides in a residential care facility, a transitional living group home, or an independent living program whose last school of enrollment is in the school district where the charter school is established, who submits a timely application; and

[(5)] (7) In the case of a workplace charter school, any student eligible to attend under subdivision (1) or (2) of this subsection whose parent is employed in the business district, who submits a timely application, unless the number of applications exceeds the capacity of a program, class, grade level or building. The configuration of a business district shall be set forth in the charter and shall not be construed to create an undue advantage for a single employer or small number of employers.

2. If capacity is insufficient to enroll all pupils who submit a timely application, the charter school shall have an admissions process that assures all applicants of an equal chance of gaining admission and does not discriminate based on parents' ability to pay fees or tuition except that:

(1) A charter school may establish a geographical area around the school whose residents will receive a preference for enrolling in the school, provided that such preferences do not result in the establishment of racially or socioeconomically isolated schools and provided such preferences conform to policies and guidelines established by the state board of education;

(2) A charter school may also give a preference for admission of children whose siblings attend the school [or], **for admission of children resident in the district in which it operates and** whose parents are employed at the school, or, in the case of a workplace charter school, **for admission of** a child whose parent is employed in the business district or at the business site of such school; and

(3) Charter alternative and special purpose schools may also give a preference for admission to high-risk students, as defined in subdivision (5) of subsection 2 of section 160.405, when the school targets these students through its proposed mission, curriculum, teaching methods, and services.

3. A charter school shall not limit admission based on race, ethnicity, national origin, disability, income level, proficiency in the English language or athletic ability, but may limit admission to pupils within a given age group or grade level. Charter schools may limit admission based on gender only when the school is a single-gender school. Students of a charter school who have been enrolled for a full academic year shall be counted in the performance of the charter school on the statewide assessments in that calendar year, unless otherwise exempted as English language learners. For purposes of this subsection, "full academic year" means the last Wednesday in September through the administration of the Missouri assessment program test without transferring out of the school and re-enrolling.

4. A charter school shall make available for public inspection, and provide upon request, to the parent, guardian, or other custodian of any school-age pupil resident in the district in which the school is located the following information:

(1) The school's charter;

(2) The school's most recent annual report card published according to section 160.522;

(3) The results of background checks on the charter school's board members; and

(4) If a charter school is operated by a management company, a copy of the written contract between the governing board of the charter school and the educational management organization or the charter management organization for services. The charter school may charge reasonable fees, not to exceed the rate specified in section 610.026 for furnishing copies of documents under this subsection.

5. When a student attending a charter school who is a resident of the school district in which the charter school is located moves out of the boundaries of such school district, the student may complete the current semester and shall be considered a resident student. The student's parent or legal guardian shall be responsible for the student's transportation to and from the charter school.

6. If a change in school district boundary lines occurs under section 162.223, 162.431, 162.441, or 162.451, or by action of the state board of education under section 162.081, including attachment of a school district's territory to another district or dissolution, such that a student attending a charter school

prior to such change no longer resides in a school district in which the charter school is located, then the student may complete the current academic year at the charter school. The student shall be considered a resident student. The student's parent or legal guardian shall be responsible for the student's transportation to and from the charter school.

7. The provisions of sections 167.018 and 167.019 concerning foster children's educational rights are applicable to charter schools.

160.415. 1. For the purposes of calculation and distribution of state school aid under section 163.031, pupils enrolled in a charter school shall be included in the pupil enrollment of the school district within which each pupil resides. Each charter school shall report the names, addresses, and eligibility for free and reduced price lunch, special education, or limited English proficiency status, as well as eligibility for categorical aid, of pupils resident in a school district who are enrolled in the charter school to the school district in which those pupils reside. The charter school shall report the average daily attendance data, free and reduced price lunch count, special education pupil count, and limited English proficiency pupil count to the state department of elementary and secondary education. Each charter school shall promptly notify the state department of elementary and secondary education and the pupil's school district when a student discontinues enrollment at a charter school.

2. Except as provided in subsections 3 and 4 of this section, the aid payments for charter schools shall be as described in this subsection.

(1) A school district having one or more resident pupils attending a charter school shall pay to the charter school an annual amount equal to the product of the charter school's weighted average daily attendance and the state adequacy target, multiplied by the dollar value modifier for the district, plus local tax revenues per weighted average daily attendance from the incidental and teachers' funds in excess of the performance levy as defined in section 163.011 plus all other state aid attributable to such pupils.

(2) The district of residence of a pupil attending a charter school shall also pay to the charter school any other federal or state aid that the district receives on account of such child.

(3) If the department overpays or underpays the amount due to the charter school, such overpayment or underpayment shall be repaid by the public charter school or credited to the public charter school in twelve equal payments in the next fiscal year.

(4) The amounts provided pursuant to this subsection shall be prorated for partial year enrollment for a pupil.

(5) A school district shall pay the amounts due pursuant to this subsection as the disbursal agent and no later than twenty days following the receipt of any such funds. The department of elementary and secondary education shall pay the amounts due when it acts as the disbursal agent within five days of the required due date.

3. A workplace charter school shall receive payment for each eligible pupil as provided under subsection 2 of this section, except that if the student is not a resident of the district and is participating in a voluntary interdistrict transfer program, the payment for such pupils shall be the same as provided under section 162.1060.

4. A charter school that has declared itself as a local educational agency shall receive from the

department of elementary and secondary education an annual amount equal to the product of the charter school's weighted average daily attendance and the state adequacy target, multiplied by the dollar value modifier for the district, plus local tax revenues per weighted average daily attendance from the incidental and teachers funds in excess of the performance levy as defined in section 163.011 plus all other state aid attributable to such pupils. If a charter school declares itself as a local educational agency, the department of elementary and secondary education shall, upon notice of the declaration, reduce the payment made to the school district by the amount specified in this subsection and pay directly to the charter school the annual amount reduced from the school district's payment.

5. If a school district fails to make timely payments of any amount for which it is the disbursal agent, the state department of elementary and secondary education shall authorize payment to the charter school of the amount due pursuant to subsection 2 of this section and shall deduct the same amount from the next state school aid apportionment to the owing school district. If a charter school is paid more or less than the amounts due pursuant to this section, the amount of overpayment or underpayment shall be adjusted equally in the next twelve payments by the school district or the department of elementary and secondary education, as appropriate. Any dispute between the school district and a charter school as to the amount owing to the charter school shall be resolved by the department of elementary and secondary education, and the department's decision shall be the final administrative action for the purposes of review pursuant to chapter 536. During the period of dispute, the department of elementary and secondary education shall make every administrative and statutory effort to allow the continued education of children in their current public charter school setting.

6. For purposes of calculation and distribution of state school aid to charter schools under this section, a charter school's weighted average daily attendance shall include any nonresident pupil who is a resident of Missouri, who attends the charter school, and whose parent is employed at the charter school.

7. The charter school and a local school board may agree by contract for services to be provided by the school district to the charter school. The charter school may contract with any other entity for services. Such services may include but are not limited to food service, custodial service, maintenance, management assistance, curriculum assistance, media services and libraries and shall be subject to negotiation between the charter school and the local school board or other entity. Documented actual costs of such services shall be paid for by the charter school.

[7.] **8.** In the case of a proposed charter school that intends to contract with an education service provider for substantial educational services or management services, the request for proposals shall additionally require the charter school applicant to:

(1) Provide evidence of the education service provider's success in serving student populations similar to the targeted population, including demonstrated academic achievement as well as successful management of nonacademic school functions, if applicable;

(2) Provide a term sheet setting forth the proposed duration of the service contract; roles and responsibilities of the governing board, the school staff, and the service provider; scope of services and resources to be provided by the service provider; performance evaluation measures and time lines; compensation structure, including clear identification of all fees to be paid to the service provider; methods of contract oversight and enforcement; investment disclosure; and conditions for renewal and termination

of the contract;

(3) Disclose any known conflicts of interest between the school governing board and proposed service provider or any affiliated business entities;

(4) Disclose and explain any termination or nonrenewal of contracts for equivalent services for any other charter school in the United States within the past five years;

(5) Ensure that the legal counsel for the charter school shall report directly to the charter school's governing board; and

(6) Provide a process to ensure that the expenditures that the education service provider intends to bill to the charter school shall receive prior approval of the governing board or its designee.

[8.] **9.** A charter school may enter into contracts with community partnerships and state agencies acting in collaboration with such partnerships that provide services to children and their families linked to the school.

[9.] **10.** A charter school shall be eligible for transportation state aid pursuant to section 163.161 and shall be free to contract with the local district, or any other entity, for the provision of transportation to the students of the charter school.

[10.] **11.** (1) The proportionate share of state and federal resources generated by students with disabilities or staff serving them shall be paid in full to charter schools enrolling those students by their school district where such enrollment is through a contract for services described in this section. The proportionate share of money generated under other federal or state categorical aid programs shall be directed to charter schools serving such students eligible for that aid.

(2) A charter school shall provide the special services provided pursuant to section 162.705 and may provide the special services pursuant to a contract with a school district or any provider of such services.

[11.] **12.** A charter school may not charge tuition or impose fees that a school district is prohibited from charging or imposing, except that a charter school may receive tuition payments from districts in the same or an adjoining county for nonresident students who transfer to an approved charter school, as defined in section 167.131, from an unaccredited district.

[12.] **13.** A charter school is authorized to incur debt in anticipation of receipt of funds. A charter school may also borrow to finance facilities and other capital items. A school district may incur bonded indebtedness or take other measures to provide for physical facilities and other capital items for charter schools that it sponsors or contracts with. Except as otherwise specifically provided in sections 160.400 to 160.425, upon the dissolution of a charter school, any liabilities of the corporation will be satisfied through the procedures of chapter 355. A charter school shall satisfy all its financial obligations within twelve months of notice from the sponsor of the charter school's closure under subsection 8 of section 160.405. After satisfaction of all its financial obligations, a charter school shall return any remaining state and federal funds to the department of elementary and secondary education for disposition as stated in subdivision (17) of subsection 1 of section 160.405. The department of elementary and secondary education may withhold funding at a level the department determines to be adequate during a school's last year of operation until the department determines that school records, liabilities, and reporting requirements, including a full audit, are satisfied.

[13.] **14.** Charter schools shall not have the power to acquire property by eminent domain.

[14.] **15.** The governing body of a charter school is authorized to accept grants, gifts or donations of any kind and to expend or use such grants, gifts or donations. A grant, gift or donation may not be accepted by the governing body if it is subject to any condition contrary to law applicable to the charter school or other public schools, or contrary to the terms of the charter.

160.425. 1. The “Missouri Charter Public School Commission” is hereby created with the authority to sponsor high quality charter schools throughout the state of Missouri **as specified in section 160.400.**

2. The commission shall consist of nine members appointed by the governor, by and with the advice and consent of the senate. No more than five of the members shall be of the same political party. No more than two members shall be from the same congressional district. The term of office of each member shall be four years, except those of the members first appointed, of which three shall be appointed for a term of one year, two for a term of two years, two for a term of three years, and two for a term of four years. At the expiration of the term of each member, the governor, by and with the advice and consent of the senate, shall appoint a successor.

3. The appointees to the commission shall be selected as follows:

(1) One member selected by the governor from a slate of three recommended by the commissioner of education;

All members of the commission shall have demonstrated understanding of and commitment to charter schooling as a strategy for strengthening public education.

5. The commission shall annually elect a chairperson and vice chairperson, who shall act as chairperson in his or her absence. The commission shall meet at the call of the chairperson. The chairperson may call meetings at such times as he or she deems advisable and shall call a meeting when requested to do so by three or more members of the commission. 8. The commission shall conduct its business in accordance with chapter 610.

9. The department of elementary and secondary education shall provide start-up funding for the commission to operate. The commission shall reimburse the department's costs from any funds it receives as sponsor under section 160.400.

10. The commission is authorized to receive and expend gifts, grants, and donations of any kind from any public or private entity to carry out the purposes of sections 160.400 to 160.425, subject to the terms and conditions under which they are given, provided that all such terms and conditions are permissible under law.

11. The commission may employ staff including, but not limited to, an executive director as needed to carry out its duties. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

161.084. When classifying the public schools of the state under section 161.092, if there is no state board of education member who is a resident of the congressional district in which such school district under consideration is located, the state board of education shall assign such school district a classification designation of unaccredited or change a district's classification designation from accredited to provisionally accredited only after notifying the governor of its intent to change the classification of the district. The governor shall make the appointment under section 161.052 within thirty days of notification.

161.087. 1. When assigning classification designations to school districts pursuant to its authority to classify the public schools of the state under section 161.092, the state board of education shall use only the following classification designations:

(1) Unaccredited;

- (2) Provisionally accredited;**
- (3) Accredited; and**
- (4) Accredited with distinction.**

2. The state board of education shall develop and implement a process to provide assistance teams to borderline districts, as defined in section 167.848, as determined by the department of elementary and secondary education and to underperforming districts, as defined in section 167.848, upon assignment of a classification designation of unaccredited or provisionally accredited or determination made by the state board of education. The composition and size of the team may vary, based on academic, demographic, and financial circumstances of the district, but in no case will the team have fewer than ten members, two of whom shall be active classroom teachers in the district, two of whom shall be principals, and one of whom shall be a parent of a student in the district. The department staff member assigned to the region in which the district is located may be included in the assistance team's activities but shall not be formally assigned to the team. The team shall provide recommendations for improvement based on the needs of the community and the district and analysis of, at a minimum, the assessment data, classroom practices, and communication processes within attendance centers, within the district, and with the larger community. Separate teams may be used to provide analysis and recommendations at the discretion of the state board. Beginning with school year 2017-18, the team shall provide its recommendations no later than June 30, 2018, for underperforming districts and borderline districts. The state board shall prioritize the assignment of teams so that the districts with the lower annual performance report scores are addressed first. The assistance team's suggestions for improvement shall be mandatory for underperforming districts but shall not be mandatory for borderline districts. If an underperforming district disagrees with any suggestion of the assistance team, the district shall propose a different method of accomplishing the goal of the assistance team's suggestion and the state board of education shall be the final arbiter of the matter.

161.238. 1. Notwithstanding any provision of chapter 536 and subdivisions (9) and (14) of section 161.092 to the contrary, the state board of education shall adopt a policy to classify individual attendance centers. Attendance centers that do not offer classes above the second grade level are exempt from classification under this subsection. The policy shall require that an attendance center's classification be based solely on a three-year average of the attendance center's annual performance report scores using the three most recent years. The state board shall assign a classification consistent with such three-year average score. The state board shall implement such policy and:

(1) Within forty-five days of the effective date of this section, for each district that is classified as unaccredited by the state board of education at that time, classify each of the unaccredited district's attendance centers separately from the district as a whole using the classification designations provided in section 161.087; and

(2) Within ninety days of the effective date of this section, for each district that is classified as provisionally accredited by the state board of education at that time, classify each of the provisionally accredited district's attendance centers separately from the district as a whole using the classification designations provided in section 161.087.

2. The classifications assigned by the state board under subsection 1 of this section shall become

effective immediately and shall remain in effect until the state board develops, adopts, and implements the system of classification described in subsection 3 of this section. At such time, the state board shall classify attendance centers based on the system of classification described in subsection 3 of this section.

3. By January 1, 2018, the state board of education shall, through administrative rule, develop a system of classification that accredits attendance centers within a district separately from the district as a whole using the classification designations provided in section 161.087. The state board of education's system shall not assign classification designations to attendance centers that do not offer classes above the second grade level. When the state board adopts its system, it shall assign a classification designation to each attendance center, except for those attendance centers that do not offer classes above the second grade level. The state board of education may assign classification numbers outside the range of numbers assigned to high schools, middle schools, junior high schools, or elementary schools as classification designations for attendance centers that are exempt from the accreditation classification system. Public separate special education schools within a special school district and within a school district are exempted from the accreditation requirements of this section and section 161.087. While not applicable for the purpose of accreditation, a special school district shall continue to report all scores on its annual performance report to the department of elementary and secondary education for all its schools. Juvenile detention centers within a special school district are also exempted from the accreditation standards of this section and section 161.087.

4. Upon adoption of the classification system described in subsection 3 of this section, the state board may change any classification it has assigned to an attendance center under subsection 1 of this section.

5. An attendance center that does not offer classes above the second grade level shall be exempt from any requirements related to statewide assessments.

6. Notwithstanding the provisions of subdivision (9) of section 161.092, the rules and regulations promulgated under this section shall be effective thirty days after publication in the code of state regulations as provided in section 536.021 and shall not be subject to the two-year delay contained in subdivision (9) of section 161.092.

7. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after the effective date of this section shall be invalid and void.

161.1005. 1. By July 1, 2018, the department shall employ a dyslexia therapist, licensed psychometrist, licensed speech-language pathologist, certified academic language therapist, or certified training specialist to serve as the department's dyslexia specialist. Such dyslexia specialist shall have a minimum of three years of field experience in screening, identifying, and treating dyslexia and related disorders.

2. The department shall ensure that the dyslexia specialist has completed training and received

certification from a program approved by the legislative task force on dyslexia and is able to provide necessary information and support to school district teachers.

3. The dyslexia specialist shall:

- (1) Be highly trained in dyslexia and related disorders, including best practice interventions and treatment models;**
- (2) Be responsible for the implementation of professional development; and**
- (3) Serve as the primary source of information and support for districts addressing the needs of students with dyslexia and related disorders.**

4. In addition to the duties assigned under subsection 3 of this section, the dyslexia specialist shall also assist the department with developing and administering professional development programs to be made available to school districts no later than the 2018-19 school year. The programs shall focus on educating teachers regarding the indicators of dyslexia, the science surrounding teaching a student who is dyslexic, and classroom accommodations necessary for a student with dyslexia.

162.081. 1. Whenever any school district in this state fails or refuses in any school year to provide for the minimum school term required by section 163.021 or is classified unaccredited, the state board of education shall, upon a district's initial classification or reclassification as unaccredited:

- (1) Review the governance of the district to establish the conditions under which the existing school board shall continue to govern; or
- (2) Determine the date the district shall lapse and determine an alternative governing structure for the district.

2. If at the time any school district in this state shall be classified as unaccredited, the department of elementary and secondary education shall conduct at least two public hearings at a location in the unaccredited school district regarding the accreditation status of the school district. The hearings shall provide an opportunity to convene community resources that may be useful or necessary in supporting the school district as it attempts to return to accredited status, continues under revised governance, or plans for continuity of educational services and resources upon its attachment to a neighboring district. The department may request the attendance of stakeholders and district officials to review the district's plan to return to accredited status, if any; offer technical assistance; and facilitate and coordinate community resources. Such hearings shall be conducted at least twice annually for every year in which the district remains unaccredited or provisionally accredited.

3. Upon classification of a district as unaccredited, the state board of education may:

(1) Allow continued governance by the existing school district board of education under terms and conditions established by the state board of education; or

(2) Lapse the corporate organization of all or part of the unaccredited district and:

(a) Appoint a special administrative board for the operation of all or part of the district. If a special administrative board is appointed for the operation of a part of a school district, the state board of education shall determine an equitable apportionment of state and federal aid for the part of the district, and the school district shall provide local revenue in proportion to the weighted average daily

attendance of the part. The number of members of the special administrative board shall not be less than five, the majority of whom shall be residents of the district. The members of the special administrative board shall reflect the population characteristics of the district and shall collectively possess strong experience in school governance, management and finance, and leadership. **The state board of education may appoint members of the district's elected school board to the special administrative board, but members of the elected school board shall not comprise more than forty-nine percent of the special administrative board's membership.** Within fourteen days after the appointment by the state board of education, the special administrative board shall organize by the election of a president, vice president, secretary and a treasurer, with their duties and organization as enumerated in section 162.301. The special administrative board shall appoint a superintendent of schools to serve as the chief executive officer of the school district, **or a subset of schools**, and to have all powers and duties of any other general superintendent of schools in a seven-director school district. **Nothing in this section shall be construed to permit either the state board of education or a special administrative board to raise, in any way not specifically allowed by law, the tax levy of the district or any part of the district without a vote of the people.** Any special administrative board appointed under this section shall be responsible for the operation of the district **or part of the district** until such time that the district is classified by the state board of education as provisionally accredited for at least two successive academic years, after which time the state board of education may provide for a transition pursuant to section 162.083; or

(b) Determine an alternative governing structure for the district including, at a minimum:

a. A rationale for the decision to use an alternative form of governance and in the absence of the district's achievement of full accreditation, the state board of education shall review and recertify the alternative form of governance every three years;

b. A method for the residents of the district to provide public comment after a stated period of time or upon achievement of specified academic objectives;

c. Expectations for progress on academic achievement, which shall include an anticipated time line for the district to reach full accreditation; and

d. Annual reports to the general assembly and the governor on the progress towards accreditation of any district that has been declared unaccredited and is placed under an alternative form of governance, including a review of the effectiveness of the alternative governance; or

(c) Attach the territory of the lapsed district to another district or districts for school purposes; or

(d) Establish one or more school districts within the territory of the lapsed district, with a governance structure specified by the state board of education, with the option of permitting a district to remain intact for the purposes of assessing, collecting, and distributing property taxes, to be distributed equitably on a weighted average daily attendance basis, but to be divided for operational purposes, which shall take effect sixty days after the adjournment of the regular session of the general assembly next following the state board's decision unless a statute or concurrent resolution is enacted to nullify the state board's decision prior to such effective date.

4. If a district remains under continued governance by the school board under subdivision (1) of subsection 3 of this section and either has been unaccredited for three consecutive school years and failed to attain accredited status after the third school year or has been unaccredited for two consecutive school

years and the state board of education determines its academic progress is not consistent with attaining accredited status after the third school year, then the state board of education shall proceed under subdivision (2) of subsection 3 of this section in the following school year.

5. A special administrative board **or any other form of governance** appointed under this section shall retain the authority granted to a board of education for the operation of the lapsed school district under the laws of the state in effect at the time of the lapse and may enter into contracts with accredited school districts or other education service providers in order to deliver high-quality educational programs to the residents of the district. If a student graduates while attending a school building in the district that is operated under a contract with an accredited school district as specified under this subsection, the student shall receive his or her diploma from the accredited school district. The authority of the special administrative board **or any other form of governance appointed under this section** shall expire at the end of the third full school year following its appointment, unless extended by the state board of education. If the lapsed district is reassigned, the [special administrative board] **governing board prior to lapse** shall provide an accounting of all funds, assets and liabilities of the lapsed district and transfer such funds, assets, and liabilities of the lapsed district as determined by the state board of education. Neither the special administrative board **nor any other form of governance appointed under this section** nor its members or employees shall be deemed to be the state or a state agency for any purpose, including section 105.711, et seq. The state of Missouri, its agencies and employees shall be absolutely immune from liability for any and all acts or omissions relating to or in any way involving the lapsed district, [the] **a special administrative board, any other form of governance appointed under this section, [its] or the members or employees of the lapsed district, a special administrative board, or any other form of governance appointed under this section.** Such immunities, and immunity doctrines as exist or may hereafter exist benefitting boards of education, their members and their employees, shall be available to the special administrative board, **any other form of governance appointed under this section, [its] and the members and employees of the special administrative board or any other form of governance appointed under this section.**

6. Neither the special administrative board **nor any other form of governance appointed under this section** nor any district or other entity assigned territory, assets or funds from a lapsed district shall be considered a successor entity for the purpose of employment contracts, unemployment compensation payment pursuant to section 288.110, or any other purpose.

7. If additional teachers are needed by a district as a result of increased enrollment due to the annexation of territory of a lapsed or dissolved district, such district shall grant an employment interview to any permanent teacher of the lapsed or dissolved district upon the request of such permanent teacher.

8. In the event that a school district with an enrollment in excess of five thousand pupils lapses, no school district shall have all or any part of such lapsed school district attached without the approval of the board of the receiving school district.

9. If the state board of education reasonably believes that a school district is unlikely to provide for the minimum number of school hours required in a school term required by section 163.021 because of financial difficulty, the state board of education may, prior to the start of the school term:

(1) Allow continued governance by the existing district school board under terms and conditions established by the state board of education; or

(2) Lapse the corporate organization of the district and implement one of the options available

under subdivision (2) of subsection 3 of this section.

10. The provisions of subsection 9 of this section shall not apply to any district solely on the basis of financial difficulty resulting from paying tuition and providing transportation for transfer students under sections 167.825 to 167.827.

162.1310. If the state board of education classifies any district or attendance center as unaccredited, the district shall notify the parent or guardian of any student enrolled in the unaccredited district or unaccredited attendance center of the loss of accreditation within seven business days. The district shall also notify district taxpayers of the loss of accreditation within seven business days. The district's notice shall include an explanation of which students may be eligible to transfer, the transfer process under sections 167.825 to 167.827, and any services students may be entitled to receive. The district's notice shall be written in a clear, concise, and easy-to-understand manner. The district shall post the notice in a conspicuous and accessible place in each district attendance center. The district shall also send the notice to each municipality located within the boundaries of the district.

162.1313. The school board of any district that operates an underperforming school, as defined in section 167.848, shall adopt a policy regarding the availability of home visits by school personnel. Pursuant to such policy, the school may offer the parent or guardian of a student enrolled in any such school the opportunity to have one or more annual home visits. If the school decides to offer one or more annual home visits, the school shall offer an opportunity for each visit to occur at the attendance center or at a mutually agreeable site.

163.021. 1. A school district shall receive state aid for its education program only if it:

(1) Provides for a minimum of one hundred seventy-four days and one thousand forty-four hours of actual pupil attendance in a term scheduled by the board pursuant to section 160.041 for each pupil or group of pupils, except that the board shall provide a minimum of one hundred seventy-four days and five hundred twenty-two hours of actual pupil attendance in a term for kindergarten pupils. If any school is dismissed because of inclement weather after school has been in session for three hours, that day shall count as a school day including afternoon session kindergarten students. When the aggregate hours lost in a term due to inclement weather decreases the total hours of the school term below the required minimum number of hours by more than twelve hours for all-day students or six hours for one-half-day kindergarten students, all such hours below the minimum must be made up in one-half day or full day additions to the term, except as provided in section 171.033;

(2) Maintains adequate and accurate records of attendance, personnel and finances, as required by the state board of education, which shall include the preparation of a financial statement which shall be submitted to the state board of education the same as required by the provisions of section 165.111 for districts;

(4) Computes average daily attendance as defined in subdivision (2) of section 163.011 as modified by section 171.031. Whenever there has existed within the district an infectious disease, contagion, epidemic, plague or similar condition whereby the school attendance is substantially reduced for an extended period

in any school year, the apportionment of school funds and all other distribution of school moneys shall be made on the basis of the school year next preceding the year in which such condition existed; **and**

(5) Uses funds derived from the operating levy for school purposes to pay tuition remission for students who attend a nonsectarian private school under section 167.828 at any time that the district is classified as unaccredited by the state board of education.

2. For the 2006-07 school year and thereafter, no school district shall receive more state aid, as calculated under subsections 1 and 2 of section 163.031, for its education program, exclusive of categorical add-ons, than it received per weighted average daily attendance for the school year 2005-06 from the foundation formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and free textbook payment amounts, unless it has an operating levy for school purposes, as determined pursuant to section 163.011, of not less than two dollars and seventy-five cents after all adjustments and reductions. Any district which is required, pursuant to Article X, Section 22 of the Missouri Constitution, to reduce its operating levy below the minimum tax rate otherwise required under this subsection shall not be construed to be in violation of this subsection for making such tax rate reduction. Pursuant to Section 10(c) of Article X of the state constitution, a school district may levy the operating levy for school purposes required by this subsection less all adjustments required pursuant to Article X, Section 22 of the Missouri Constitution if such rate does not exceed the highest tax rate in effect subsequent to the 1980 tax year. Nothing in this section shall be construed to mean that a school district is guaranteed to receive an amount not less than the amount the school district received per eligible pupil for the school year 1990-91. The provisions of this subsection shall not apply to any school district located in a county of the second classification which has a nuclear power plant located in such district or to any school district located in a county of the third classification which has an electric power generation unit with a rated generating capacity of more than one hundred fifty megawatts which is owned or operated or both by a rural electric cooperative except that such school districts may levy for current school purposes and capital projects an operating levy not to exceed two dollars and seventy-five cents less all adjustments required pursuant to Article X, Section 22 of the Missouri Constitution.

3. No school district shall receive more state aid, as calculated in section 163.031, for its education program, exclusive of categorical add-ons, than it received per eligible pupil for the school year 1993-94, if the state board of education determines that the district was not in compliance in the preceding school year with the requirements of section 163.172, until such time as the board determines that the district is again in compliance with the requirements of section 163.172.

4. No school district shall receive state aid, pursuant to section 163.031, if such district was not in compliance, during the preceding school year, with the requirement, established pursuant to section 160.530 to allocate revenue to the professional development committee of the district.

5. No school district shall receive more state aid, as calculated in subsections 1 and 2 of section 163.031, for its education program, exclusive of categorical add-ons, than it received per weighted average daily attendance for the school year 2005-06 from the foundation formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and free textbook payment amounts, if the district did not comply in the preceding school year with the requirements of subsection 5 of section 163.031.

6. Any school district that levies an operating levy for school purposes that is less than the performance levy, as such term is defined in section 163.011, shall provide written notice to the department of elementary

and secondary education asserting that the district is providing an adequate education to the students of such district. If a school district asserts that it is not providing an adequate education to its students, such inadequacy shall be deemed to be a result of insufficient local effort. The provisions of this subsection shall not apply to any special district established under sections 162.815 to 162.940.”; and

Further amend said bill, Page 17, Section 166.720, Line 14, by inserting after all of said line the following:

“167.121. 1. If the residence of a pupil is so located that attendance in the district of residence constitutes an unusual or unreasonable transportation hardship because of natural barriers, travel time, or distance, the commissioner of education or his **or her** designee may assign the pupil to another district. Subject to the provisions of this section, all existing assignments shall be reviewed prior to July 1, 1984, and from time to time thereafter, and may be continued or rescinded. The board of education of the district in which the pupil lives shall pay the tuition of the pupil assigned. The tuition shall not exceed the pro rata cost of instruction.

2. (1) For the school year beginning July 1, 2008, and each succeeding school year, a parent or guardian residing in a lapsed public school district or **a parent or guardian residing in** a district that has [scored] **received an annual performance report score consistent with a state board of education classification of** either unaccredited or provisionally accredited[, or a combination thereof, on two consecutive annual performance reports] may enroll the parent’s or guardian’s child in the Missouri virtual school created in section 161.670 provided the pupil first enrolls in the school district of residence. The school district of residence shall include the pupil’s enrollment in the virtual school created in section 161.670 in determining the district’s average daily attendance. Full-time enrollment in the virtual school shall constitute one average daily attendance equivalent in the school district of residence. Average daily attendance for part-time enrollment in the virtual school shall be calculated as a percentage of the total number of virtual courses enrolled in divided by the number of courses required for full-time attendance in the school district of residence.

(2) A pupil’s residence, for purposes of this section, means residency established under section 167.020. Except for students residing in a K-8 district attending high school in a district under section 167.131, the board of the home district shall pay to the virtual school the amount required under section 161.670.

(3) Nothing in this section shall require any school district or the state to provide computers, equipment, internet or other access, supplies, materials or funding, except as provided in this section, as may be deemed necessary for a pupil to participate in the virtual school created in section 161.670.

(4) Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

167.127. If a school district contains a facility that serves neglected children or delinquent children residing in a court-ordered group home, an institution for neglected children, or an institution for delinquent children, the department of elementary and secondary education shall be prohibited from creating any report or publication related to the Missouri school improvement program, or any

successor program, in which data from the district’s regularly enrolled pupils is aggregated with data from the children residing in such facilities, unless the department creates an annotation to such report or publication with the data collected only from the district’s regularly enrolled pupils and an explanation of the effects of the data from the children enrolled in such facilities on the aggregate data of the district.

167.131. 1. The board of education of each district in this state that does not maintain [an accredited] **a high school** [pursuant to the authority of the state board of education to classify schools as established in section 161.092] **offering work through the twelfth grade** shall pay [the] tuition [of] **as calculated by the receiving district under subsection 2 of this section** and provide transportation consistent with the provisions of section 167.241 for each pupil resident therein **who has completed the work of the highest grade offered in the schools of the district and** who attends an accredited **public high** school in another district of the same or an adjoining county.

2. The rate of tuition to be charged by the district attended and paid by the sending district is the per pupil cost of maintaining the district’s grade level grouping which includes the school attended. The rate of tuition to be charged by the approved charter school attended and paid by the sending district is the per pupil cost of maintaining the approved charter school’s grade level grouping. For a district, the cost of maintaining a grade level grouping shall be determined by the board of education of the district but in no case shall it exceed all amounts spent for teachers’ wages, incidental purposes, debt service, maintenance and replacements. For an approved charter school, the cost of maintaining a grade level grouping shall be determined by the approved charter school but in no case shall it exceed all amounts spent by the district in which the approved charter school is located for teachers’ wages, incidental purposes, debt service, maintenance, and replacements. The term “debt service”, as used in this section, means expenditures for the retirement of bonded indebtedness and expenditures for interest on bonded indebtedness. Per pupil cost of the grade level grouping shall be determined by dividing the cost of maintaining the grade level grouping by the average daily pupil attendance. If there is disagreement as to the amount of tuition to be paid, the facts shall be submitted to the state board of education, and its decision in the matter shall be final. Subject to the limitations of this section, each pupil shall be free to attend the public school of his or her choice.

3. For purposes of this section, “approved charter school” means a charter school that has existed for less than three years or a charter school with a three-year average score of seventy percent or higher on its annual performance report.

167.132. 1. For purposes of this section, the following terms mean:

(1) **“Available receiving district”, an accredited district able to receive transfer students under section 167.826;**

(2) **“Average per-pupil current expenditure”, the average per-pupil current expenditure for a district as a whole as reported to the department of elementary and secondary education in its most recent school accountability report card under section 160.522;**

(3) **“Receiving approved charter school”, an approved charter school, as defined in section 167.848, receiving transfer students under section 167.826;**

(4) **“Receiving district”, a district receiving transfer students under section 167.826;**

(5) **“Sending district”, a district from which students are transferring to an available receiving**

district or an approved charter school, as allowed under section 167.826.

2. Notwithstanding any other provisions of law to the contrary, a receiving district or a receiving approved charter school may negotiate with a sending district to accept a reduced tuition rate for transfer students. The receiving district or receiving approved charter school may limit the number of transfer students accepted at the reduced tuition rate as calculated under subsection 3 of this section. If the receiving district or receiving approved charter school elects to accept tuition as calculated under subsection 3 of this section and does not limit the number of transfer students accepted at such reduced rate, such district or approved charter school shall receive students through the education authority based solely on the parent request and available seats.

3. In school year 2017-18 and subsequent years, if a sending district and a receiving district or receiving approved charter school have agreed upon a reduced tuition rate, such tuition shall be calculated as the product of:

(1) The sum of the average per-pupil current expenditures of all available receiving districts for the sending district divided by the number of all available receiving districts for the sending district; and

(2) Seventy percent.

4. The appropriate education authority, as defined in section 167.848, that is coordinating the transfers for students in the sending district shall perform the calculation in subsection 3 of this section annually.

5. If there is disagreement as to the amount of tuition to be paid, the facts shall be submitted to the state board of education, and its decision in the matter shall be final.

6. For each of the first two full school years that a receiving district or receiving approved charter school charges a rate of tuition as calculated under subsection 3 of this section, accepts a minimum of twenty-five transfer students at such reduced rate, and does not limit the number of transfer students accepted at such reduced rate, if the aggregate scores of student growth of all the transfer students in the receiving district or receiving approved charter school meet or exceed targets established in the state accountability system, the receiving district or receiving approved charter school shall earn additional credit in academic achievement on its annual performance report. The department of elementary and secondary education shall promulgate an administrative rule to implement the provisions of this subsection. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after the effective date of this section shall be invalid and void.

7. If a receiving district elects to accept tuition as calculated under subsection 3 of this section and does not limit the number of transfer students accepted at such reduced rate, the department of elementary and secondary education shall consider such action as an additional criterion when determining whether to assign the receiving district a classification of accredited with distinction.

8. If a receiving district or receiving approved charter school elects to accept tuition as calculated under subsection 3 of this section and does not limit the number of transfer students accepted at such reduced rate, ten percent of the amount calculated under subdivision (1) of subsection 3 of this section for the receiving district or receiving approved charter school shall be paid from the supplemental tuition fund created in subsection 9 of this section.

9. There is hereby created in the state treasury the “Supplemental Tuition Fund”. The fund shall consist of any moneys appropriated annually by the general assembly from general revenue to such fund, any moneys paid into the state treasury and required by law to be credited to such fund and any gifts, bequests, or public or private donations to such fund. The state treasurer shall be custodian of the fund. The department of elementary and secondary education shall administer the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and, upon appropriation, moneys in the fund shall be used solely for the administration of this section. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

167.685. 1. Each unaccredited district shall offer free tutoring and supplemental education services to students who are performing below grade level or identified by the district as struggling, using funds from the school district improvement fund to the extent that such funds are available. A district may implement the free tutoring services requirement by entering into a contract with a public library for online tutoring services as provided in section 170.215.

2. There is hereby created in the state treasury the “School District Improvement Fund”. The fund shall consist of any gifts, bequests, or public or private donations to such fund. Any person or entity that makes a gift, bequest, or donation to the fund may specify the district that shall be the recipient of such gift, bequest, or donation.

3. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements of public moneys in accordance with distribution requirements and procedures developed by the department of elementary and secondary education and shall make disbursement of private funds according to the directions of the donor. If the donor did not specify how the private funds were to be disbursed, the state treasurer shall contact the donor to determine the manner of disbursement. The fund shall be a dedicated fund and, upon appropriation, moneys in the fund shall be used solely for the administration of this section. A district that receives moneys from the fund may use such moneys to cover the cost of online tutoring services provided through a contract with a public library under section 170.215.

4. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund.

5. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

167.688. 1. Any underperforming district, as defined in section 167.848, may perform any or all of the following actions including, but not limited to:

(1) Implement a new curriculum, including appropriate professional development, based on scientifically based research that offers substantial promise of improving educational achievement of low-achieving students;

(2) Retain an outside expert to advise the district or school on its progress toward regaining accreditation;

(3) Enter into a contract with an education management company or education services provider that has a demonstrated record of effectiveness operating a school or schools;

(4) For any unaccredited school, enter into a collaborative relationship and agreement with an accredited district in which teachers from the unaccredited school may exchange positions with teachers from an accredited school in an accredited district for a period of two school weeks; or

(5) Implement any other change that is suggested by the state board of education, an expert or contractor approved under this section, or an assistance team under section 161.087, in accordance with state law, that the school board has reason to believe will result in improved performance for accreditation purposes.

2. Any underperforming district that offers an attendance recovery program designed exclusively to allow students to recapture attendance hours lost due to absences shall be allowed to include such attendance recovery hours in the district's attendance rate for purposes of the Missouri school improvement program accreditation scoring. Districts may offer attendance recovery programs on Saturdays or at any time before or after the school's regularly scheduled school hours. Extended hour and day programs designed for remediation or enrichment purposes shall not fulfill the criteria of attendance recovery programs as provided in this subsection.

167.730. 1. Beginning July 1, 2018, and continuing thereafter, every public school, including every charter school, in the metropolitan school district or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county shall incorporate a response-to-intervention tiered approach to reading instruction to focus resources on students who are determined by their school to need additional or changed instruction to make progress as readers. At a minimum, the reading levels of students in kindergarten through tenth grade shall be assessed at the beginning and middle of the school year, and students who score below district benchmarks shall be provided with intensive and systematic reading instruction.

2. Beginning January 1, 2018, and every January first thereafter, every public school, including every charter school, in the metropolitan school district or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county shall prepare a personalized learning plan for any kindergarten or first grade student whose most recent school-wide reading assessment result shows the student is working below grade level unless the student has been determined by other means in the current school year to be working at grade level or above. The provisions of this section shall not apply to students otherwise served under an individualized education program, to students receiving services through a plan prepared under Section 504 of the Rehabilitation Act of 1973 that includes an element addressing reading below grade level, or to students determined to have limited English proficiency.

3. For any student who is required by this section to have a personalized learning plan, the student's main teacher shall consult with the student's parent or guardian during the preparation of the plan and shall consult, as appropriate, any district personnel or department of elementary and secondary education personnel with necessary expertise to develop such a plan. The school shall require the written consent of the parent or guardian to implement the plan; however, if the school is unsuccessful in contacting the parent or guardian by January fifteenth, the school may send a letter by certified mail to the student's last known address stating its intention to implement the plan by February first.

4. After implementing the personalized learning plan through the end of the student's first grade year, the school shall refer any student who still performs below grade level for assessment to determine if an individualized education program is necessary for the student. A student who is assessed as not needing an individualized education program but who is reading below grade level at the end of the first grade shall continue to be required to have a personalized learning plan until the student is reading at grade level.

5. Notwithstanding any provision of law to the contrary, any student in a metropolitan school district, in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county, or in any charter school located in any such district who is not reading at second-grade level by the end of second grade may be promoted to the third grade only under one of the following circumstances:

(1) The school provides additional reading instruction during the summer and demonstrates the student is ready for third grade at the end of the summer school;

(2) The school provides a combined classroom in which the student continues with the same teacher, sometimes referred to as "looping". If the student in such a classroom is not reading at third-grade level by the end of third grade, the student shall be retained in third grade; or

(3) The student's parents or guardians have signed a notice that they prefer to have their student promoted although the student is reading below grade level. The school shall have the final determination on the issue of retention.

6. The metropolitan school district, any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county, and each charter school located in them shall provide in its annual report card under section 160.522 the numbers and percentages by grade from first grade to tenth grade in each school of any students at any grade level who have been promoted who have been determined as reading below grade level, except that no reporting shall permit the identification of an individual student.

7. School districts and charter schools under this section may provide for a student promotion and retention program and a reading instruction program that are equivalent to those that are described in this section with the oversight and approval of the department of elementary and secondary education.

167.825. 1. For school year 2017-18, students who transferred from an unaccredited district to an accredited district in the same or an adjoining county under section 167.131 as it existed on July 1, 2014, shall be allowed to participate under the same terms that governed such transfers in school

years 2014-15 through 2016-17, except that section 167.132 shall apply to determine the reimbursement of their tuition.

2. For school year 2017-18, if an unaccredited district becomes classified as provisionally accredited or accredited without provisions by the state board of education, any resident student of the unaccredited district who has transferred under section 167.131 as it existed on July 1, 2014, shall be permitted to continue the student's educational program through the completion of middle school, junior high school, or high school, whichever occurs first, except that a student who attends any school serving students through high school graduation but starting at grades lower than ninth grade shall be permitted to complete high school in the school to which he or she has transferred.

3. Notwithstanding any other provision of law, any student who was participating in the school transfer program before January 1, 2017, and who attended, for at least one semester immediately prior to transferring, a school in an unaccredited district, shall have the option of transferring to a virtual school as provided in subsection 8 of section 162.1250, an approved charter school, or another public school in the student's district of residence that offers the student's grade level of enrollment, as further provided in section 167.826.

167.826. 1. Any student may transfer to another public school in the student's district of residence that offers the student's grade level of enrollment and that is accredited without provisions by the state board of education if such student is enrolled in and has attended an unaccredited school in an unaccredited district for the full semester immediately prior to requesting the transfer.

2. Any student may transfer to another public school in the student's district of residence that offers the student's grade level of enrollment and that is accredited without provisions by the state board of education if such student is enrolled in and has attended an unaccredited school, for the full semester immediately prior to requesting the transfer, in:

(1) An urban school district;

(2) A metropolitan school district;

(3) A district that has most or all of its land area located in a county with a charter form of government and with more than nine hundred fifty thousand inhabitants; or

(4) A district that has most or all of its land area located in a county with a charter form of government and with more than six hundred thousand but fewer than seven hundred thousand inhabitants.

3. No such transfer under subsections 1 and 2 of this section shall result in a class size and assigned enrollment in a receiving school that exceeds the standards for class size and assigned enrollment as promulgated in the Missouri school improvement program's resource standards. If the student chooses to attend a magnet school, an academically selective school, or a school with a competitive entrance process within his or her district of residence that has admissions requirements, the student shall meet such admissions requirements in order to attend. The school board of each district described in subsections 1 and 2 of this section that operates an unaccredited school shall determine the capacity at each of the district's attendance centers that the state board of education has assigned a classification designation of accredited or accredited with distinction. The district's school board shall be responsible for coordinating student transfers from unaccredited schools to accredited

schools within the district. No student enrolled in and attending an attendance center that does not offer classes above the second grade level shall be eligible to transfer under this section.

4. Any student who is enrolled in and has attended an unaccredited school in an unaccredited district for the full semester immediately prior to requesting the transfer and who has first attempted but is unable to transfer to an accredited school within his or her district of residence under subsection 1 of this section due to a lack of capacity in accredited schools in the district of residence may apply for a scholarship to the appropriate education authority to transfer to:

(1) An accredited school in another district located in the same or an adjoining county;

(2) An approved charter school, as defined in section 167.848, in another district located in the same or an adjoining county; or

(3) A nonsectarian private school, as defined in section 167.848.

5. After the state board of education has assigned classification designations to all attendance centers under subsection 3 of section 161.238 and continuing thereafter, any student who is eligible to transfer under subsection 2 of this section and who has first attempted but is unable to transfer to an accredited school within his or her district of residence under subsection 2 of this section due to a lack of capacity in accredited schools in the district of residence may apply for a scholarship to the appropriate education authority to transfer to:

(1) An accredited school in another district located in the same or an adjoining county;

(2) An approved charter school, as defined in section 167.848, in another district located in the same or an adjoining county; or

(3) A nonsectarian private school, as defined in section 167.848.

6. The application to the education authority to transfer shall be made by March first before the school year in which the student intends to transfer.

7. A student who is eligible to begin kindergarten or first grade at an unaccredited school as described in subsection 1 or 2 of this section may apply to the appropriate education authority for a transfer if he or she resides in the attendance area of an unaccredited school on March first preceding the school year of first attendance. A student who does not apply by March first shall be required to enroll and attend for one semester to become eligible to transfer. If the student chooses to apply to attend a magnet school, an academically selective school, or a school with a competitive entrance process that has admissions requirements, the student shall furnish proof that he or she meets such admissions requirements. Any student who does not maintain residency in the attendance area of his or her attendance center in the district of residence shall lose eligibility to transfer. Any student who transfers but later withdraws shall lose eligibility to transfer. The transfer provisions of this subsection shall not apply to a district created under sections 162.815 to 162.840 or to any early childhood programs or early childhood special education programs.

8. No unaccredited district, provisionally accredited district, unaccredited school, or provisionally accredited school shall be eligible to receive transfer students, except that, within an unaccredited district, students may transfer from unaccredited schools to accredited schools, and a transfer student who chooses to attend a provisionally accredited school in the district of residence shall be allowed

to transfer to such school if there is an available slot.

9. If a charter school may receive nonresident transfer students under this section because it has been operating for less than three years but then loses its status as an approved charter school immediately after those three years because its three-year average score on its annual performance report is below seventy percent, any students who previously transferred to the charter school may remain enrolled in the charter school but no additional nonresident students may transfer to the charter school.

10. No attendance center with a three-year average score of seventy percent or lower on its annual performance report shall be eligible to receive any transfer students, irrespective of its state board of education classification designation, except that any student who was granted a transfer to such an attendance center prior to the effective date of this section may remain enrolled in that attendance center.

11. For a receiving district or receiving approved charter school, no acceptance of a transfer student shall require any of the following actions, unless the school board of the receiving district or the receiving approved charter school's governing board has approved the action:

(1) A class size and assigned enrollment in a receiving school that exceeds the number of students provided by its approved policy on class size under subsection 12 of this section;

(2) The hiring of additional classroom teachers; or

(3) The construction of additional classrooms.

12. Each receiving district and each receiving approved charter school shall have the right to establish and adopt, by objective means, a policy for desirable class size and student-teacher ratios. A district's policy may allow for estimated growth in the resident student population. An approved charter school may use the class size, student-teacher ratios, and growth projections for student enrollment contained in the charter school's charter application and charter when adopting a policy. Any district or approved charter school that adopts such a policy shall do so by January first annually. A receiving district or receiving approved charter school shall publish its policy and shall not be required to accept any transfer students under this section that would violate its class size or student-teacher ratio. If a student seeking to transfer is denied admission to a district or approved charter school based on a lack of space under the policy, the student or the student's parent or guardian may appeal the ruling to the state board of education if he or she believes the district's policy or approved charter school's policy is unduly restrictive to student transfers. If more than one student or parent appeals a denial of admission from the same district or approved charter school to the state board of education, the state board shall make an effort to hear such actions at the same time. If the state board of education finds that the policy is unduly restrictive to student transfers, the state board may limit the policy. The state board's decision shall be final.

13. For each student who transfers to another district or approved charter school, the student's district of residence shall pay the tuition amount for each transfer student to the receiving district or receiving approved charter school in two increments annually, once at the start of the school year and once at the start of the second semester of the school year. Each receiving district and receiving approved charter school shall adopt a policy establishing a tuition rate by February first annually.

14. If an unaccredited school becomes classified as provisionally accredited or accredited without provisions by the state board of education, any student who was assigned to such attendance center or a nonsectarian private school in the district of residence and who has transferred under this section shall be permitted to continue his or her educational program in that education option through the completion of middle school, junior high school, or high school, whichever occurs first, except that a student who attends any school serving students through high school graduation but starting at grades lower than ninth grade shall be permitted to complete high school in the school to which he or she has transferred.

15. (1) Except as provided in subdivision (2) of this subsection, if a district described in subsection 1 or 2 of this section operates an unaccredited school, the education authority for the county in which the district is located shall designate at least one accredited district in the same or an adjoining county to which the district operating the unaccredited school shall provide transportation for transfer students. If the designated district reaches full student capacity and is unable to receive additional students, the education authority shall designate at least one additional accredited district to which the district operating an unaccredited school shall provide transportation for transfer students.

(2) For the 2017-18 school year, and until such time as the governor has appointed a number of members sufficient to constitute a quorum to the education authority whose geographic coverage area includes a district operating an unaccredited school, the department of elementary and secondary education shall designate at least one accredited district in the same or an adjoining county to which a district operating an unaccredited school shall provide transportation for transfer students. If the designated district reaches full student capacity and is unable to receive additional students, the department shall designate at least one additional accredited district to which a district operating an unaccredited school shall provide transportation for transfer students.

(3) During the 2017-18 school year, for any district in a county with a charter form of government and with more than nine hundred fifty thousand inhabitants that the state board of education classified as unaccredited effective January 1, 2014, the costs of providing transportation for transfer students to a designated accredited district in the same or an adjoining county shall be paid from the student transfer transportation fund. There is hereby created in the state treasury the “Student Transfer Transportation Fund”, which shall consist of moneys appropriated to this fund. The state treasurer shall be custodian of the fund. The commissioner of education shall administer the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund, and moneys in the fund shall be used solely by the department of elementary and secondary education for the purposes of this subdivision. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

16. Notwithstanding the provisions of subsection 13 of this section to the contrary, if costs associated with the provision of special education and related services to a student with a disability exceed the tuition amount established under this section, the transfer student’s district of residence shall remain responsible to pay the excess cost to the receiving district or receiving approved charter school. If the receiving district is a component district of a special school district, the transfer

student's district of residence, including any metropolitan school district, shall contract with the special school district for the entirety of the costs to provide special education and related services, excluding transportation pursuant to this section. The special school district may contract with the transfer student's district of residence, including any metropolitan district, for the provision of transportation of a student with a disability, or the transfer student's district of residence may provide transportation on its own.

17. A special school district shall continue to provide special education and related services, with the exception of transportation under this section, to a student with a disability transferring from an unaccredited school within a component district to an accredited school within the same or a different component district within the special school district.

18. If any metropolitan school district operates an unaccredited school, it shall remain responsible for the provision of special education and related services, including transportation, to students with disabilities. A special school district in an adjoining county to a metropolitan school district may contract with the metropolitan school district for the reimbursement of special education services pursuant to sections 162.705 and 162.710 provided by the special school district for transfer students who are residents of the district operating an unaccredited school.

19. Regardless of whether transportation is identified as a related service within a student's individualized education program, a receiving district that is not part of a special school district shall not be responsible for providing transportation to a student transferring under this section. A district operating an unaccredited school may contract with a receiving district that is not part of a special school district pursuant to sections 162.705 and 162.710 for transportation of students with disabilities.

20. If a seven-director district or urban school district as described under subsection 1 or 2 of this section operates an unaccredited school, it may contract with a receiving district that is not part of a special school district in the same or an adjoining county for the reimbursement of special education and related services pursuant to sections 162.705 and 162.710 provided by the receiving district for transfer students who are residents of the district operating an unaccredited school.

167.827. 1. By August 1, 2017, and by January first annually, each district eligible to receive transfer students under section 167.826 shall report to the education authority for the county in which the district is located its number of available enrollment slots in accredited schools by grade level. Each district described in subsection 1 or 2 of section 167.826 operating an unaccredited school shall report to the education authority the number of available enrollment slots in the accredited schools of the district by August 1, 2017, and by January first annually. Each approved charter school and nonsectarian private school that is eligible to receive transfer students under section 167.826 shall report the number of available enrollment slots by August 1, 2017, and by January first annually.

2. Any education authority whose geographic area includes a district described in subsection 1 or 2 of section 167.826 operating an unaccredited school shall make information and assistance available to parents or guardians who intend to transfer their child from an unaccredited school to an accredited school in another district in the same or an adjoining county or an approved charter school in another district in the same or an adjoining county or a nonsectarian private school.

3. The parent or guardian of a student who intends to transfer his or her child from an

unaccredited school to an accredited school in another district in the same or an adjoining county or an approved charter school in another district in the same or an adjoining county shall send initial notification to the education authority for the county in which he or she resides by March first for enrollment in the subsequent school year.

4. The education authority whose geographic area includes a district that operates an unaccredited school described in subsection 1 or 2 of section 167.826 shall assign those students who are unable to transfer to an accredited school in their district of residence and seek to transfer to an accredited school in another district in the same or an adjoining county or an approved charter school in another district in the same or an adjoining county or a nonsectarian private school. When assigning transfer students to approved charter schools, an education authority shall coordinate with each approved charter school and its admissions process if capacity is insufficient to enroll all students who submit a timely application. An approved charter school shall not be required to receive any transfer students that would require it to institute a lottery procedure for determining the admission of resident students. The authority shall give first priority to students who live in the same household with any family member within the first or second degree of consanguinity or affinity who have already transferred and who apply to attend the same school. If insufficient grade-appropriate enrollment slots are available for a student to be able to transfer, that student shall receive first priority the following school year. The authority shall only disrupt student and parent choice for transfer if the available slots are requested by more students than there are slots available. The authority shall consider the following factors in assigning schools, with the student's or parent's choice as the most important factor:

- (1) The student's or parent's choice of the receiving school;
- (2) The best interests of the student; and
- (3) Distance and travel time to a receiving school.

The education authority shall not consider student academic performance, free and reduced price lunch status, or athletic ability in assigning a student to a school. When assigning transfer students to approved charter schools, an education authority shall coordinate with each approved charter school and its admissions process if capacity is insufficient to enroll all students who submit a timely application.

5. An education authority may deny a transfer to a student who in the most recent school year has been suspended from school two or more times or who has been suspended for an act of school violence under subsection 2 of section 160.261. A student whose transfer is initially precluded under this subsection may be permitted to transfer on a provisional basis as a probationary transfer student, subject to no further disruptive behavior, upon a statement from the student's current school that the student is not disruptive. A student who is denied a transfer under this subsection has the right to an in-person meeting with a representative of the authority. Each education authority shall develop administrative guidelines to provide common standards for determining disruptive behavior that shall include, but not be limited to, criteria under the safe schools act.

6. Notwithstanding any other provision of law, the test scores of transfer students attending schools in districts other than their district of residence under section 167.826 shall be counted as follows:

(1) In the first year of attendance in a district or approved charter school, a transfer student's score on a statewide assessment shall not be included when calculating the status or progress scores on the district's or charter school's annual performance report scores. The growth score shall be weighted at one hundred percent;

(2) In the second year of attendance, a transfer student's score on a statewide assessment shall be weighted at thirty percent when calculating the district's or charter school's performance for purposes of the district's or charter school's annual performance report status or progress score, with the growth score weighted at one hundred percent;

(3) In the third year of attendance, a transfer student's score on a statewide assessment shall be weighted at seventy percent when calculating the district's or charter school's performance for purposes of the district's or charter school's annual performance report status or progress score, with the growth score weighted at one hundred percent;

(4) In the fourth year of attendance and any subsequent years of attendance, a transfer student's score on a statewide assessment shall be weighted at one hundred percent when calculating the district's or charter school's performance for purposes of the district's or charter school's annual performance report status or progress score, with the growth score weighted at one hundred percent.

7. When performing the requirements of this section, section 167.132, or sections 167.830 to 167.845, if an education authority whose geographic area includes a district that operates an unaccredited school as described in subsection 1 or 2 of section 167.826 is not coordinating transfers due to insufficient funding or because the governor has not yet appointed a number of members sufficient to constitute a quorum to the education authority, the department of elementary and secondary education shall contract with or collaborate with any organizations it chooses, subject to the exception described in subsection 8 of this section, in order to coordinate transfers that each education authority is required to coordinate under such sections. Nothing shall preclude the department from undertaking an evaluation at any time for cause.

(2) If the department determines that a sponsor is in material noncompliance with its sponsorship duties, the sponsor shall be notified and given reasonable time for remediation. If remediation does not address the compliance issues identified by the department, the commissioner of education shall conduct a public hearing and thereafter provide notice to the charter sponsor of corrective action that will be recommended to the state board of education. Corrective action by the department may include withholding the sponsor's funding and suspending the sponsor's authority to sponsor a school that it currently sponsors or to sponsor any additional school until the sponsor is reauthorized by the state board of education under section 160.403.

(3) The charter sponsor may, within thirty days of receipt of the notice of the commissioner's recommendation, provide a written statement and other documentation to show cause as to why that action should not be taken. Final determination of corrective action shall be determined by the state board of education based upon a review of the documentation submitted to the department and the charter sponsor.

(4) If the state board removes the authority to sponsor a currently operating charter school under any provision of law, the Missouri charter public school commission shall become the sponsor of the school.

18. If a sponsor notifies a charter school of closure under subsection 8 of section 160.405, the department of elementary and secondary education shall exercise its financial withholding authority under subsection 12 of section 160.415 to assure all obligations of the charter school shall be met. - (4) Nonresident pupils who are residents of Missouri and have at least one parent employed by the charter school at which the nonresident pupil is seeking enrollment unless the pupil's enrollment will cause a resident student to be denied enrollment;**
- (5) Nonresident pupils from the same or an adjoining county who were enrolled in and attended**

an unaccredited school for at least one semester immediately prior to requesting the transfer and who were unable to transfer to an accredited school within their district of residence as provided in section 167.826, provided the school is an approved charter school, as defined in section 167.848, and subject to all other provisions of section 167.826;

(6) In the case of a charter school whose mission includes student drop-out prevention or recovery, any nonresident pupil from the same or an adjacent county who resides in a residential care facility, a transitional living group home, or an independent living program whose last school of enrollment is in the school district where the charter school is established, who submits a timely application; and

[(5)] (7) In the case of a workplace charter school, any student eligible to attend under subdivision (1) or (2) of this subsection whose parent is employed in the business district, who submits a timely application, unless the number of applications exceeds the capacity of a program, class, grade level or building. The configuration of a business district shall be set forth in the charter and shall not be construed to create an undue advantage for a single employer or small number of employers.

2. If capacity is insufficient to enroll all pupils who submit a timely application, the charter school shall have an admissions process that assures all applicants of an equal chance of gaining admission and does not discriminate based on parents' ability to pay fees or tuition except that:

(1) A charter school may establish a geographical area around the school whose residents will receive a preference for enrolling in the school, provided that such preferences do not result in the establishment of racially or socioeconomically isolated schools and provided such preferences conform to policies and guidelines established by the state board of education;

(2) A charter school may also give a preference for admission of children whose siblings attend the school [or], **for admission of children resident in the district in which it operates and** whose parents are employed at the school, or, in the case of a workplace charter school, **for admission of** a child whose parent is employed in the business district or at the business site of such school; and

(3) Charter alternative and special purpose schools may also give a preference for admission to high-risk students, as defined in subdivision (5) of subsection 2 of section 160.405, when the school targets these students through its proposed mission, curriculum, teaching methods, and services.

3. A charter school shall not limit admission based on race, ethnicity, national origin, disability, income level, proficiency in the English language or athletic ability, but may limit admission to pupils within a given age group or grade level. Charter schools may limit admission based on gender only when the school is a single-gender school. Students of a charter school who have been enrolled for a full academic year shall be counted in the performance of the charter school on the statewide assessments in that calendar year, unless otherwise exempted as English language learners. For purposes of this subsection, "full academic year" means the last Wednesday in September through the administration of the Missouri assessment program test without transferring out of the school and re-enrolling.

4. A charter school shall make available for public inspection, and provide upon request, to the parent, guardian, or other custodian of any school-age pupil resident in the district in which the school is located the following information:

(1) The school's charter;

(2) The school's most recent annual report card published according to section 160.522;

(3) The results of background checks on the charter school's board members; and

(4) If a charter school is operated by a management company, a copy of the written contract between the governing board of the charter school and the educational management organization or the charter management organization for services. The charter school may charge reasonable fees, not to exceed the rate specified in section 610.026 for furnishing copies of documents under this subsection.

5. When a student attending a charter school who is a resident of the school district in which the charter school is located moves out of the boundaries of such school district, the student may complete the current semester and shall be considered a resident student. The student's parent or legal guardian shall be responsible for the student's transportation to and from the charter school.

6. If a change in school district boundary lines occurs under section 162.223, 162.431, 162.441, or 162.451, or by action of the state board of education under section 162.081, including attachment of a school district's territory to another district or dissolution, such that a student attending a charter school prior to such change no longer resides in a school district in which the charter school is located, then the student may complete the current academic year at the charter school. The student shall be considered a resident student. The student's parent or legal guardian shall be responsible for the student's transportation to and from the charter school.

7. The provisions of sections 167.018 and 167.019 concerning foster children's educational rights are applicable to charter schools.

160.415. 1. For the purposes of calculation and distribution of state school aid under section 163.031, pupils enrolled in a charter school shall be included in the pupil enrollment of the school district within which each pupil resides. Each charter school shall report the names, addresses, and eligibility for free and reduced price lunch, special education, or limited English proficiency status, as well as eligibility for categorical aid, of pupils resident in a school district who are enrolled in the charter school to the school district in which those pupils reside. The charter school shall report the average daily attendance data, free and reduced price lunch count, special education pupil count, and limited English proficiency pupil count to the state department of elementary and secondary education. Each charter school shall promptly notify the state department of elementary and secondary education and the pupil's school district when a student discontinues enrollment at a charter school.

2. Except as provided in subsections 3 and 4 of this section, the aid payments for charter schools shall be as described in this subsection.

(1) A school district having one or more resident pupils attending a charter school shall pay to the charter school an annual amount equal to the product of the charter school's weighted average daily attendance and the state adequacy target, multiplied by the dollar value modifier for the district, plus local tax revenues per weighted average daily attendance from the incidental and teachers' funds in excess of the performance levy as defined in section 163.011 plus all other state aid attributable to such pupils.

(2) The district of residence of a pupil attending a charter school shall also pay to the charter school any other federal or state aid that the district receives on account of such child.

(3) If the department overpays or underpays the amount due to the charter school, such overpayment

or underpayment shall be repaid by the public charter school or credited to the public charter school in twelve equal payments in the next fiscal year.

(4) The amounts provided pursuant to this subsection shall be prorated for partial year enrollment for a pupil.

(5) A school district shall pay the amounts due pursuant to this subsection as the disbursal agent and no later than twenty days following the receipt of any such funds. The department of elementary and secondary education shall pay the amounts due when it acts as the disbursal agent within five days of the required due date.

3. A workplace charter school shall receive payment for each eligible pupil as provided under subsection 2 of this section, except that if the student is not a resident of the district and is participating in a voluntary interdistrict transfer program, the payment for such pupils shall be the same as provided under section 162.1060.

4. A charter school that has declared itself as a local educational agency shall receive from the department of elementary and secondary education an annual amount equal to the product of the charter school's weighted average daily attendance and the state adequacy target, multiplied by the dollar value modifier for the district, plus local tax revenues per weighted average daily attendance from the incidental and teachers funds in excess of the performance levy as defined in section 163.011 plus all other state aid attributable to such pupils. If a charter school declares itself as a local educational agency, the department of elementary and secondary education shall, upon notice of the declaration, reduce the payment made to the school district by the amount specified in this subsection and pay directly to the charter school the annual amount reduced from the school district's payment.

5. If a school district fails to make timely payments of any amount for which it is the disbursal agent, the state department of elementary and secondary education shall authorize payment to the charter school of the amount due pursuant to subsection 2 of this section and shall deduct the same amount from the next state school aid apportionment to the owing school district. If a charter school is paid more or less than the amounts due pursuant to this section, the amount of overpayment or underpayment shall be adjusted equally in the next twelve payments by the school district or the department of elementary and secondary education, as appropriate. Any dispute between the school district and a charter school as to the amount owing to the charter school shall be resolved by the department of elementary and secondary education, and the department's decision shall be the final administrative action for the purposes of review pursuant to chapter 536. During the period of dispute, the department of elementary and secondary education shall make every administrative and statutory effort to allow the continued education of children in their current public charter school setting.

6. For purposes of calculation and distribution of state school aid to charter schools under this section, a charter school's weighted average daily attendance shall include any nonresident pupil who is a resident of Missouri, who attends the charter school, and whose parent is employed at the charter school.

7. The charter school and a local school board may agree by contract for services to be provided by the school district to the charter school. The charter school may contract with any other entity for services. Such services may include but are not limited to food service, custodial service, maintenance, management assistance, curriculum assistance, media services and libraries and shall be subject to negotiation between

the charter school and the local school board or other entity. Documented actual costs of such services shall be paid for by the charter school.

[7.] **8.** In the case of a proposed charter school that intends to contract with an education service provider for substantial educational services or management services, the request for proposals shall additionally require the charter school applicant to:

(1) Provide evidence of the education service provider's success in serving student populations similar to the targeted population, including demonstrated academic achievement as well as successful management of nonacademic school functions, if applicable;

(2) Provide a term sheet setting forth the proposed duration of the service contract; roles and responsibilities of the governing board, the school staff, and the service provider; scope of services and resources to be provided by the service provider; performance evaluation measures and time lines; compensation structure, including clear identification of all fees to be paid to the service provider; methods of contract oversight and enforcement; investment disclosure; and conditions for renewal and termination of the contract;

(3) Disclose any known conflicts of interest between the school governing board and proposed service provider or any affiliated business entities;

(4) Disclose and explain any termination or nonrenewal of contracts for equivalent services for any other charter school in the United States within the past five years;

(5) Ensure that the legal counsel for the charter school shall report directly to the charter school's governing board; and

(6) Provide a process to ensure that the expenditures that the education service provider intends to bill to the charter school shall receive prior approval of the governing board or its designee.

[8.] **9.** A charter school may enter into contracts with community partnerships and state agencies acting in collaboration with such partnerships that provide services to children and their families linked to the school.

[9.] **10.** A charter school shall be eligible for transportation state aid pursuant to section 163.161 and shall be free to contract with the local district, or any other entity, for the provision of transportation to the students of the charter school.

[10.] **11.** (1) The proportionate share of state and federal resources generated by students with disabilities or staff serving them shall be paid in full to charter schools enrolling those students by their school district where such enrollment is through a contract for services described in this section. The proportionate share of money generated under other federal or state categorical aid programs shall be directed to charter schools serving such students eligible for that aid.

(2) A charter school shall provide the special services provided pursuant to section 162.705 and may provide the special services pursuant to a contract with a school district or any provider of such services.

[11.] **12.** A charter school may not charge tuition or impose fees that a school district is prohibited from charging or imposing, except that a charter school may receive tuition payments from districts in the same or an adjoining county for nonresident students who transfer to an approved charter school, as defined in

section 167.131, from an unaccredited district.

[12.] **13.** A charter school is authorized to incur debt in anticipation of receipt of funds. A charter school may also borrow to finance facilities and other capital items. A school district may incur bonded indebtedness or take other measures to provide for physical facilities and other capital items for charter schools that it sponsors or contracts with. Except as otherwise specifically provided in sections 160.400 to 160.425, upon the dissolution of a charter school, any liabilities of the corporation will be satisfied through the procedures of chapter 355. A charter school shall satisfy all its financial obligations within twelve months of notice from the sponsor of the charter school's closure under subsection 8 of section 160.405. After satisfaction of all its financial obligations, a charter school shall return any remaining state and federal funds to the department of elementary and secondary education for disposition as stated in subdivision (17) of subsection 1 of section 160.405. The department of elementary and secondary education may withhold funding at a level the department determines to be adequate during a school's last year of operation until the department determines that school records, liabilities, and reporting requirements, including a full audit, are satisfied.

[13.] **14.** Charter schools shall not have the power to acquire property by eminent domain.

[14.] **15.** The governing body of a charter school is authorized to accept grants, gifts or donations of any kind and to expend or use such grants, gifts or donations. A grant, gift or donation may not be accepted by the governing body if it is subject to any condition contrary to law applicable to the charter school or other public schools, or contrary to the terms of the charter.

160.425. 1. The "Missouri Charter Public School Commission" is hereby created with the authority to sponsor high quality charter schools throughout the state of Missouri **as specified in section 160.400.**

2. The commission shall consist of nine members appointed by the governor, by and with the advice and consent of the senate. No more than five of the members shall be of the same political party. No more than two members shall be from the same congressional district. The term of office of each member shall be four years, except those of the members first appointed, of which three shall be appointed for a term of one year, two for a term of two years, two for a term of three years, and two for a term of four years. At the expiration of the term of each member, the governor, by and with the advice and consent of the senate, shall appoint a successor.

3. The appointees to the commission shall be selected as follows:

(1) One member selected by the governor from a slate of three recommended by the commissioner of education;

(2) One member selected by the governor from a slate of three recommended by the commissioner of higher education;

(3) One member selected by the governor from a slate of three recommended by the president pro tempore of the senate;

(4) One member selected by the governor from a slate of three recommended by the speaker of the house of representatives; and

(5) Five additional members appointed by the governor, one of whom shall be selected from a slate of three nominees recommended by the Missouri School Boards Association.

4. Members appointed to the commission shall collectively possess strong experience and expertise in governance, management and finance, school leadership, assessment, curriculum and instruction, and education law. All members of the commission shall have demonstrated understanding of and commitment to charter schooling as a strategy for strengthening public education.

5. The commission shall annually elect a chairperson and vice chairperson, who shall act as chairperson in his or her absence. The commission shall meet at the call of the chairperson. The chairperson may call meetings at such times as he or she deems advisable and shall call a meeting when requested to do so by three or more members of the commission. Members of the commission are not eligible to receive compensation.

6. The commission may approve proposed charters for its sponsorship under sections 160.400 to 160.425 and shall:

(1) Comply with all of the requirements applicable to sponsors under sections 160.400 to 160.425;

(2) Exercise sponsorship over charters approved by the commission under sections 160.400 to 160.425, including receipt of sponsorship funding under subsection 11 of section 160.400.

7. Charter schools sponsored by the commission shall comply with all of the requirements applicable to charter schools under sections 160.400 to 160.425.

8. The commission shall conduct its business in accordance with chapter 610.

9. The department of elementary and secondary education shall provide start-up funding for the commission to operate. The commission shall reimburse the department's costs from any funds it receives as sponsor under section 160.400.

10. The commission is authorized to receive and expend gifts, grants, and donations of any kind from any public or private entity to carry out the purposes of sections 160.400 to 160.425, subject to the terms and conditions under which they are given, provided that all such terms and conditions are permissible under law.

11. The commission may employ staff including, but not limited to, an executive director as needed to carry out its duties. The commission may establish personnel, payroll, benefit, and other such systems as needed and may provide death and disability benefits. Commission employees shall be considered state employees for the purposes of membership in the Missouri state employees' retirement system and the Missouri consolidated health care plan. Compensation paid by the commission shall constitute pay from a state department for purposes of accruing benefits under the Missouri state employees' retirement system.

12. There is hereby created in the state treasury the "Missouri Charter Public School Commission Revolving Fund", which shall consist of money collected under this section. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund, and moneys in the fund shall be used solely by the Missouri charter public school commission for purposes of sections 160.400 to 160.425 and section 167.349. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are

invested. Any interest and moneys earned on such investments shall be credited to the fund.

161.084. When classifying the public schools of the state under section 161.092, if there is no state board of education member who is a resident of the congressional district in which such school district under consideration is located, the state board of education shall assign such school district a classification designation of unaccredited or change a district's classification designation from accredited to provisionally accredited only after notifying the governor of its intent to change the classification of the district. The governor shall make the appointment under section 161.052 within thirty days of notification.

161.087. 1. When assigning classification designations to school districts pursuant to its authority to classify the public schools of the state under section 161.092, the state board of education shall use only the following classification designations:

- (1) Unaccredited;
- (2) Provisionally accredited;
- (3) Accredited; and
- (4) Accredited with distinction.

2. The state board of education shall develop and implement a process to provide assistance teams to borderline districts, as defined in section 167.848, as determined by the department of elementary and secondary education and to underperforming districts, as defined in section 167.848, upon assignment of a classification designation of unaccredited or provisionally accredited or determination made by the state board of education. The composition and size of the team may vary, based on academic, demographic, and financial circumstances of the district, but in no case will the team have fewer than ten members, two of whom shall be active classroom teachers in the district, two of whom shall be principals, and one of whom shall be a parent of a student in the district. The department staff member assigned to the region in which the district is located may be included in the assistance team's activities but shall not be formally assigned to the team. The team shall provide recommendations for improvement based on the needs of the community and the district and analysis of, at a minimum, the assessment data, classroom practices, and communication processes within attendance centers, within the district, and with the larger community. Separate teams may be used to provide analysis and recommendations at the discretion of the state board. Beginning with school year 2017-18, the team shall provide its recommendations no later than June 30, 2018, for underperforming districts and borderline districts. The state board shall prioritize the assignment of teams so that the districts with the lower annual performance report scores are addressed first. The assistance team's suggestions for improvement shall be mandatory for underperforming districts but shall not be mandatory for borderline districts. If an underperforming district disagrees with any suggestion of the assistance team, the district shall propose a different method of accomplishing the goal of the assistance team's suggestion and the state board of education shall be the final arbiter of the matter.

161.238. 1. Notwithstanding any provision of chapter 536 and subdivisions (9) and (14) of section 161.092 to the contrary, the state board of education shall adopt a policy to classify individual attendance centers. Attendance centers that do not offer classes above the second grade level are

exempt from classification under this subsection. The policy shall require that an attendance center's classification be based solely on a three-year average of the attendance center's annual performance report scores using the three most recent years. The state board shall assign a classification consistent with such three-year average score. The state board shall implement such policy and:

(1) Within forty-five days of the effective date of this section, for each district that is classified as unaccredited by the state board of education at that time, classify each of the unaccredited district's attendance centers separately from the district as a whole using the classification designations provided in section 161.087; and

(2) Within ninety days of the effective date of this section, for each district that is classified as provisionally accredited by the state board of education at that time, classify each of the provisionally accredited district's attendance centers separately from the district as a whole using the classification designations provided in section 161.087.

2. The classifications assigned by the state board under subsection 1 of this section shall become effective immediately and shall remain in effect until the state board develops, adopts, and implements the system of classification described in subsection 3 of this section. At such time, the state board shall classify attendance centers based on the system of classification described in subsection 3 of this section.

3. By January 1, 2018, the state board of education shall, through administrative rule, develop a system of classification that accredits attendance centers within a district separately from the district as a whole using the classification designations provided in section 161.087. The state board of education's system shall not assign classification designations to attendance centers that do not offer classes above the second grade level. When the state board adopts its system, it shall assign a classification designation to each attendance center, except for those attendance centers that do not offer classes above the second grade level. The state board of education may assign classification numbers outside the range of numbers assigned to high schools, middle schools, junior high schools, or elementary schools as classification designations for attendance centers that are exempt from the accreditation classification system. Public separate special education schools within a special school district and within a school district are exempted from the accreditation requirements of this section and section 161.087. While not applicable for the purpose of accreditation, a special school district shall continue to report all scores on its annual performance report to the department of elementary and secondary education for all its schools. Juvenile detention centers within a special school district are also exempted from the accreditation standards of this section and section 161.087.

4. Upon adoption of the classification system described in subsection 3 of this section, the state board may change any classification it has assigned to an attendance center under subsection 1 of this section.

5. An attendance center that does not offer classes above the second grade level shall be exempt from any requirements related to statewide assessments.

6. Notwithstanding the provisions of subdivision (9) of section 161.092, the rules and regulations promulgated under this section shall be effective thirty days after publication in the code of state regulations as provided in section 536.021 and shall not be subject to the two-year delay contained in subdivision (9) of section 161.092.

7. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after the effective date of this section shall be invalid and void.

161.950. 1. The provisions of sections 161.950 to 161.956 shall be known as the “Missouri Parent/Teacher Involvement Act”. The “Missouri Parent/Teacher Involvement Program” is hereby established for the purpose of providing grant awards to schools in which a majority of school staff, including administrators, teachers, counselors, and other support staff agree to develop and build trusting relationships between families and school staff, thereby increasing communication and accountability, with the goal of contributing to the academic and social success of pupils. The department of elementary and secondary education shall coordinate and administer the program. Priority for distribution of grant moneys under the program established under sections 161.950 to 161.956 shall be given to districts with Missouri assessment program scores in the lowest twentieth percentile.

2. Schools serving grades K-12 within the state shall operate parent/teacher involvement programs that meet the following requirements:

(1) At least fifty percent of the staff employed at the school site shall voluntarily agree to participate in either periodic visits to the homes of pupils or in community meetings that are held at times and locations convenient to parents and legal guardians;

(2) Prior to the commencement of home visits, a school shall establish a compact in which parents and legal guardians agree to participate in periodic home visits or community meetings;

(3) A teacher who participates in the program shall receive training in strategies for communicating effectively with parents and legal guardians and in conducting periodic home visits or community meetings. These strategies may include providing parents and legal guardians with guidance on how to reinforce educational objectives with their children at home;

(4) Teachers, administrators, counselors, and other support staff shall be compensated for their participation in home visits or community meetings at an hourly rate no less than the hourly rate derived from their regular base salary;

(5) All home visits and community meetings under the program shall be conducted by a pair or team that includes at least one staff member and, in the case of schools maintaining K-5, the classroom teacher of the pupil.

3. For purposes of subsection 2 of this section, “community meetings” means periodic public meetings between the teacher and the parent or legal guardian held by schools for the purpose of strengthening communication between the schools and parents and legal guardians for the improvement of pupil academic achievement.

161.950. 1. The provisions of sections 161.950 to 161.956 shall be known as the “Missouri Parent/Teacher Involvement Act”. The “Missouri Parent/Teacher Involvement Program” is hereby

established for the purpose of providing grant awards to schools in which a majority of school staff, including administrators, teachers, counselors, and other support staff agree to develop and build trusting relationships between families and school staff, thereby increasing communication and accountability, with the goal of contributing to the academic and social success of pupils. The department of elementary and secondary education shall coordinate and administer the program. Priority for distribution of grant moneys under the program established under sections 161.950 to 161.956 shall be given to districts with Missouri assessment program scores in the lowest twentieth percentile.

2. Schools serving grades K-12 within the state shall operate parent/teacher involvement programs that meet the following requirements:

(1) At least fifty percent of the staff employed at the school site shall voluntarily agree to participate in either periodic visits to the homes of pupils or in community meetings that are held at times and locations convenient to parents and legal guardians;

(2) Prior to the commencement of home visits, a school shall establish a compact in which parents and legal guardians agree to participate in periodic home visits or community meetings;

(3) A teacher who participates in the program shall receive training in strategies for communicating effectively with parents and legal guardians and in conducting periodic home visits or community meetings. These strategies may include providing parents and legal guardians with guidance on how to reinforce educational objectives with their children at home;

(4) Teachers, administrators, counselors, and other support staff shall be compensated for their participation in home visits or community meetings at an hourly rate no less than the hourly rate derived from their regular base salary;

(5) All home visits and community meetings under the program shall be conducted by a pair or team that includes at least one staff member and, in the case of schools maintaining K-5, the classroom teacher of the pupil.

3. For purposes of subsection 2 of this section, “community meetings” means periodic public meetings between the teacher and the parent or legal guardian held by schools for the purpose of strengthening communication between the schools and parents and legal guardians for the improvement of pupil academic achievement.

161.952. 1. Beginning with school year 2017-18, each school board shall adopt a policy on parental involvement in the schools of the district. The policy shall be designed to build consistent and effective communication between the parents and guardians of pupils enrolled in the district and the teachers and administrators assigned to the schools the pupils attend. The policy shall provide the opportunity for parents and guardians to be actively involved in the pupil’s education and to be informed of the following:

(1) The importance of the involvement of parents and guardians in directly affecting the success of their children’s educational efforts;

(2) How and when to assist their children or foster children in and support their children’s or foster children’s classroom learning activities;

(3) Techniques, strategies, and skills to use at home to improve their children’s academic success and to support their children’s academic efforts at school and their children’s development as future responsible adult members of society.

2. The state board of education shall adopt recommendations for the development of parental involvement policies under this section.

161.954. 1. There is hereby created in the state treasury the “Missouri Parent/Teacher Involvement Program Fund”, which shall consist of money appropriated for the program established under section 161.950. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and, upon appropriation, money in the fund shall be used solely for the administration of sections 161.950 to 161.956.

2. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund.

3. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

161.956. Under section 23.253 of the Missouri sunset act:

(1) The provisions of the new program authorized under sections 161.950 to 161.956 shall automatically sunset six years after the effective date of sections 161.950 to 161.956 unless reauthorized by an act of the general assembly; and

(2) If such program is reauthorized, the program authorized under sections 161.950 to 161.956 shall automatically sunset twelve years after the effective date of the reauthorization of sections 161.950 to 161.956; and

(3) Sections 161.950 to 161.956 shall terminate on September first of the calendar year immediately following the calendar year in which the program authorized under sections 161.950 to 161.956 is sunset.

161.1005. 1. By July 1, 2018, the department shall employ a dyslexia therapist, licensed psychometrist, licensed speech-language pathologist, certified academic language therapist, or certified training specialist to serve as the department’s dyslexia specialist. Such dyslexia specialist shall have a minimum of three years of field experience in screening, identifying, and treating dyslexia and related disorders.

2. The department shall ensure that the dyslexia specialist has completed training and received certification from a program approved by the legislative task force on dyslexia and is able to provide necessary information and support to school district teachers.

3. The dyslexia specialist shall:

(1) Be highly trained in dyslexia and related disorders, including best practice interventions and treatment models;

(2) Be responsible for the implementation of professional development; and

(3) Serve as the primary source of information and support for districts addressing the needs of students with dyslexia and related disorders.

4. In addition to the duties assigned under subsection 3 of this section, the dyslexia specialist shall also assist the department with developing and administering professional development programs to be made available to school districts no later than the 2018-19 school year. The programs shall focus on educating teachers regarding the indicators of dyslexia, the science surrounding teaching a student who is dyslexic, and classroom accommodations necessary for a student with dyslexia.

162.081. 1. Whenever any school district in this state fails or refuses in any school year to provide for the minimum school term required by section 163.021 or is classified unaccredited, the state board of education shall, upon a district's initial classification or reclassification as unaccredited:

(1) Review the governance of the district to establish the conditions under which the existing school board shall continue to govern; or

(2) Determine the date the district shall lapse and determine an alternative governing structure for the district.

2. If at the time any school district in this state shall be classified as unaccredited, the department of elementary and secondary education shall conduct at least two public hearings at a location in the unaccredited school district regarding the accreditation status of the school district. The hearings shall provide an opportunity to convene community resources that may be useful or necessary in supporting the school district as it attempts to return to accredited status, continues under revised governance, or plans for continuity of educational services and resources upon its attachment to a neighboring district. The department may request the attendance of stakeholders and district officials to review the district's plan to return to accredited status, if any; offer technical assistance; and facilitate and coordinate community resources. Such hearings shall be conducted at least twice annually for every year in which the district remains unaccredited or provisionally accredited.

3. Upon classification of a district as unaccredited, the state board of education may:

(1) Allow continued governance by the existing school district board of education under terms and conditions established by the state board of education; or

(2) Lapse the corporate organization of **all or part of** the unaccredited district and:

The members of the special administrative board shall reflect the population characteristics of the district and shall collectively possess strong experience in school governance, management and finance, and leadership. **The state board of education may appoint members of the district's elected school board to the special administrative board, but members of the elected school board shall not comprise more than forty-nine percent of the special administrative board's membership.** Within fourteen days after the appointment by the state board of education, the special administrative board shall organize by the election of a president, vice president, secretary and a

The special administrative board shall appoint a superintendent of schools to serve as the chief executive officer of the school district, **or a subset of schools**, and to have all powers and duties of any other general superintendent of schools in a seven-director school district. **Nothing in this section shall be construed to permit either the state board of education or a special administrative board to raise, in any way not specifically allowed by law, the tax levy of the district or any part of the district without a vote of the people.** Any special administrative board appointed under this section shall be responsible for the operation of the district **or part of the district** until such time that the district is classified by the state board of education as provisionally accredited for at least two successive academic years, after which time the state board of education may provide for a transition pursuant to section 162.083; or

(b) Determine an alternative governing structure for the district including, at a minimum:

4. If a district remains under continued governance by the school board under subdivision (1) of subsection 3 of this section and either has been unaccredited for three consecutive school years and failed to attain accredited status after the third school year or has been unaccredited for two consecutive school years and the state board of education determines its academic progress is not consistent with attaining accredited status after the third school year, then the state board of education shall proceed under subdivision (2) of subsection 3 of this section in the following school year.

5. A special administrative board **or any other form of governance** appointed under this section shall retain the authority granted to a board of education for the operation of the lapsed school district under the laws of the state in effect at the time of the lapse and may enter into contracts with accredited school districts or other education service providers in order to deliver high-quality educational programs to the residents of the district. If a student graduates while attending a school building in the district that is

operated under a contract with an accredited school district as specified under this subsection, the student shall receive his or her diploma from the accredited school district. The authority of the special administrative board **or any other form of governance appointed under this section** shall expire at the end of the third full school year following its appointment, unless extended by the state board of education. If the lapsed district is reassigned, the [special administrative board] **governing board prior to lapse** shall provide an accounting of all funds, assets and liabilities of the lapsed district and transfer such funds, assets, and liabilities of the lapsed district as determined by the state board of education. Neither the special administrative board **nor any other form of governance appointed under this section** nor its members or employees shall be deemed to be the state or a state agency for any purpose, including section 105.711, et seq. The state of Missouri, its agencies and employees shall be absolutely immune from liability for any and all acts or omissions relating to or in any way involving the lapsed district, [the] a special administrative board, **any other form of governance appointed under this section, [its] or the members or employees of the lapsed district, a special administrative board, or any other form of governance appointed under this section.** Such immunities, and immunity doctrines as exist or may hereafter exist benefitting boards of education, their members and their employees, shall be available to the special administrative board, **any other form of governance appointed under this section, [its] and the members and employees of the special administrative board or any other form of governance appointed under this section.**

6. Neither the special administrative board **nor any other form of governance appointed under this section** nor any district or other entity assigned territory, assets or funds from a lapsed district shall be considered a successor entity for the purpose of employment contracts, unemployment compensation payment pursuant to section 288.110, or any other purpose.

7. If additional teachers are needed by a district as a result of increased enrollment due to the annexation of territory of a lapsed or dissolved district, such district shall grant an employment interview to any permanent teacher of the lapsed or dissolved district upon the request of such permanent teacher.

8. In the event that a school district with an enrollment in excess of five thousand pupils lapses, no school district shall have all or any part of such lapsed school district attached without the approval of the board of the receiving school district.

9. If the state board of education reasonably believes that a school district is unlikely to provide for the minimum number of school hours required in a school term required by section 163.021 because of financial difficulty, the state board of education may, prior to the start of the school term:

(1) Allow continued governance by the existing district school board under terms and conditions established by the state board of education; or

(2) Lapse the corporate organization of the district and implement one of the options available under subdivision (2) of subsection 3 of this section.

10. The provisions of subsection 9 of this section shall not apply to any district solely on the basis of financial difficulty resulting from paying tuition and providing transportation for transfer students under sections 167.825 to 167.827.

162.1303. 1. For purposes of this section, “transient student” means any student who withdraws from one attendance center and enrolls in any other attendance center two or more times within two school years.

2. The department of elementary and secondary education shall annually calculate a transient student ratio for each attendance center, each charter school, and each local educational agency. The department shall annually calculate a transient student ratio for each school district based on the transient student ratios of all the attendance centers in such district. The department shall publish the transient student ratio of each district, each attendance center, each charter school, and each local educational agency on its website.

3. The department shall include, or cause to be included, in each district's school accountability report card the transient student ratio of the district and of each attendance center operated by the district.

4. The department shall include the transient student ratios of attendance centers, charter schools, and local educational agencies in their respective school accountability report cards.

5. The department shall publish the state's aggregate transient student ratio on its website.

6. A transient student ratio shall be calculated as the product of:

(1) One hundred; and

(2) The quotient of:

(a) The sum of the number of transient students and the number of students who withdrew from the district during the school year; and

(b) The sum of the number of students who enrolled in the district on or before the last Wednesday in September and the number of students who enrolled in the district after the last Wednesday of September.

7. Each school district, charter school, and local educational agency shall annually report to the department, by a date established by the department, any information and data required to comply with and perform the calculation required by the provisions of this section.

162.1305. 1. For purposes of this section, "transient student" means any student who withdraws from one attendance center and enrolls in any other attendance center two or more times within two school years.

2. In the first year of attendance in a district or charter school, a transient student's score on a statewide assessment shall not be included when calculating the status or progress scores on the district's or charter school's annual performance report scores. A transient student's growth score shall be weighted at one hundred percent.

3. In the second year of attendance, a transient student's score on a statewide assessment shall be weighted at thirty percent when calculating the district's or charter school's performance for purposes of the district's or charter school's annual performance report status or progress score, with the transient student's growth score weighted at one hundred percent.

4. In the third year of attendance, a transient student's score on a statewide assessment shall be weighted at seventy percent when calculating the district's or charter school's performance for purposes of the district's or charter school's annual performance report status or progress score, with the transient student's growth score weighted at one hundred percent.

5. In the fourth year of attendance and any subsequent years of attendance, a transient student's score on a statewide assessment shall be weighted at one hundred percent when calculating the district's or charter school's performance for purposes of the district's or charter school's annual performance report status or progress score, with the transient student's growth score weighted at one hundred percent.

162.1310. If the state board of education classifies any district or attendance center as unaccredited, the district shall notify the parent or guardian of any student enrolled in the unaccredited district or unaccredited attendance center of the loss of accreditation within seven business days. The district shall also notify district taxpayers of the loss of accreditation within seven business days. The district's notice shall include an explanation of which students may be eligible to transfer, the transfer process under sections 167.825 to 167.827, and any services students may be entitled to receive. The district's notice shall be written in a clear, concise, and easy-to-understand manner. The district shall post the notice in a conspicuous and accessible place in each district attendance center. The district shall also send the notice to each municipality located within the boundaries of the district.

162.1313. The school board of any district that operates an underperforming school, as defined in section 167.848, shall adopt a policy regarding the availability of home visits by school personnel. Pursuant to such policy, the school may offer the parent or guardian of a student enrolled in any such school the opportunity to have one or more annual home visits. If the school decides to offer one or more annual home visits, the school shall offer an opportunity for each visit to occur at the attendance center or at a mutually agreeable site.

163.021. 1. A school district shall receive state aid for its education program only if it:

(1) Provides for a minimum of one hundred seventy-four days and one thousand forty-four hours of actual pupil attendance in a term scheduled by the board pursuant to section 160.041 for each pupil or group of pupils, except that the board shall provide a minimum of one hundred seventy-four days and five hundred twenty-two hours of actual pupil attendance in a term for kindergarten pupils. If any school is dismissed because of inclement weather after school has been in session for three hours, that day shall count as a school day including afternoon session kindergarten students. When the aggregate hours lost in a term due to inclement weather decreases the total hours of the school term below the required minimum number of hours by more than twelve hours for all-day students or six hours for one-half-day kindergarten students, all such hours below the minimum must be made up in one-half day or full day additions to the term, except as provided in section 171.033;

(4) Computes average daily attendance as defined in subdivision (2) of section 163.011 as modified by section 171.031. Whenever there has existed within the district an infectious disease, contagion, epidemic, plague or similar condition whereby the school attendance is substantially reduced for an extended period

in any school year, the apportionment of school funds and all other distribution of school moneys shall be made on the basis of the school year next preceding the year in which such condition existed; **and**

(5) Uses funds derived from the operating levy for school purposes to pay tuition remission for students who attend a nonsectarian private school under section 167.828 at any time that the district is classified as unaccredited by the state board of education.

2. For the 2006-07 school year and thereafter, no school district shall receive more state aid, as calculated under subsections 1 and 2 of section 163.031, for its education program, exclusive of categorical add-ons, than it received per weighted average daily attendance for the school year 2005-06 from the foundation formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and free textbook payment amounts, unless it has an operating levy for school purposes, as determined pursuant to section 163.011, of not less than two dollars and seventy-five cents after all adjustments and reductions. Any district which is required, pursuant to Article X, Section 22 of the Missouri Constitution, to reduce its operating levy below the minimum tax rate otherwise required under this subsection shall not be construed to be in violation of this subsection for making such tax rate reduction. Pursuant to Section 10(c) of Article X of the state constitution, a school district may levy the operating levy for school purposes required by this subsection less all adjustments required pursuant to Article X, Section 22 of the Missouri Constitution if such rate does not exceed the highest tax rate in effect subsequent to the 1980 tax year. Nothing in this section shall be construed to mean that a school district is guaranteed to receive an amount not less than the amount the school district received per eligible pupil for the school year 1990-91. The provisions of this subsection shall not apply to any school district located in a county of the second classification which has a nuclear power plant located in such district or to any school district located in a county of the third classification which has an electric power generation unit with a rated generating capacity of more than one hundred fifty megawatts which is owned or operated or both by a rural electric cooperative except that such school districts may levy for current school purposes and capital projects an operating levy not to exceed two dollars and seventy-five cents less all adjustments required pursuant to Article X, Section 22 of the Missouri Constitution.

3. No school district shall receive more state aid, as calculated in section 163.031, for its education program, exclusive of categorical add-ons, than it received per eligible pupil for the school year 1993-94, if the state board of education determines that the district was not in compliance in the preceding school year with the requirements of section 163.172, until such time as the board determines that the district is again in compliance with the requirements of section 163.172.

4. No school district shall receive state aid, pursuant to section 163.031, if such district was not in compliance, during the preceding school year, with the requirement, established pursuant to section 160.530 to allocate revenue to the professional development committee of the district.

5. No school district shall receive more state aid, as calculated in subsections 1 and 2 of section 163.031, for its education program, exclusive of categorical add-ons, than it received per weighted average daily attendance for the school year 2005-06 from the foundation formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and free textbook payment amounts, if the district did not comply in the preceding school year with the requirements of subsection 5 of section 163.031.

6. Any school district that levies an operating levy for school purposes that is less than the performance levy, as such term is defined in section 163.011, shall provide written notice to the department of elementary

and secondary education asserting that the district is providing an adequate education to the students of such district. If a school district asserts that it is not providing an adequate education to its students, such inadequacy shall be deemed to be a result of insufficient local effort. The provisions of this subsection shall not apply to any special district established under sections 162.815 to 162.940.”; and

Further amend said bill, Page 17, Section 166.720, Line 14, by inserting after all of said line the following:

“167.121. 1. If the residence of a pupil is so located that attendance in the district of residence constitutes an unusual or unreasonable transportation hardship because of natural barriers, travel time, or distance, the commissioner of education or his **or her** designee may assign the pupil to another district. Subject to the provisions of this section, all existing assignments shall be reviewed prior to July 1, 1984, and from time to time thereafter, and may be continued or rescinded. The board of education of the district in which the pupil lives shall pay the tuition of the pupil assigned. The tuition shall not exceed the pro rata cost of instruction.

2. (1) For the school year beginning July 1, 2008, and each succeeding school year, a parent or guardian residing in a lapsed public school district or **a parent or guardian residing in** a district that has [scored] **received an annual performance report score consistent with a state board of education classification of** either unaccredited or provisionally accredited[, or a combination thereof, on two consecutive annual performance reports] may enroll the parent’s or guardian’s child in the Missouri virtual school created in section 161.670 provided the pupil first enrolls in the school district of residence. The school district of residence shall include the pupil’s enrollment in the virtual school created in section 161.670 in determining the district’s average daily attendance. Full-time enrollment in the virtual school shall constitute one average daily attendance equivalent in the school district of residence. Average daily attendance for part-time enrollment in the virtual school shall be calculated as a percentage of the total number of virtual courses enrolled in divided by the number of courses required for full-time attendance in the school district of residence.

(2) A pupil’s residence, for purposes of this section, means residency established under section 167.020. Except for students residing in a K-8 district attending high school in a district under section 167.131, the board of the home district shall pay to the virtual school the amount required under section 161.670.

(3) Nothing in this section shall require any school district or the state to provide computers, equipment, internet or other access, supplies, materials or funding, except as provided in this section, as may be deemed necessary for a pupil to participate in the virtual school created in section 161.670.

(4) Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

167.127. If a school district contains a facility that serves neglected children or delinquent children residing in a court-ordered group home, an institution for neglected children, or an institution for delinquent children, the department of elementary and secondary education shall be prohibited from creating any report or publication related to the Missouri school improvement program, or any

successor program, in which data from the district's regularly enrolled pupils is aggregated with data from the children residing in such facilities, unless the department creates an annotation to such report or publication with the data collected only from the district's regularly enrolled pupils and an explanation of the effects of the data from the children enrolled in such facilities on the aggregate data of the district.

167.131. 1. The board of education of each district in this state that does not maintain [an accredited] **a high school** [pursuant to the authority of the state board of education to classify schools as established in section 161.092] **offering work through the twelfth grade** shall pay [the] tuition [of] **as calculated by the receiving district under subsection 2 of this section** and provide transportation consistent with the provisions of section 167.241 for each pupil resident therein **who has completed the work of the highest grade offered in the schools of the district and** who attends an accredited **public high** school in another district of the same or an adjoining county.

2. The rate of tuition to be charged by the district attended and paid by the sending district is the per pupil cost of maintaining the district's grade level grouping which includes the school attended. The rate of tuition to be charged by the approved charter school attended and paid by the sending district is the per pupil cost of maintaining the approved charter school's grade level grouping. For a district, the cost of maintaining a grade level grouping shall be determined by the board of education of the district but in no case shall it exceed all amounts spent for teachers' wages, incidental purposes, debt service, maintenance and replacements. For an approved charter school, the cost of maintaining a grade level grouping shall be determined by the approved charter school but in no case shall it exceed all amounts spent by the district in which the approved charter school is located for teachers' wages, incidental purposes, debt service, maintenance, and replacements. The term "debt service", as used in this section, means expenditures for the retirement of bonded indebtedness and expenditures for interest on bonded indebtedness. Per pupil cost of the grade level grouping shall be determined by dividing the cost of maintaining the grade level grouping by the average daily pupil attendance. If there is disagreement as to the amount of tuition to be paid, the facts shall be submitted to the state board of education, and its decision in the matter shall be final. Subject to the limitations of this section, each pupil shall be free to attend the public school of his or her choice.

3. For purposes of this section, "approved charter school" means a charter school that has existed for less than three years or a charter school with a three-year average score of seventy percent or higher on its annual performance report.

167.132. 1. For purposes of this section, the following terms mean:

(1) "Available receiving district", an accredited district able to receive transfer students under section 167.826;

(2) "Average per-pupil current expenditure", the average per-pupil current expenditure for a district as a whole as reported to the department of elementary and secondary education in its most recent school accountability report card under section 160.522;

(3) "Receiving approved charter school", an approved charter school, as defined in section 167.848, receiving transfer students under section 167.826;

(4) "Receiving district", a district receiving transfer students under section 167.826;

(5) "Sending district", a district from which students are transferring to an available receiving

district or an approved charter school, as allowed under section 167.826.

2. Notwithstanding any other provisions of law to the contrary, a receiving district or a receiving approved charter school may negotiate with a sending district to accept a reduced tuition rate for transfer students. The receiving district or receiving approved charter school may limit the number of transfer students accepted at the reduced tuition rate as calculated under subsection 3 of this section. If the receiving district or receiving approved charter school elects to accept tuition as calculated under subsection 3 of this section and does not limit the number of transfer students accepted at such reduced rate, such district or approved charter school shall receive students through the education authority based solely on the parent request and available seats.

3. In school year 2017-18 and subsequent years, if a sending district and a receiving district or receiving approved charter school have agreed upon a reduced tuition rate, such tuition shall be calculated as the product of:

(1) The sum of the average per-pupil current expenditures of all available receiving districts for the sending district divided by the number of all available receiving districts for the sending district; and

(2) Seventy percent.

4. The appropriate education authority, as defined in section 167.848, that is coordinating the transfers for students in the sending district shall perform the calculation in subsection 3 of this section annually.

5. If there is disagreement as to the amount of tuition to be paid, the facts shall be submitted to the state board of education, and its decision in the matter shall be final.

6. For each of the first two full school years that a receiving district or receiving approved charter school charges a rate of tuition as calculated under subsection 3 of this section, accepts a minimum of twenty-five transfer students at such reduced rate, and does not limit the number of transfer students accepted at such reduced rate, if the aggregate scores of student growth of all the transfer students in the receiving district or receiving approved charter school meet or exceed targets established in the state accountability system, the receiving district or receiving approved charter school shall earn additional credit in academic achievement on its annual performance report. The department of elementary and secondary education shall promulgate an administrative rule to implement the provisions of this subsection. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after the effective date of this section shall be invalid and void.

7. If a receiving district elects to accept tuition as calculated under subsection 3 of this section and does not limit the number of transfer students accepted at such reduced rate, the department of elementary and secondary education shall consider such action as an additional criterion when determining whether to assign the receiving district a classification of accredited with distinction.

8. If a receiving district or receiving approved charter school elects to accept tuition as calculated under subsection 3 of this section and does not limit the number of transfer students accepted at such reduced rate, ten percent of the amount calculated under subdivision (1) of subsection 3 of this section for the receiving district or receiving approved charter school shall be paid from the supplemental tuition fund created in subsection 9 of this section.

9. There is hereby created in the state treasury the “Supplemental Tuition Fund”. The fund shall consist of any moneys appropriated annually by the general assembly from general revenue to such fund, any moneys paid into the state treasury and required by law to be credited to such fund and any gifts, bequests, or public or private donations to such fund. The state treasurer shall be custodian of the fund. The department of elementary and secondary education shall administer the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and, upon appropriation, moneys in the fund shall be used solely for the administration of this section. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

167.685. 1. Each unaccredited district shall offer free tutoring and supplemental education services to students who are performing below grade level or identified by the district as struggling, using funds from the school district improvement fund to the extent that such funds are available. A district may implement the free tutoring services requirement by entering into a contract with a public library for online tutoring services as provided in section 170.215.

2. There is hereby created in the state treasury the “School District Improvement Fund”. The fund shall consist of any gifts, bequests, or public or private donations to such fund. Any person or entity that makes a gift, bequest, or donation to the fund may specify the district that shall be the recipient of such gift, bequest, or donation.

3. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements of public moneys in accordance with distribution requirements and procedures developed by the department of elementary and secondary education and shall make disbursement of private funds according to the directions of the donor. If the donor did not specify how the private funds were to be disbursed, the state treasurer shall contact the donor to determine the manner of disbursement. The fund shall be a dedicated fund and, upon appropriation, moneys in the fund shall be used solely for the administration of this section. A district that receives moneys from the fund may use such moneys to cover the cost of online tutoring services provided through a contract with a public library under section 170.215.

4. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund.

5. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

167.688. 1. Any underperforming district, as defined in section 167.848, may perform any or all of the following actions including, but not limited to:

(1) Implement a new curriculum, including appropriate professional development, based on scientifically based research that offers substantial promise of improving educational achievement of low-achieving students;

(2) Retain an outside expert to advise the district or school on its progress toward regaining accreditation;

(3) Enter into a contract with an education management company or education services provider that has a demonstrated record of effectiveness operating a school or schools;

(4) For any unaccredited school, enter into a collaborative relationship and agreement with an accredited district in which teachers from the unaccredited school may exchange positions with teachers from an accredited school in an accredited district for a period of two school weeks; or

(5) Implement any other change that is suggested by the state board of education, an expert or contractor approved under this section, or an assistance team under section 161.087, in accordance with state law, that the school board has reason to believe will result in improved performance for accreditation purposes.

2. Any underperforming district that offers an attendance recovery program designed exclusively to allow students to recapture attendance hours lost due to absences shall be allowed to include such attendance recovery hours in the district's attendance rate for purposes of the Missouri school improvement program accreditation scoring. Districts may offer attendance recovery programs on Saturdays or at any time before or after the school's regularly scheduled school hours. Extended hour and day programs designed for remediation or enrichment purposes shall not fulfill the criteria of attendance recovery programs as provided in this subsection.

167.730. 1. Beginning July 1, 2018, and continuing thereafter, every public school, including every charter school, in the metropolitan school district or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county shall incorporate a response-to-intervention tiered approach to reading instruction to focus resources on students who are determined by their school to need additional or changed instruction to make progress as readers. At a minimum, the reading levels of students in kindergarten through tenth grade shall be assessed at the beginning and middle of the school year, and students who score below district benchmarks shall be provided with intensive and systematic reading instruction.

2. Beginning January 1, 2018, and every January first thereafter, every public school, including every charter school, in the metropolitan school district or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county shall prepare a personalized learning plan for any kindergarten or first grade student whose most recent school-wide reading assessment result shows the student is working below grade level unless the student has been determined by other means in the current school year to be working at grade level or above. The provisions of this section shall not apply to students otherwise served under an individualized education program, to students receiving services through a plan prepared under Section 504 of the Rehabilitation Act of 1973 that includes an element addressing reading below grade level, or to students determined to have limited English proficiency.

3. For any student who is required by this section to have a personalized learning plan, the student's main teacher shall consult with the student's parent or guardian during the preparation of the plan and shall consult, as appropriate, any district personnel or department of elementary and secondary education personnel with necessary expertise to develop such a plan. The school shall require the written consent of the parent or guardian to implement the plan; however, if the school is unsuccessful in contacting the parent or guardian by January fifteenth, the school may send a letter by certified mail to the student's last known address stating its intention to implement the plan by February first.

4. After implementing the personalized learning plan through the end of the student's first grade year, the school shall refer any student who still performs below grade level for assessment to determine if an individualized education program is necessary for the student. A student who is assessed as not needing an individualized education program but who is reading below grade level at the end of the first grade shall continue to be required to have a personalized learning plan until the student is reading at grade level.

5. Notwithstanding any provision of law to the contrary, any student in a metropolitan school district, in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county, or in any charter school located in any such district who is not reading at second-grade level by the end of second grade may be promoted to the third grade only under one of the following circumstances:

(1) The school provides additional reading instruction during the summer and demonstrates the student is ready for third grade at the end of the summer school;

(2) The school provides a combined classroom in which the student continues with the same teacher, sometimes referred to as "looping". If the student in such a classroom is not reading at third-grade level by the end of third grade, the student shall be retained in third grade; or

(3) The student's parents or guardians have signed a notice that they prefer to have their student promoted although the student is reading below grade level. The school shall have the final determination on the issue of retention.

6. The metropolitan school district, any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county, and each charter school located in them shall provide in its annual report card under section 160.522 the numbers and percentages by grade from first grade to tenth grade in each school of any students at any grade level who have been promoted who have been determined as reading below grade level, except that no reporting shall permit the identification of an individual student.

7. School districts and charter schools under this section may provide for a student promotion and retention program and a reading instruction program that are equivalent to those that are described in this section with the oversight and approval of the department of elementary and secondary education.

167.825. 1. For school year 2017-18, students who transferred from an unaccredited district to an accredited district in the same or an adjoining county under section 167.131 as it existed on July 1, 2014, shall be allowed to participate under the same terms that governed such transfers in school

years 2014-15 through 2016-17, except that section 167.132 shall apply to determine the reimbursement of their tuition.

2. For school year 2017-18, if an unaccredited district becomes classified as provisionally accredited or accredited without provisions by the state board of education, any resident student of the unaccredited district who has transferred under section 167.131 as it existed on July 1, 2014, shall be permitted to continue the student's educational program through the completion of middle school, junior high school, or high school, whichever occurs first, except that a student who attends any school serving students through high school graduation but starting at grades lower than ninth grade shall be permitted to complete high school in the school to which he or she has transferred.

3. Notwithstanding any other provision of law, any student who was participating in the school transfer program before January 1, 2017, and who attended, for at least one semester immediately prior to transferring, a school in an unaccredited district, shall have the option of transferring to a virtual school as provided in subsection 8 of section 162.1250, an approved charter school, or another public school in the student's district of residence that offers the student's grade level of enrollment, as further provided in section 167.826.

167.826. 1. Any student may transfer to another public school in the student's district of residence that offers the student's grade level of enrollment and that is accredited without provisions by the state board of education if such student is enrolled in and has attended an unaccredited school in an unaccredited district for the full semester immediately prior to requesting the transfer.

2. Any student may transfer to another public school in the student's district of residence that offers the student's grade level of enrollment and that is accredited without provisions by the state board of education if such student is enrolled in and has attended an unaccredited school, for the full semester immediately prior to requesting the transfer, in:

(1) An urban school district;

(2) A metropolitan school district;

(3) A district that has most or all of its land area located in a county with a charter form of government and with more than nine hundred fifty thousand inhabitants; or

(4) A district that has most or all of its land area located in a county with a charter form of government and with more than six hundred thousand but fewer than seven hundred thousand inhabitants.

3. No such transfer under subsections 1 and 2 of this section shall result in a class size and assigned enrollment in a receiving school that exceeds the standards for class size and assigned enrollment as promulgated in the Missouri school improvement program's resource standards. If the student chooses to attend a magnet school, an academically selective school, or a school with a competitive entrance process within his or her district of residence that has admissions requirements, the student shall meet such admissions requirements in order to attend. The school board of each district described in subsections 1 and 2 of this section that operates an unaccredited school shall determine the capacity at each of the district's attendance centers that the state board of education has assigned a classification designation of accredited or accredited with distinction. The district's school board shall be responsible for coordinating student transfers from unaccredited schools to accredited

schools within the district. No student enrolled in and attending an attendance center that does not offer classes above the second grade level shall be eligible to transfer under this section.

4. Any student who is enrolled in and has attended an unaccredited school in an unaccredited district for the full semester immediately prior to requesting the transfer and who has first attempted but is unable to transfer to an accredited school within his or her district of residence under subsection 1 of this section due to a lack of capacity in accredited schools in the district of residence may apply for a scholarship to the appropriate education authority to transfer to:

(1) An accredited school in another district located in the same or an adjoining county;

(2) An approved charter school, as defined in section 167.848, in another district located in the same or an adjoining county; or

(3) A nonsectarian private school, as defined in section 167.848.

5. After the state board of education has assigned classification designations to all attendance centers under subsection 3 of section 161.238 and continuing thereafter, any student who is eligible to transfer under subsection 2 of this section and who has first attempted but is unable to transfer to an accredited school within his or her district of residence under subsection 2 of this section due to a lack of capacity in accredited schools in the district of residence may apply for a scholarship to the appropriate education authority to transfer to:

(1) An accredited school in another district located in the same or an adjoining county;

(2) An approved charter school, as defined in section 167.848, in another district located in the same or an adjoining county; or

(3) A nonsectarian private school, as defined in section 167.848.

6. The application to the education authority to transfer shall be made by March first before the school year in which the student intends to transfer.

7. A student who is eligible to begin kindergarten or first grade at an unaccredited school as described in subsection 1 or 2 of this section may apply to the appropriate education authority for a transfer if he or she resides in the attendance area of an unaccredited school on March first preceding the school year of first attendance. A student who does not apply by March first shall be required to enroll and attend for one semester to become eligible to transfer. If the student chooses to apply to attend a magnet school, an academically selective school, or a school with a competitive entrance process that has admissions requirements, the student shall furnish proof that he or she meets such admissions requirements. Any student who does not maintain residency in the attendance area of his or her attendance center in the district of residence shall lose eligibility to transfer. Any student who transfers but later withdraws shall lose eligibility to transfer. The transfer provisions of this subsection shall not apply to a district created under sections 162.815 to 162.840 or to any early childhood programs or early childhood special education programs.

8. No unaccredited district, provisionally accredited district, unaccredited school, or provisionally accredited school shall be eligible to receive transfer students, except that, within an unaccredited district, students may transfer from unaccredited schools to accredited schools, and a transfer student who chooses to attend a provisionally accredited school in the district of residence shall be allowed

to transfer to such school if there is an available slot.

9. If a charter school may receive nonresident transfer students under this section because it has been operating for less than three years but then loses its status as an approved charter school immediately after those three years because its three-year average score on its annual performance report is below seventy percent, any students who previously transferred to the charter school may remain enrolled in the charter school but no additional nonresident students may transfer to the charter school.

10. No attendance center with a three-year average score of seventy percent or lower on its annual performance report shall be eligible to receive any transfer students, irrespective of its state board of education classification designation, except that any student who was granted a transfer to such an attendance center prior to the effective date of this section may remain enrolled in that attendance center.

11. For a receiving district or receiving approved charter school, no acceptance of a transfer student shall require any of the following actions, unless the school board of the receiving district or the receiving approved charter school's governing board has approved the action:

(1) A class size and assigned enrollment in a receiving school that exceeds the number of students provided by its approved policy on class size under subsection 12 of this section;

(2) The hiring of additional classroom teachers; or

(3) The construction of additional classrooms.

12. Each receiving district and each receiving approved charter school shall have the right to establish and adopt, by objective means, a policy for desirable class size and student-teacher ratios. A district's policy may allow for estimated growth in the resident student population. An approved charter school may use the class size, student-teacher ratios, and growth projections for student enrollment contained in the charter school's charter application and charter when adopting a policy. Any district or approved charter school that adopts such a policy shall do so by January first annually. A receiving district or receiving approved charter school shall publish its policy and shall not be required to accept any transfer students under this section that would violate its class size or student-teacher ratio. If a student seeking to transfer is denied admission to a district or approved charter school based on a lack of space under the policy, the student or the student's parent or guardian may appeal the ruling to the state board of education if he or she believes the district's policy or approved charter school's policy is unduly restrictive to student transfers. If more than one student or parent appeals a denial of admission from the same district or approved charter school to the state board of education, the state board shall make an effort to hear such actions at the same time. If the state board of education finds that the policy is unduly restrictive to student transfers, the state board may limit the policy. The state board's decision shall be final.

13. For each student who transfers to another district or approved charter school, the student's district of residence shall pay the tuition amount for each transfer student to the receiving district or receiving approved charter school in two increments annually, once at the start of the school year and once at the start of the second semester of the school year. Each receiving district and receiving approved charter school shall adopt a policy establishing a tuition rate by February first annually.

14. If an unaccredited school becomes classified as provisionally accredited or accredited without provisions by the state board of education, any student who was assigned to such attendance center or a nonsectarian private school in the district of residence and who has transferred under this section shall be permitted to continue his or her educational program in that education option through the completion of middle school, junior high school, or high school, whichever occurs first, except that a student who attends any school serving students through high school graduation but starting at grades lower than ninth grade shall be permitted to complete high school in the school to which he or she has transferred.

15. (1) Except as provided in subdivision (2) of this subsection, if a district described in subsection 1 or 2 of this section operates an unaccredited school, the education authority for the county in which the district is located shall designate at least one accredited district in the same or an adjoining county to which the district operating the unaccredited school shall provide transportation for transfer students. If the designated district reaches full student capacity and is unable to receive additional students, the education authority shall designate at least one additional accredited district to which the district operating an unaccredited school shall provide transportation for transfer students.

(2) For the 2017-18 school year, and until such time as the governor has appointed a number of members sufficient to constitute a quorum to the education authority whose geographic coverage area includes a district operating an unaccredited school, the department of elementary and secondary education shall designate at least one accredited district in the same or an adjoining county to which a district operating an unaccredited school shall provide transportation for transfer students. If the designated district reaches full student capacity and is unable to receive additional students, the department shall designate at least one additional accredited district to which a district operating an unaccredited school shall provide transportation for transfer students.

(3) During the 2017-18 school year, for any district in a county with a charter form of government and with more than nine hundred fifty thousand inhabitants that the state board of education classified as unaccredited effective January 1, 2014, the costs of providing transportation for transfer students to a designated accredited district in the same or an adjoining county shall be paid from the student transfer transportation fund. There is hereby created in the state treasury the “Student Transfer Transportation Fund”, which shall consist of moneys appropriated to this fund. The state treasurer shall be custodian of the fund. The commissioner of education shall administer the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund, and moneys in the fund shall be used solely by the department of elementary and secondary education for the purposes of this subdivision. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

16. Notwithstanding the provisions of subsection 13 of this section to the contrary, if costs associated with the provision of special education and related services to a student with a disability exceed the tuition amount established under this section, the transfer student’s district of residence shall remain responsible to pay the excess cost to the receiving district or receiving approved charter school. If the receiving district is a component district of a special school district, the transfer

student's district of residence, including any metropolitan school district, shall contract with the special school district for the entirety of the costs to provide special education and related services, excluding transportation pursuant to this section. The special school district may contract with the transfer student's district of residence, including any metropolitan district, for the provision of transportation of a student with a disability, or the transfer student's district of residence may provide transportation on its own.

17. A special school district shall continue to provide special education and related services, with the exception of transportation under this section, to a student with a disability transferring from an unaccredited school within a component district to an accredited school within the same or a different component district within the special school district.

18. If any metropolitan school district operates an unaccredited school, it shall remain responsible for the provision of special education and related services, including transportation, to students with disabilities. A special school district in an adjoining county to a metropolitan school district may contract with the metropolitan school district for the reimbursement of special education services pursuant to sections 162.705 and 162.710 provided by the special school district for transfer students who are residents of the district operating an unaccredited school.

19. Regardless of whether transportation is identified as a related service within a student's individualized education program, a receiving district that is not part of a special school district shall not be responsible for providing transportation to a student transferring under this section. A district operating an unaccredited school may contract with a receiving district that is not part of a special school district pursuant to sections 162.705 and 162.710 for transportation of students with disabilities.

20. If a seven-director district or urban school district as described under subsection 1 or 2 of this section operates an unaccredited school, it may contract with a receiving district that is not part of a special school district in the same or an adjoining county for the reimbursement of special education and related services pursuant to sections 162.705 and 162.710 provided by the receiving district for transfer students who are residents of the district operating an unaccredited school.

167.827. 1. By August 1, 2017, and by January first annually, each district eligible to receive transfer students under section 167.826 shall report to the education authority for the county in which the district is located its number of available enrollment slots in accredited schools by grade level. Each district described in subsection 1 or 2 of section 167.826 operating an unaccredited school shall report to the education authority the number of available enrollment slots in the accredited schools of the district by August 1, 2017, and by January first annually. Each approved charter school and nonsectarian private school that is eligible to receive transfer students under section 167.826 shall report the number of available enrollment slots by August 1, 2017, and by January first annually.

2. Any education authority whose geographic area includes a district described in subsection 1 or 2 of section 167.826 operating an unaccredited school shall make information and assistance available to parents or guardians who intend to transfer their child from an unaccredited school to an accredited school in another district in the same or an adjoining county or an approved charter school in another district in the same or an adjoining county or a nonsectarian private school.

3. The parent or guardian of a student who intends to transfer his or her child from an

unaccredited school to an accredited school in another district in the same or an adjoining county or an approved charter school in another district in the same or an adjoining county shall send initial notification to the education authority for the county in which he or she resides by March first for enrollment in the subsequent school year.

4. The education authority whose geographic area includes a district that operates an unaccredited school described in subsection 1 or 2 of section 167.826 shall assign those students who are unable to transfer to an accredited school in their district of residence and seek to transfer to an accredited school in another district in the same or an adjoining county or an approved charter school in another district in the same or an adjoining county or a nonsectarian private school. When assigning transfer students to approved charter schools, an education authority shall coordinate with each approved charter school and its admissions process if capacity is insufficient to enroll all students who submit a timely application. An approved charter school shall not be required to receive any transfer students that would require it to institute a lottery procedure for determining the admission of resident students. The authority shall give first priority to students who live in the same household with any family member within the first or second degree of consanguinity or affinity who have already transferred and who apply to attend the same school. If insufficient grade-appropriate enrollment slots are available for a student to be able to transfer, that student shall receive first priority the following school year. The authority shall only disrupt student and parent choice for transfer if the available slots are requested by more students than there are slots available. The authority shall consider the following factors in assigning schools, with the student's or parent's choice as the most important factor:

- (1) The student's or parent's choice of the receiving school;
- (2) The best interests of the student; and
- (3) Distance and travel time to a receiving school.

The education authority shall not consider student academic performance, free and reduced price lunch status, or athletic ability in assigning a student to a school. When assigning transfer students to approved charter schools, an education authority shall coordinate with each approved charter school and its admissions process if capacity is insufficient to enroll all students who submit a timely application.

5. An education authority may deny a transfer to a student who in the most recent school year has been suspended from school two or more times or who has been suspended for an act of school violence under subsection 2 of section 160.261. A student whose transfer is initially precluded under this subsection may be permitted to transfer on a provisional basis as a probationary transfer student, subject to no further disruptive behavior, upon a statement from the student's current school that the student is not disruptive. A student who is denied a transfer under this subsection has the right to an in-person meeting with a representative of the authority. Each education authority shall develop administrative guidelines to provide common standards for determining disruptive behavior that shall include, but not be limited to, criteria under the safe schools act.

6. Notwithstanding any other provision of law, the test scores of transfer students attending schools in districts other than their district of residence under section 167.826 shall be counted as

follows:

(1) In the first year of attendance in a district or approved charter school, a transfer student's score on a statewide assessment shall not be included when calculating the status or progress scores on the district's or charter school's annual performance report scores. The growth score shall be weighted at one hundred percent;

(2) In the second year of attendance, a transfer student's score on a statewide assessment shall be weighted at thirty percent when calculating the district's or charter school's performance for purposes of the district's or charter school's annual performance report status or progress score, with the growth score weighted at one hundred percent;

(3) In the third year of attendance, a transfer student's score on a statewide assessment shall be weighted at seventy percent when calculating the district's or charter school's performance for purposes of the district's or charter school's annual performance report status or progress score, with the growth score weighted at one hundred percent;

(4) In the fourth year of attendance and any subsequent years of attendance, a transfer student's score on a statewide assessment shall be weighted at one hundred percent when calculating the district's or charter school's performance for purposes of the district's or charter school's annual performance report status or progress score, with the growth score weighted at one hundred percent.

7. When performing the requirements of this section, section 167.132, or sections 167.830 to 167.845, if an education authority whose geographic area includes a district that operates an unaccredited school as described in subsection 1 or 2 of section 167.826 is not coordinating transfers due to insufficient funding or because the governor has not yet appointed a number of members sufficient to constitute a quorum to the education authority, the department of elementary and secondary education shall contract with or collaborate with any organizations it chooses, subject to the exception described in subsection 8 of this section, in order to coordinate transfers that each education authority is required to coordinate under such sections. The department of elementary and secondary education and such organization or organizations it chooses shall fulfill all functions of the education authorities, including the duty to perform the scholarship calculation as described in subsection 4 of section 167.132. Any applications for transfers and any reports of available enrollment slots that the education authorities would have received shall be submitted to the department of elementary and secondary education or such organization or organizations it chooses instead.

167.828. 1. The school board of any unaccredited district located in any city not within a county, any county with a charter form of government and with more than nine hundred fifty thousand inhabitants, or in any county with a charter form of government and with more than six hundred thousand but fewer than seven hundred thousand inhabitants that operates an unaccredited school shall provide a scholarship for any student who has enrolled in and attended an unaccredited school in the district for one semester to attend a nonsectarian private school, as defined in section 167.848, located in his or her district of residence and is assigned to such school by the education authority.

2. The amount of the scholarship to be paid shall be paid from the district's operating levy for school purposes and shall not exceed the lesser of:

(1) The nonsectarian private school's tuition rate; or

(2) Seventy percent of the unaccredited district's cost of maintaining a grade level grouping as provided by subdivision (1) of subsection 6 of section 167.826.

3. A nonsectarian private school shall qualify to receive scholarship tuition payments under this section only if it satisfies the following conditions:

(1) Is accredited by the North Central Association Commission On Accreditation and School Improvement or demonstrates similar academic quality credentials to the department of elementary and secondary education;

(2) Administers or allows for the administration of the statewide assessments in English language arts and mathematics for transfer students;

(3) Complies with all health and safety laws or codes that apply to nonpublic schools;

(4) Holds a valid occupancy permit if required by its municipality;

(5) Certifies that it will not discriminate in admissions on the basis of race, color, religion, national origin, or disability;

(6) For all students enrolled in the school under the nonsectarian option set forth in section 167.826, complies with the following statutes and any regulations promulgated thereunder by the department of elementary and secondary education: sections 43.408, 43.540, 160.041, 160.045, 160.257, 160.261, 160.262, 160.263, 160.518 for state assessments, the cost of which shall be paid consistent with the manner in which they are paid for students in public schools, 160.522, 160.539, 160.570, 160.660, 160.775, 160.1990, 161.850, 161.102, 161.650, 162.014, 162.068, 162.069, 162.208, 162.215, 162.401, 162.670, 162.720, subdivisions (1) to (3) of section 162.821, 162.1250, 162.1125, subdivisions (1) and (2) of subsection 1 of section 163.021 for eligibility to receive local funds but compliance with these sections shall not make nonsectarian private schools eligible to receive state funding under section 163.031, 167.018, 167.019, 167.020, 167.022, 167.023, 167.031, 167.115, 167.117, 167.122, 167.123, 167.161, 167.166, 167.171, 167.181, 167.191, 167.208, 167.211, 167.227, 167.268, 167.275, 167.280, 167.621 to 167.635, 167.645, 167.700, 167.720, 167.765, 170.005, 170.011, 170.051, 170.315, 170.340, 171.021, 171.031 to 171.033, 171.053, 171.151, 171.171, 178.530, 182.815, 182.817, 191.765 to 191.777, 210.003, 210.110, 210.115, 210.145, 210.150, 210.165, 210.167, 210.760, 210.865, 211.032, 211.034, 211.181, 211.185, 211.188, 320.010, 452.375, 452.376, and 544.193. Nothing in this subdivision shall be construed to exempt the nonsectarian private school from other statutes and regulations which applied to the nonsectarian schools as of January 1, 2014;

(7) Furnishes to the department of elementary and secondary education all necessary data for the calculation of an annual performance report score, which the department shall calculate for each participating nonsectarian private school. At the option of the nonsectarian private school, such score shall be based upon only the records pertaining to students enrolled in the school through the transfer program or for all students if the school chooses to administer state testing to all students;

(8) Where applicable, contracts with a special school district to provide special education services to eligible students on the same terms as public schools, and the costs associated with the services shall be paid in the same manner;

(9) Certifies to the department of elementary and secondary education and to the unaccredited

district that it shall accept the tuition amount specified in subsection 2 of this section as payment in full for the transfer student and shall not require the parent or guardian to pay any additional amount for tuition; and

(10) Files with the department of elementary and secondary education, the appropriate education authority, and the unaccredited district a statement of intent to accept transfer students that includes the information listed in this subsection.

4. When the percentage of transfer students at a nonsectarian private school receiving transfer students under this section reaches twenty-five percent of the school's enrollment, the school shall conform to the Missouri school improvement program performance standards to continue its eligibility for the program under this section.

5. Tuition for a student who attends a nonsectarian private school shall be paid only using funds received by the district from the operating levy for school purposes.

6. The student's district of residence may provide transportation for him or her to attend a nonsectarian private school located within the district but shall not be required to do so.

7. (1) The option for any student who has enrolled in and attended an unaccredited school in an unaccredited district for one semester to attend a nonsectarian private school as provided in this section shall become effective only after the governing body of an unaccredited district, as specified in subsection 1 of this section, submits to the district's voters at a general election a proposal to authorize the governing body to use local operating funds for school purposes to pay for a scholarship at a nonsectarian private school for students assigned to an unaccredited school in the district under sections 167.826 to 167.828 and such proposal is approved by the voters of the district as provided in this subsection. The governing body of the school district shall submit the proposal to the voters of the district at the next general election after the decision of the state board of education declaring the district unaccredited for which the deadline for submission of such ballot proposals is open. The ballot proposal presented to the local voters shall contain substantially the following language:

Shall the (school district's name) allow the use of the district's local operating funds for school purposes to pay for a scholarship at nonsectarian private schools for students who are assigned to an unaccredited public school in the district and who apply to transfer to nonsectarian private schools under section 167.828, RSMo?

☐ YES

☐ NO

If a majority of the votes cast on the question by the qualified voters voting thereon is in favor of the question, the option for students to transfer to a nonsectarian private school shall become effective in that district the next school year. If a majority of the votes cast on the question by the qualified voters voting thereon is opposed to the question, the option shall not become effective unless and until the proposal is resubmitted under this subsection to the qualified voters at a general election and such proposal is approved by a majority of the qualified voters voting on the proposal.

(2) Whenever the governing body of a school district specified in subsection 1 of this section that has not authorized the use of its local operating funds for school purposes as provided in this subsection receives a petition from a nonsectarian private school, signed by the school's chief operating officer, calling for an election to authorize the use of local operating funds for school

purposes to pay for a scholarship at a private nonsectarian school under this subsection, the governing body shall submit to the voters a proposal to authorize such use of funds at the next general election for which the deadline for submission of such ballot proposals is open. If a majority of the votes cast on the question by the qualified voters voting thereon is in favor of the proposal, the option for students to transfer to a nonsectarian private school shall become effective in that district the next school year. If a majority of the votes cast on the proposal by the qualified voters voting thereon is opposed to the proposal, the option shall not become effective unless and until the proposal is resubmitted under this subsection to the qualified voters at a general election and such proposal is approved by a majority of the qualified voters voting on the proposal.

8. This definition shall be construed as the successor to subdivision (7) of section 173.205 for purposes of eligibility requirements of other financial assistance programs that refer to section 173.205.

2. The failure of an approved virtual institution to continuously maintain all of the requirements in paragraphs (a) to (i) of subdivision (4) of subsection 1 of this section shall preclude such institution’s students or applicants from being eligible for assistance under sections 173.1104 and 173.1105.

173.1104. 1. An applicant shall be eligible for initial or renewed financial assistance only if, at the time of application and throughout the period during which the applicant is receiving such assistance, the applicant:

3. Financial assistance shall be allotted for one academic year, but a recipient shall be eligible for renewed assistance until he or she has obtained a baccalaureate degree, provided such financial assistance shall not exceed a total of ten semesters or fifteen quarters or their equivalent. Standards of eligibility for renewed assistance shall be the same as for an initial award of financial assistance, except that for renewal, an applicant shall demonstrate a grade-point average of two and five-tenths on a four-point scale, or the equivalent on another scale. This subsection shall be construed as the successor to section 173.215 for purposes of eligibility requirements of other financial assistance programs that refer to section 173.215.

173.1105. 1. An applicant who is an undergraduate postsecondary student at an approved private, [or] public, **or virtual** institution and who meets the other eligibility criteria shall be eligible for financial assistance, with a minimum and maximum award amount as follows:

(1) For academic years 2010-11, 2011-12, 2012-13, and 2013-14:

Maximum award amounts for an eligible student with an expected family contribution above seven thousand dollars shall be reduced by ten percent of the maximum expected family contribution for his or her increment group. Any award amount shall be reduced by the amount of a student's payment from the A+ schools program or any successor program to it. For purposes of this subsection, the term "increment group" shall mean a group organized by expected family contribution in five hundred dollar increments into which all eligible students shall be placed.

3. If appropriated funds are insufficient to fund the program as described, the maximum award shall be reduced across all sectors by the percentage of the shortfall. If appropriated funds exceed the amount necessary to fund the program, the additional funds shall be used to increase the number of recipients by raising the cutoff for the expected family contribution rather than by increasing the size of the award.

4. Every three years, beginning with academic year 2009-10, the award amount may be adjusted to increase no more than the Consumer Price Index for All Urban Consumers (CPI-U), 1982-1984 = 100, not seasonally adjusted, as defined and officially recorded by the United States Department of Labor, or its successor agency, for the previous academic year. The coordinating board shall prepare a report prior to the legislative session for use of the general assembly and the governor in determining budget requests which shall include the amount of funds necessary to maintain full funding of the program based on the baseline established for the program upon the effective date of sections 173.1101 to 173.1107. Any increase in the award amount shall not become effective unless an increase in the amount of money appropriated to the program necessary to cover the increase in award amount is passed by the general assembly.

173.1107. A recipient of financial assistance may transfer from one approved public [or], private, **or virtual** institution to another without losing eligibility for assistance under sections 173.1101 to 173.1107, but the coordinating board shall make any necessary adjustments in the amount of the award. If a recipient of financial assistance at any time is entitled to a refund of any tuition, fees, or other charges under the rules and regulations of the institution in which he or she is enrolled, the institution shall pay the portion of the refund which may be attributed to the state grant to the coordinating board. The coordinating board will use these refunds to make additional awards under the provisions of sections 173.1101 to 173.1107."; and

SENATE AMENDMENT NO. 1

Amend Senate Substitute for Senate Bill No. 67, Page 1, Section A, Line 5 of said page, by inserting after all of said line the following:

“188.028. 1. Except in the case of a medical emergency, no person shall knowingly perform or induce an abortion upon a pregnant woman under the age of eighteen years unless:

(1) The attending physician has secured the informed written consent of the minor and one parent or guardian, and the consenting parent or guardian of the minor has notified any other custodial parent or guardian in writing prior to the securing of the informed written consent of the minor and one parent or guardian. For purposes of this subdivision, “custodial parent” means any parent of a minor

in a family in which the parents have not separated or dissolved their marriage, or any parent of a minor who has been awarded joint legal custody or joint physical custody of such minor by a court of competent jurisdiction. Notice shall not be required for any parent or guardian:

(a) Who has been found guilty of any offense in violation of chapter 565, relating to offenses against the person; chapter 566, relating to sexual offenses; chapter 567, relating to prostitution; chapter 568, relating to offenses against the family; or chapter 573, relating to pornography and related offenses, if a child was a victim;

(b) Who has been found guilty of any offense in any other state or foreign country, or under federal, tribal, or military jurisdiction if a child was a victim, which would be a violation of chapter 565, 566, 567, 568, or 573 if committed in this state;

(c) Who is listed on the child abuse or neglect central registry under sections 210.109 to 210.183 or on the sexual offender registry under sections 589.400 to 589.425;

(d) Against whom an order of protection has been issued, including a foreign order of protection given full faith and credit in this state under section 455.067;

(e) Whose custodial, parental, or guardianship rights have been terminated by a court of competent jurisdiction; or

(f) Whose whereabouts are unknown after reasonable inquiry, who is a fugitive from justice, who is habitually in an intoxicated or drugged condition, or who has been declared mentally incompetent or incapacitated by a court of competent jurisdiction; or

(2) The minor is emancipated and the attending physician has received the informed written consent of the minor; or

(3) The minor has been granted the right to self-consent to the abortion by court order pursuant to subsection 2 of this section, and the attending physician has received the informed written consent of the minor; or

(4) The minor has been granted consent to the abortion by court order, and the court has given its informed written consent in accordance with subsection 2 of this section, and the minor is having the abortion willingly, in compliance with subsection 3 of this section.

2. The right of a minor to self-consent to an abortion under subdivision (3) of subsection 1 of this section or court consent under subdivision (4) of subsection 1 of this section may be granted by a court pursuant to the following procedures:

(1) The minor or next friend shall make an application to the juvenile court which shall assist the minor or next friend in preparing the petition and notices required pursuant to this section. The minor or the next friend of the minor shall thereafter file a petition setting forth the initials of the minor; the age of the minor; the names and addresses of each parent, guardian, or, if the minor's parents are deceased and no guardian has been appointed, any other person standing in loco parentis of the minor; that the minor has been fully informed of the risks and consequences of the abortion; that the minor is of sound mind and has sufficient intellectual capacity to consent to the abortion; that, if the court does not grant the minor majority rights for the purpose of consent to the abortion, the court should find that the abortion is in the best interest of the

minor and give judicial consent to the abortion; that the court should appoint a guardian ad litem of the child; and if the minor does not have private counsel, that the court should appoint counsel. The petition shall be signed by the minor or the next friend;

(2) A hearing on the merits of the petition, to be held on the record, shall be held as soon as possible within five days of the filing of the petition. If any party is unable to afford counsel, the court shall appoint counsel at least twenty-four hours before the time of the hearing. At the hearing, the court shall hear evidence relating to the emotional development, maturity, intellect and understanding of the minor; the nature, possible consequences, and alternatives to the abortion; and any other evidence that the court may find useful in determining whether the minor should be granted majority rights for the purpose of consenting to the abortion or whether the abortion is in the best interests of the minor;

(3) In the decree, the court shall for good cause:

(a) Grant the petition for majority rights for the purpose of consenting to the abortion; or

(b) Find the abortion to be in the best interests of the minor and give judicial consent to the abortion, setting forth the grounds for so finding; or

(c) Deny the petition, setting forth the grounds on which the petition is denied;

(4) If the petition is allowed, the informed consent of the minor, pursuant to a court grant of majority rights, or the judicial consent, shall bar an action by the parents or guardian of the minor on the grounds of battery of the minor by those performing **or inducing** the abortion. The immunity granted shall only extend to the performance **or inducement** of the abortion in accordance herewith and any necessary accompanying services which are performed in a competent manner. The costs of the action shall be borne by the parties;

(5) An appeal from an order issued under the provisions of this section may be taken to the court of appeals of this state by the minor or by a parent or guardian of the minor. The notice of intent to appeal shall be given within twenty-four hours from the date of issuance of the order. The record on appeal shall be completed and the appeal shall be perfected within five days from the filing of notice to appeal. Because time may be of the essence regarding the performance **or inducement** of the abortion, the supreme court of this state shall, by court rule, provide for expedited appellate review of cases appealed under this section.

3. If a minor desires an abortion, then she shall be orally informed of and, if possible, sign the written consent required [by section 188.039] **under this chapter** in the same manner as an adult person. No abortion shall be performed **or induced** on any minor against her will, except that an abortion may be performed **or induced** against the will of a minor pursuant to a court order described in subdivision (4) of subsection 1 of this section that the abortion is necessary to preserve the life of the minor.”; and

Further amend the title and enacting clause accordingly.

Senator Hoskins moved that the above amendment be adopted.

Abortion will terminate the life of a separate, unique, living human being.";

(3) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department, which describe the various surgical and drug-induced methods of abortion relevant to the stage of pregnancy, as well as the immediate and long-term medical risks commonly associated with each abortion method including, but not limited to, infection, hemorrhage, cervical tear or uterine perforation, harm to subsequent pregnancies or the ability to carry a subsequent child to term, and the possible adverse psychological effects associated with an abortion;

(4) The physician who is to perform or induce the abortion or a qualified professional shall provide the woman with the opportunity to view at least seventy-two hours prior to the abortion an active ultrasound of the unborn child and hear the heartbeat of the unborn child if the heartbeat is audible. The woman shall be provided with a geographically indexed list maintained by the department of health care providers, facilities, and clinics that perform ultrasounds, including those that offer ultrasound services free of charge. Such materials shall provide contact information for each provider, facility, or clinic including telephone numbers and, if available, website addresses. Should the woman decide to obtain an ultrasound from a provider, facility, or clinic other than the abortion facility, the woman shall be offered a reasonable time to obtain the ultrasound examination before the date and time set for performing or inducing an abortion. The person conducting the ultrasound shall ensure that the active ultrasound image is of a quality consistent with standard medical practice in the community, contains the dimensions of the unborn child, and accurately portrays the presence of external members and internal organs, if present or viewable, of the unborn child. The auscultation of fetal heart tone must also be of a quality consistent with standard medical practice in the community. If the woman chooses to view the ultrasound or hear the heartbeat or both at the abortion facility, the viewing or hearing or both shall be provided to her at the abortion facility at least seventy-two hours prior to the abortion being performed or induced;

(5) Prior to an abortion being performed or induced on an unborn child of twenty-two weeks gestational age or older, the physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department that offer information on the possibility of the abortion causing pain to the unborn child. This information shall include, but need not be limited to, the following:

(a) At least by twenty-two weeks of gestational age, the unborn child possesses all the anatomical

structures, including pain receptors, spinal cord, nerve tracts, thalamus, and cortex, that are necessary in order to feel pain;

(b) A description of the actual steps in the abortion procedure to be performed or induced, and at which steps the abortion procedure could be painful to the unborn child;

(c) There is evidence that by twenty-two weeks of gestational age, unborn children seek to evade certain stimuli in a manner that in an infant or an adult would be interpreted as a response to pain;

(d) Anesthesia is given to unborn children who are twenty-two weeks or more gestational age who undergo prenatal surgery;

(e) Anesthesia is given to premature children who are twenty-two weeks or more gestational age who undergo surgery;

(f) Anesthesia or an analgesic is available in order to minimize or alleviate the pain to the unborn child;

(6) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department explaining to the woman alternatives to abortion she may wish to consider. Such materials shall:

(a) Identify on a geographical basis public and private agencies available to assist a woman in carrying her unborn child to term, and to assist her in caring for her dependent child or placing her child for adoption, including agencies commonly known and generally referred to as pregnancy resource centers, crisis pregnancy centers, maternity homes, and adoption agencies. Such materials shall provide a comprehensive list by geographical area of the agencies, a description of the services they offer, and the telephone numbers and addresses of the agencies; provided that such materials shall not include any programs, services, organizations, or affiliates of organizations that perform or induce, or assist in the performing or inducing of, abortions or that refer for abortions;

(b) Explain the Missouri alternatives to abortion services program under section 188.325, and any other programs and services available to pregnant women and mothers of newborn children offered by public or private agencies which assist a woman in carrying her unborn child to term and assist her in caring for her dependent child or placing her child for adoption, including but not limited to prenatal care; maternal health care; newborn or infant care; mental health services; professional counseling services; housing programs; utility assistance; transportation services; food, clothing, and supplies related to pregnancy; parenting skills; educational programs; job training and placement services; drug and alcohol testing and treatment; and adoption assistance;

(c) Identify the state website for the Missouri alternatives to abortion services program under section 188.325, and any toll-free number established by the state operated in conjunction with the program;

(d) Prominently display the statement: “There are public and private agencies willing and able to help you carry your child to term, and to assist you and your child after your child is born, whether you choose to keep your child or place him or her for adoption. The state of Missouri encourages you to contact those agencies before making a final decision about abortion. State law requires that your physician or a qualified professional give you the opportunity to call agencies like these before you undergo an abortion.”;

(7) The physician who is to perform or induce the abortion or a qualified professional has presented the woman, in person, printed materials provided by the department explaining that the father of the unborn

child is liable to assist in the support of the child, even in instances where he has offered to pay for the abortion. Such materials shall include information on the legal duties and support obligations of the father of a child, including, but not limited to, child support payments, and the fact that paternity may be established by the father's name on a birth certificate or statement of paternity, or by court action. Such printed materials shall also state that more information concerning paternity establishment and child support services and enforcement may be obtained by calling the family support division within the Missouri department of social services; and

(8) The physician who is to perform or induce the abortion or a qualified professional shall inform the woman that she is free to withhold or withdraw her consent to the abortion at any time without affecting her right to future care or treatment and without the loss of any state or federally funded benefits to which she might otherwise be entitled.

2. All information required to be provided to a woman considering abortion by subsection 1 of this section shall be presented to the woman individually, in the physical presence of the woman and in a private room, to protect her privacy, to maintain the confidentiality of her decision, to ensure that the information focuses on her individual circumstances, to ensure she has an adequate opportunity to ask questions, and to ensure that she is not a victim of coerced abortion. Should a woman be unable to read materials provided to her, they shall be read to her. Should a woman need an interpreter to understand the information presented in the written materials, an interpreter shall be provided to her. Should a woman ask questions concerning any of the information or materials, answers shall be provided in a language she can understand.

3. No abortion shall be performed or induced unless and until the woman upon whom the abortion is to be performed or induced certifies in writing on a checklist form provided by the department that she has been presented all the information required in subsection 1 of this section, that she has been provided the opportunity to view an active ultrasound image of the unborn child and hear the heartbeat of the unborn child if it is audible, and that she further certifies that she gives her voluntary and informed consent, freely and without coercion, to the abortion procedure.

4. No abortion shall be performed or induced on an unborn child of twenty-two weeks gestational age or older unless and until the woman upon whom the abortion is to be performed or induced has been provided the opportunity to choose to have an anesthetic or analgesic administered to eliminate or alleviate pain to the unborn child caused by the particular method of abortion to be performed or induced. The administration of anesthesia or analgesics shall be performed in a manner consistent with standard medical practice in the community.

5. No physician shall perform or induce an abortion unless and until the physician has obtained from the woman her voluntary and informed consent given freely and without coercion. If the physician has reason to believe that the woman is being coerced into having an abortion, the physician or qualified professional shall inform the woman that services are available for her and shall provide her with private access to a telephone and information about such services, including but not limited to the following:

- (1) Rape crisis centers, as defined in section 455.003;
- (2) Shelters for victims of domestic violence, as defined in section 455.200; and
- (3) Orders of protection, pursuant to chapter 455.

6. No physician shall perform or induce an abortion unless and until the physician has received and

signed a copy of the form prescribed in subsection 3 of this section. The physician shall retain a copy of the form in the patient's medical record.

7. In the event of a medical emergency as provided by section 188.039, the physician who performed or induced the abortion shall clearly certify in writing the nature and circumstances of the medical emergency. This certification shall be signed by the physician who performed or induced the abortion, and shall be maintained under section 188.060.

8. No person or entity shall require, obtain, or accept payment for an abortion from or on behalf of a patient until at least seventy-two hours have passed since the time that the information required by subsection 1 of this section has been provided to the patient. Nothing in this subsection shall prohibit a person or entity from notifying the patient that payment for the abortion will be required after the seventy-two-hour period has expired if she voluntarily chooses to have the abortion.

9. The term "qualified professional" as used in this section shall refer to a physician, physician assistant, registered nurse, licensed practical nurse, psychologist, licensed professional counselor, or licensed social worker, licensed or registered under chapter 334, 335, or 337, acting under the supervision of the physician performing or inducing the abortion, and acting within the course and scope of his or her authority provided by law. The provisions of this section shall not be construed to in any way expand the authority otherwise provided by law relating to the licensure, registration, or scope of practice of any such qualified professional.

10. By November 30, 2010, the department shall produce the written materials and forms described in this section. Any written materials produced shall be printed in a typeface large enough to be clearly legible. All information shall be presented in an objective, unbiased manner designed to convey only accurate scientific and medical information. The department shall furnish the written materials and forms at no cost and in sufficient quantity to any person who performs or induces abortions, or to any hospital or facility that provides abortions. The department shall make all information required by subsection 1 of this section available to the public through its department website. The department shall maintain a toll-free, twenty-four-hour hotline telephone number where a caller can obtain information on a regional basis concerning the agencies and services described in subsection 1 of this section. No identifying information regarding persons who use the website shall be collected or maintained. The department shall monitor the website on a regular basis to prevent tampering and correct any operational deficiencies.

11. In order to preserve the compelling interest of the state to ensure that the choice to consent to an abortion is voluntary and informed, and given freely and without coercion, the department shall use the procedures for adoption of emergency rules under section 536.025 in order to promulgate all necessary rules, forms, and other necessary material to implement this section by November 30, 2010.

12. If the provisions in subsections 1 and 8 of this section requiring a seventy-two-hour waiting period for an abortion are ever temporarily or permanently restrained or enjoined by judicial order, then the waiting period for an abortion shall be twenty-four hours; provided, however, that if such temporary or permanent restraining order or injunction is stayed or dissolved, or otherwise ceases to have effect, the waiting period for an abortion shall be seventy-two hours.

188.028. 1. **Except in the case of a medical emergency**, no person shall knowingly perform **or induce** an abortion upon a pregnant woman under the age of eighteen years unless:

- (1) The attending physician has secured the informed written consent of the minor and one parent or guardian; or
- (2) The minor is emancipated and the attending physician has received the informed written consent of the minor; or
- (3) The minor has been granted the right to self-consent to the abortion by court order pursuant to subsection 2 of this section, and the attending physician has received the informed written consent of the minor; or
- (4) The minor has been granted consent to the abortion by court order, and the court has given its informed written consent in accordance with subsection 2 of this section, and the minor is having the abortion willingly, in compliance with subsection 3 of this section.

2. The right of a minor to self-consent to an abortion under subdivision (3) of subsection 1 of this section or court consent under subdivision (4) of subsection 1 of this section may be granted by a court pursuant to the following procedures:

(1) The minor or next friend shall make an application to the juvenile court which shall assist the minor or next friend in preparing the petition and notices required pursuant to this section. The minor or the next friend of the minor shall thereafter file a petition setting forth the initials of the minor; the age of the minor; the names and addresses of each parent, guardian, or, if the minor's parents are deceased and no guardian has been appointed, any other person standing in loco parentis of the minor; that the minor has been fully informed of the risks and consequences of the abortion; that the minor is of sound mind and has sufficient intellectual capacity to consent to the abortion; that, if the court does not grant the minor majority rights for the purpose of consent to the abortion, the court should find that the abortion is in the best interest of the minor and give judicial consent to the abortion; that the court should appoint a guardian ad litem of the child; and if the minor does not have private counsel, that the court should appoint counsel. The petition shall be signed by the minor or the next friend;

(2) A hearing on the merits of the petition, to be held on the record, shall be held as soon as possible within five days of the filing of the petition. If any party is unable to afford counsel, the court shall appoint counsel at least twenty-four hours before the time of the hearing. At the hearing, the court shall hear evidence relating to the emotional development, maturity, intellect and understanding of the minor; the nature, possible consequences, and alternatives to the abortion; and any other evidence that the court may find useful in determining whether the minor should be granted majority rights for the purpose of consenting to the abortion or whether the abortion is in the best interests of the minor;

(3) In the decree, the court shall for good cause:

- (a) Grant the petition for majority rights for the purpose of consenting to the abortion; or
- (b) Find the abortion to be in the best interests of the minor and give judicial consent to the abortion, setting forth the grounds for so finding; or
- (c) Deny the petition, setting forth the grounds on which the petition is denied;

(4) If the petition is allowed, the informed consent of the minor, pursuant to a court grant of majority rights, or the judicial consent, shall bar an action by the parents or guardian of the minor on the grounds of battery of the minor by those performing **or inducing** the abortion. The immunity granted shall only extend

to the performance **or inducement** of the abortion in accordance herewith and any necessary accompanying services which are performed in a competent manner. The costs of the action shall be borne by the parties;

(5) An appeal from an order issued under the provisions of this section may be taken to the court of appeals of this state by the minor or by a parent or guardian of the minor. The notice of intent to appeal shall be given within twenty-four hours from the date of issuance of the order. The record on appeal shall be completed and the appeal shall be perfected within five days from the filing of notice to appeal. Because time may be of the essence regarding the performance **or inducement** of the abortion, the supreme court of this state shall, by court rule, provide for expedited appellate review of cases appealed under this section.

3. If a minor desires an abortion, then she shall be orally informed of and, if possible, sign the written consent required [by section 188.039] **under this chapter** in the same manner as an adult person. No abortion shall be performed **or induced** on any minor against her will, except that an abortion may be performed **or induced** against the will of a minor pursuant to a court order described in subdivision (4) of subsection 1 of this section that the abortion is necessary to preserve the life of the minor.”; and

Further amend said bill, page 9, Section 188.075, line 19, by inserting after all of said line the following:

“188.080. Any person who is not a physician who performs or induces or attempts to perform or induce an abortion on another is guilty of a class B felony, and, upon conviction, shall be punished as provided by law. [Any physician performing or inducing an abortion who does not have clinical privileges at a hospital which offers obstetrical or gynecological care located within thirty miles of the location at which the abortion is performed or induced shall be guilty of a class A misdemeanor, and, upon conviction shall be punished as provided by law.]”; and

Further amend said bill, page 12, Section 188.160, line 25, by inserting after all of said line the following:

“197.200. As used in sections 197.200 to 197.240, unless the context clearly indicates otherwise, the following terms mean:

(1) “Ambulatory surgical center”, any public or private establishment operated primarily for the purpose of performing surgical procedures or primarily for the purpose of performing childbirths, [or any establishment operated for the purpose of performing or inducing any second or third-trimester abortions or five or more first-trimester abortions per month,] and which does not provide services or other accommodations for patients to stay more than twenty-three hours within the establishment, provided, however, that nothing in this definition shall be construed to include the offices of dentists currently licensed pursuant to chapter 332 **or facilities that are operated primarily for the purpose of providing abortions**;

(2) “Dentist”, any person currently licensed to practice dentistry pursuant to chapter 332;

(3) “Department”, the department of health and senior services;

(4) “Governmental unit”, any city, county or other political subdivision of this state, or any department, division, board or other agency of any political subdivision of this state;

(5) “Person”, any individual, firm, partnership, corporation, company, or association and the legal successors thereof;

(6) “Physician”, any person currently licensed to practice medicine pursuant to chapter 334;

(7) “Podiatrist”, any person currently licensed to practice podiatry pursuant to chapter 330.”; and

Further amend said bill, pages 12-14, Section 197.230, by striking all of said section from the bill; and

Further amend the title and enacting clause accordingly.

FORTY-NINTH DAY—WEDNESDAY, APRIL 5, 2017

The Senate met pursuant to adjournment.

“Cast your burden on the Lord, and he will sustain you; he will never permit the righteous to be moved.” (Psalm 55:22)

And as we serve You here in the Senate, may we do what we can do that can bring relief and help to those in need and deal with those who bring evil among us. In Your Holy Name we pray. Amen.

SENATE AMENDMENT NO. 1

Amend Senate Bill No. 373, Page 1, In the Title, Lines 2-3, by striking the words "the Missouri senior farmers' market nutrition program" and inserting in lieu thereof the following: "seniors"; and

Further amend said bill and page, section A, line 2, by inserting after all of said line the following:

"192.385. 1. There is hereby established in the department of health and senior services the "Senior Services Growth and Development Program" to provide additional funding for senior services provided through the area agencies on aging in this state.

2. Beginning January 1, 2018, two and one-half percent, and beginning January 1, 2019, and each year thereafter, five percent of the premium tax collected under sections 148.320 and 148.370, excluding any moneys to be transferred to the state school moneys fund as described in section 148.360, shall be deposited in the fund created in subsection 3 of this section.

3. (1) There is hereby created in the state treasury the "Senior Services Growth and Development Program Fund", which shall consist of moneys collected under this section. The director of the department of revenue shall collect the moneys described in subsection 2 of this section and shall remit such moneys to the state treasurer for deposit in the fund, less one percent for the cost of collection. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and moneys in the fund shall be used solely by the department of health and senior services for enhancing senior services provided by area agencies on aging in this state.

(2) Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the

fund at the end of the biennium shall not revert to the credit of the general revenue fund. This fund is not intended to supplant general revenue provided for senior services.

(3) The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

4. The department of health and senior services shall disburse the moneys from the fund to the area agencies on aging in accordance with the funding formula used by the department to disburse other federal and state moneys to the area agencies on aging.

5. At least fifty percent of all moneys distributed under this section shall be applied by area agencies on aging to the development and expansion of senior center programs, facilities, and services.

6. All area agencies on aging shall report, either individually or as an association, annually to the department of health and senior services, the department of insurance, financial institutions, and professional registration, and the general assembly on the distribution and use of moneys under this section. The board of directors and the advisory board of each area agency on aging shall be responsible for ensuring the proper use and distribution of such moneys.

7. The department of health and senior services may promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010 that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2017, shall be invalid and void.”; and

Further amend the title and enacting clause accordingly.

We know that whatever this week brings, You are with us and because You are, we can trust Your promises. SENATE AMENDMENT NO. 2

Amend Senate Substitute No. 2 for Senate Committee Substitute for Senate Bill No. 313, Page 1, Section A, Line 10, by inserting after all of said line the following:

“67.1790. 1. The provisions of this section shall be known as the “Local Workforce Development Act of 2017”.

2. The governing body of any county of the first classification with more than two hundred sixty thousand but fewer than three hundred thousand inhabitants, or any city within such county, may impose by order or ordinance a sales tax on all retail sales made within the county or city that are subject to sales tax under chapter 144 for the purpose of funding early childhood education programs in the county or city. The tax shall not exceed one quarter of one percent and shall be imposed solely for the purpose of funding early childhood education programs in the county or city. The tax authorized in this section shall be in addition to all other sales taxes imposed by law and shall be stated separately from all other charges and taxes. The order or ordinance imposing a sales tax under this section shall not become effective unless the governing body of the county or city submits to the voters residing within the county or city, at a general election, a proposal to authorize the governing body of the county or city to impose a tax under this section.

3. The question of whether the tax authorized by this section shall be imposed shall be submitted in substantially the following form:

OFFICIAL BALLOT

Shall (name of county/city) impose a (countywide/citywide) sales tax at a rate of (insert rate of percent) percent for the purpose of funding early childhood education in the county or city?

☐ **YES**

☐ **NO**

If you are in favor of the question, place an “X” in the box opposite “YES”. If you are opposed to the question, place an “X” in the box opposite “NO”.

If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, the order or ordinance shall become effective on the first day of the second calendar quarter after the director of revenue receives notice of adoption of the tax. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the question, the county or city may not impose the sales tax authorized under this section unless and until the question is resubmitted under this section to the qualified voters and such question is approved by a majority of the qualified voters voting on the question.

4. On or after the effective date of any tax authorized under this section, the county or city which imposed the tax shall enter into an agreement with the director of the department of revenue for the purpose of collecting the tax authorized in this section. On or after the effective date of the tax the director of revenue shall be responsible for the administration, collection, enforcement, and operation

of the tax, and sections 32.085 and 32.087 shall apply. All revenue collected under this section by the director of the department of revenue on behalf of any county or city, except for one percent for the cost of collection which shall be deposited in the state's general revenue fund, shall be deposited in a special trust fund, which is hereby created and shall be known as the "Early Childhood Education Sales Tax Trust Fund", and shall be used solely for the designated purposes. Moneys in the fund shall not be deemed to be state funds, and shall not be commingled with any funds of the state. The director may make refunds from the amounts in the trust fund and credited to the county or city for erroneous payments and overpayments made, and may redeem dishonored checks and drafts deposited to the credit of such county or city. Any funds in the special trust fund which are not needed for current expenditures shall be invested in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

5. In order to permit sellers required to collect and report the sales tax to collect the amount required to be reported and remitted, but not to change the requirements of reporting or remitting the tax, or to serve as a levy of the tax, and in order to avoid fractions of pennies, the governing body of the county or city may authorize the use of a bracket system similar to that authorized in section 144.285, and notwithstanding the provisions of that section, this new bracket system shall be used where this tax is imposed and shall apply to all taxable transactions. Beginning with the effective date of the tax, every retailer in the county or city shall add the sales tax to the sale price, and this tax shall be a debt of the purchaser to the retailer until paid, and shall be recoverable at law in the same manner as the purchase price. For purposes of this section, all retail sales shall be deemed to be consummated at the place of business of the retailer.

6. All applicable provisions in sections 144.010 to 144.525 governing the state sales tax, and section 32.057, the uniform confidentiality provision, shall apply to the collection of the tax, and all exemptions granted to agencies of government, organizations, and persons under sections 144.010 to 144.525 are hereby made applicable to the imposition and collection of the tax. The same sales tax permit, exemption certificate, and retail certificate required by sections 144.010 to 144.525 for the administration and collection of the state sales tax shall satisfy the requirements of this section, and no additional permit or exemption certificate or retail certificate shall be required; except that, the director of revenue may prescribe a form of exemption certificate for an exemption from the tax. All discounts allowed the retailer under the state sales tax for the collection of and for payment of taxes are hereby allowed and made applicable to the tax. The penalties for violations provided in section 32.057 and sections 144.010 to 144.525 are hereby made applicable to violations of this section. If any person is delinquent in the payment of the amount required to be paid under this section, or in the event a determination has been made against the person for taxes and penalty under this section, the limitation for bringing suit for the collection of the delinquent tax and penalty shall be the same as that provided in sections 144.010 to 144.525.

7. The governing body of any county or city that has adopted the sales tax authorized in this section may submit the question of repeal of the tax to the voters at a general election. The ballot of submission shall be in substantially the following form:

Shall (insert the name of the county or city) repeal the sales tax imposed at a rate of (insert rate of percent) percent for the purpose of funding early childhood education in the county or city?

☐ YES

☐ NO

If you are in favor of the question, place an “X” in the box opposite “YES”. If you are opposed to the question, place an “X” in the box opposite “NO”.

If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of repeal, that repeal shall become effective on December thirty-first of the calendar year in which such repeal was approved. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the repeal, then the sales tax authorized in this section shall remain effective until the question is resubmitted under this section to the qualified voters and the repeal is approved by a majority of the qualified voters voting on the question.

8. Whenever the governing body of any county or city that has adopted the sales tax authorized in this section receives a petition, signed by ten percent of the registered voters of the county or city voting in the last gubernatorial election, calling for an election to repeal the sales tax imposed under this section, the governing body shall submit to the voters of the county or city a proposal to repeal the tax. If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the repeal, the repeal shall become effective on December thirty-first of the calendar year in which such repeal was approved. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the repeal, then the sales tax authorized in this section shall remain effective until the question is resubmitted under this section to the qualified voters and the repeal is approved by a majority of the qualified voters voting on the question.

9. If the tax is repealed or terminated by any means, all funds remaining in the special trust fund shall continue to be used solely for the designated purposes, and the county or city shall notify the director of the department of revenue of the action at least thirty days before the effective date of the repeal and the director may order retention in the trust fund, for a period of one year, of two percent of the amount collected after receipt of such notice to cover possible refunds or overpayment of the tax and to redeem dishonored checks and drafts deposited to the credit of such accounts. After one year has elapsed after the effective date of abolition of the tax in such county or city, the director shall remit the balance in the account to the county or city and close the account of that county or city. The director shall notify each county or city of each instance of any amount refunded or any check redeemed from receipts due the county or city.

10. The governing body of each county or city imposing the tax authorized under this section shall select an existing community task force to administer the revenue from the tax received by the county or city. Such revenue shall be expended only upon approval by an existing community task force selected by the governing body of the county or city to administer the funds and only in accordance with a budget approved by the county or city governing body.”; and

Further amend the title and enacting clause accordingly.

Senator Dixon moved that the above amendment be adopted.

Senator Koenig raised the point of order that SA 2 goes beyond the scope of the bill. The point of order was referred to the President Pro Tem.

At the request of Senator Dixon, SA 2 was withdrawn, rendering the point of order moot.

Senator Nasheed offered SA 3:

SENATE AMENDMENT NO. 3

Amend Senate Substitute No. 2 for Senate Committee Substitute for Senate Bill No. 313, Page 57, Section 167.688, Line 5, by inserting after all of said line the following:

“167.735. 1. Beginning July 1, 2018, every public school in the metropolitan school district or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county, including charter schools, shall incorporate a response-to-intervention tiered approach to reading instruction to focus resources on students who are determined by their school to need additional or changed instruction to make progress as readers. At a minimum, the reading levels of students in kindergarten through tenth grade shall be assessed at the beginning and middle of the school year, and students who score below district benchmarks shall be provided with intensive, systematic reading instruction.

2. Beginning January 1, 2018, and every January first thereafter, every public school in the metropolitan school district or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county, including charter schools, shall prepare a personalized learning plan for any kindergarten or first grade student whose most recent school-wide reading assessment result shows the student is working below grade level unless the student has been determined by other means in the current school year to be working at grade level or above. The provisions of this section shall not apply to students otherwise served under an individualized education program, to students receiving services through a plan prepared under Section 504 of the Rehabilitation Act of 1973 that includes an element addressing reading below grade level, or to students determined to have limited English proficiency.

3. For any student in a metropolitan school district or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county that is required by this section to have a personalized learning plan, the student’s main teacher shall consult with the student’s parent or guardian during the preparation of the plan and shall consult, as appropriate, any district personnel or department of elementary and secondary education personnel with necessary expertise to develop such a plan. The school shall require the written consent of the parent or guardian to implement the plan; however, if the school is unsuccessful in contacting the parent or guardian by January fifteenth, the school may send a letter by certified mail to the student’s last known address stating its intention to implement the plan by February first.

4. After implementing the personalized learning plan through the end of the student’s first grade year, the school shall refer any student who still performs below grade level for assessment to determine if an individualized education program is necessary for the student. A student who is assessed as not needing an individualized education program but who is reading below grade level at the end of the first grade shall continue to be required to have a personalized learning plan until the student is reading at grade level.

5. Notwithstanding any provision of law to the contrary, any student in a metropolitan or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county who is not reading at second-grade level by the end of second grade may be promoted to the third grade only under one of the following circumstances:

(1) The school provides additional reading instruction during the summer and demonstrates the student has the abilities and the knowledge to successfully learn in third grade at the end of the summer school;

(2) The school provides a combined classroom in which the student continues with the same teacher, sometimes referred to as “looping”. If the student in such a classroom is not reading at third-grade level by the end of third grade, the student shall be retained in third grade; or

(3) The student’s parents or guardians have signed a notice that they prefer to have their student promoted although the student is reading below grade level. The school shall have the final determination on the issue of retention.

6. The metropolitan school district, any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county, and each charter school located in such districts shall provide in its annual report card under section 160.522 the numbers and percentages by grade from first grade to tenth grade in each school of any students at any grade level who have been promoted who have been determined as reading below grade level, except that no reporting shall permit the identification of an individual student.

7. School districts and charter schools under this section may provide for a student promotion and retention program and a reading instruction program that are equivalent to those which are described in this section with the oversight and approval of the department of elementary and secondary education.”; and

Further amend the title and enacting clause accordingly.

Senator Nasheed moved that the above amendment be adopted, which motion prevailed.

SENATE AMENDMENT NO. 6

Amend Senate Substitute No. 2 for Senate Committee Substitute for Senate Bill No. 313, Page 1, In the Title, Line 5, by striking the words “elementary and secondary”; and

Further amend said bill and page, Section A, line 10, by inserting after all of said line the following:

“67.1790. 1. The governing body of any county of the first classification with more than two hundred sixty thousand but fewer than three hundred thousand inhabitants, or any city within such county, may impose by order or ordinance a sales tax on all retail sales made within the county or city that are subject to sales tax under chapter 144 for the purpose of funding early childhood education programs in the county or city. The tax shall not exceed one quarter of one percent and shall be imposed solely for the purpose of funding early childhood education programs in the county or city. The tax authorized in this section shall be in addition to all other sales taxes imposed by law and shall be stated separately from all other charges and taxes. The order or ordinance imposing a sales tax under this section shall not become effective unless the governing body of the county or city submits to the voters residing within the county or city, at a general election, a proposal to authorize the governing body of the county or city to impose a tax under this section.

2. The question of whether the tax authorized by this section shall be imposed shall be submitted in substantially the following form:

OFFICIAL BALLOT

Shall (name of county/city) impose a (countywide/citywide) sales tax at a rate of (insert rate of percent) percent for the purpose of funding early childhood education in the county or city?

☐ YES

☐ NO

If you are in favor of the question, place an “X” in the box opposite “YES”. If you are opposed to the question, place an “X” in the box opposite “NO”.

If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, the order or ordinance shall become effective on the first day of the second calendar quarter after the director of revenue receives notice of adoption of the tax. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the question, the county or city may not impose the sales tax authorized under this section unless and until the question is resubmitted under this section to the qualified voters and such question is approved by a majority of the qualified voters voting on the question.

3. On or after the effective date of any tax authorized under this section, the county or city which imposed the tax shall enter into an agreement with the director of the department of revenue for the purpose of collecting the tax authorized in this section. On or after the effective date of the tax the director of revenue shall be responsible for the administration, collection, enforcement, and operation of the tax, and sections 32.085 and 32.087 shall apply. All revenue collected under this section by the director of the department of revenue on behalf of any county or city, except for one percent for the cost of collection which shall be deposited in the state’s general revenue fund, shall be deposited in a special trust fund, which is hereby created and shall be known as the “Early Childhood Education Sales Tax Trust Fund”, and shall be used solely for the designated purposes. Moneys in the fund shall not be deemed to be state funds, and shall not be commingled with any funds of the state. The director may make refunds from the amounts in the trust fund and credited to the county or city for erroneous payments and overpayments made, and may redeem dishonored checks and drafts deposited to the credit of such county or city. Any funds in the special trust fund which are not needed for current expenditures shall be invested in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

4. In order to permit sellers required to collect and report the sales tax to collect the amount required to be reported and remitted, but not to change the requirements of reporting or remitting the tax, or to serve as a levy of the tax, and in order to avoid fractions of pennies, the governing body of the county or city may authorize the use of a bracket system similar to that authorized in section 144.285, and notwithstanding the provisions of that section, this new bracket system shall be used where this tax is imposed and shall apply to all taxable transactions. Beginning with the effective date of the tax, every retailer in the county or city shall add the sales tax to the sale price, and this tax shall be a debt of the purchaser to the retailer until paid, and shall be recoverable at law in the same manner as the purchase price. For purposes of this section, all retail sales shall be deemed to be consummated at the place of business of the retailer.

5. All applicable provisions in sections 144.010 to 144.525 governing the state sales tax, and section 32.057, the uniform confidentiality provision, shall apply to the collection of the tax, and all exemptions granted to agencies of government, organizations, and persons under sections 144.010 to 144.525 are hereby made applicable to the imposition and collection of the tax. The same sales tax permit, exemption certificate, and retail certificate required by sections 144.010 to 144.525 for the administration and collection of the state sales tax shall satisfy the requirements of this section, and no additional permit or exemption certificate or retail certificate shall be required; except that, the director of revenue may prescribe a form of exemption certificate for an exemption from the tax. All discounts allowed the retailer under the state sales tax for the collection of and for payment of taxes are hereby allowed and made applicable to the tax. The penalties for violations provided in section 32.057 and sections 144.010 to 144.525 are hereby made applicable to violations of this section. If any person is delinquent in the payment of the amount required to be paid under this section, or in the event a determination has been made against the person for taxes and penalty under this section, the limitation for bringing suit for the collection of the delinquent tax and penalty shall be the same as that provided in sections 144.010 to 144.525.

6. The governing body of any county or city that has adopted the sales tax authorized in this section may submit the question of repeal of the tax to the voters at a general election. The ballot of submission shall be in substantially the following form:

Shall (insert the name of the county or city) repeal the sales tax imposed at a rate of (insert rate of percent) percent for the purpose of funding early childhood education in the county or city?

☐ **YES**

☐ **NO**

If you are in favor of the question, place an “X” in the box opposite “YES”. If you are opposed to the question, place an “X” in the box opposite “NO”.

If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of repeal, that repeal shall become effective on December thirty-first of the calendar year in which such repeal was approved. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the repeal, then the sales tax authorized in this section shall remain effective until the question is resubmitted under this section to the qualified voters and the repeal is approved by a majority of the qualified voters voting on the question.

7. Whenever the governing body of any county or city that has adopted the sales tax authorized in this section receives a petition, signed by ten percent of the registered voters of the county or city voting in the last gubernatorial election, calling for an election to repeal the sales tax imposed under this section, the governing body shall submit to the voters of the county or city a proposal to repeal the tax. If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the repeal, the repeal shall become effective on December thirty-first of the calendar year in which such repeal was approved. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the repeal, then the sales tax authorized in this section shall remain effective until the question is resubmitted under this section to the qualified voters and the repeal is approved by a majority of the qualified voters voting on the question.

8. If the tax is repealed or terminated by any means, all funds remaining in the special trust fund shall continue to be used solely for the designated purposes, and the county or city shall notify the director of the department of revenue of the action at least thirty days before the effective date of the repeal and the director may order retention in the trust fund, for a period of one year, of two percent of the amount collected after receipt of such notice to cover possible refunds or overpayment of the tax and to redeem dishonored checks and drafts deposited to the credit of such accounts. After one year has elapsed after the effective date of abolition of the tax in such county or city, the director shall remit the balance in the account to the county or city and close the account of that county or city. The director shall notify each county or city of each instance of any amount refunded or any check redeemed from receipts due the county or city.

9. The governing body of each county or city imposing the tax authorized under this section shall select an existing community task force to administer the revenue from the tax received by the county or city. Such revenue shall be expended only upon approval by an existing community task force selected by the governing body of the county or city to administer the funds and only in accordance with a budget approved by the county or city governing body.”; and

Further amend the title and enacting clause accordingly.

Senator Dixon moved that the above amendment be adopted, which motion failed on a standing division vote.

President Parson assumed the Chair.

“162.431. 1. When it is necessary to change the boundary lines between seven-director school districts, in each district affected, ten percent of the voters by number of those voting for school board members in the last annual school election in each district may petition the district boards of education in the districts affected, regardless of county lines, for a change in boundaries. The question shall be submitted at the next election, as the term election is referenced and defined in section 115.123.

2. The voters shall decide the question by a majority vote of those who vote upon the question. If assent to the change is given by each of the various districts voting, each voting separately, the boundaries are changed from that date.

3. If one of the districts votes against the change and the other votes for the change, the matter may be appealed to the state board of education, in writing, within fifteen days of the submission of the question by either one of the districts affected, or in the above event by a majority of the signers of the petition requesting a vote on the proposal. At the first meeting of the state board following the appeal, a board of arbitration composed of three members, none of whom shall be a resident of any district affected, shall be appointed. In determining whether it is necessary to change the boundary line between seven-director districts, the board of arbitration shall base its decision upon the following:

(1) The presence of school-aged children in the affected area;

(2) The presence of actual educational harm to school-aged children, either due to a significant difference in the time involved in transporting [students] **pupils** or educational deficiencies in the district which would have its boundary adversely affected; and

(3) The presence of an educational necessity, not of a commercial benefit to landowners or to the district benefitting for the proposed boundary adjustment.

For purposes of subdivision (2) of this subsection, “significant difference in the time involved in transporting [students] **pupils**” shall mean a difference of forty-five minutes or more per trip in travel time. “Travel time” is the period of time required to transport a pupil from the pupil’s place of residence or other designated pick-up point to the site of the pupil’s educational placement.

4. Within twenty days after notification of appointment, the board of arbitration shall meet and consider the necessity for the proposed changes and shall decide whether the boundaries shall be changed as requested in the petition or be left unchanged, which decision shall be final. The decision by the board of arbitration shall be rendered not more than thirty days after the matter is referred to the board. The [chairman] **chair** of the board of arbitration shall transmit the decision to the secretary of each district affected who shall enter the same upon the records of his **or her** district and the boundaries shall thereafter be in accordance with the decision of the board of arbitration. The members of the board of arbitration shall be allowed a fee of fifty dollars each, to be paid at the time the appeal is made by the district taking the appeal or by the petitioners should they institute the appeal.

5. If the board of arbitration decides that the boundaries shall be left unchanged, no new petition for the same, or substantially the same, boundary change between the same districts shall be filed until after the expiration of two years from the date of the municipal election at which the question was submitted to the voters of the districts.”; and

(3) The attendance of the pupil will not cause the classroom in the receiving district to exceed the number of pupils per class as determined by the receiving district.

2. (1) For pupils applying to the commissioner of education under this section, the commissioner or his or her designee shall assign pupils in the order in which applications are received, so long as the applications are properly completed and the conditions of subsection 1 of this section are met.

(2) Once granted, the hardship assignment shall continue until the pupil, and any sibling of the pupil who attends the same attendance center, completes his or her course of study in the receiving district or the parent or guardian withdraws the pupil. If a parent or guardian withdraws a pupil from a hardship assignment, the granting of a subsequent application is discretionary.

(3) A pupil shall be eligible to apply to the commissioner of education to be assigned to another district under this section if the pupil has been enrolled in and attending a public school in his or her district of residence during the school year prior to the application. Any pupil shall be eligible to apply to the commissioner of education to be assigned to another district under this section if the pupil has been enrolled in and attending a public school in a district other than his or her district of residence and paid nonresident tuition for such enrollment during the school year prior to the application. Pupils who reside in the district who become eligible for kindergarten or first grade shall also be eligible to apply to the commissioner of education to be assigned to another district.

(4) A pupil who is not currently enrolled in a public school district shall become eligible to apply to the commissioner of education to be assigned to another district after the pupil has enrolled in and completed a full school year in a public school in his or her district of residence.

3. The board of education of the district in which the pupil resides shall pay the tuition of the pupil assigned. The tuition amount shall not exceed the pro rata cost of instruction.”; and

Amend Senate Substitute No. 2 for Senate Committee Substitute for Senate Bill No. 313, Page 35, Section 162.1313, Line 9, by inserting after all of said line the following:

“163.011. As used in this chapter unless the context requires otherwise:

(1) “Adjusted operating levy”, the sum of tax rates for the current year for teachers’ and incidental funds for a school district as reported to the proper officer of each county pursuant to section 164.011;

(2) “Average daily attendance”, the quotient or the sum of the quotients obtained by dividing the total number of hours attended in a term by resident pupils between the ages of five and twenty-one by the actual number of hours school was in session in that term. To the average daily attendance of the following school term shall be added the full-time equivalent average daily attendance of summer school students. “Full-time equivalent average daily attendance of summer school students” shall be computed by dividing the total number of hours, except for physical education hours that do not count as credit toward graduation for students in grades nine, ten, eleven, and twelve, attended by all summer school pupils by the number of hours required in section 160.011 in the school term. For purposes of determining average daily attendance under this subdivision, the term “resident pupil” shall include all children between the ages of five and twenty-one who are residents of the school district and who are attending kindergarten through grade twelve in such district. If a child is attending school in a district other than the district of residence and the child’s parent is teaching in the school district or is a regular employee of the school district which the child is attending, then such child shall be considered a resident pupil of the school district which the child is attending for such period of time when the district of residence is not otherwise liable for tuition. Average daily attendance for students below the age of five years for which a school district may receive state aid based on such attendance shall be computed as regular school term attendance unless otherwise provided by law;

(3) “Current operating expenditures”:

(a) For the fiscal year 2007 calculation, “current operating expenditures” shall be calculated using data from fiscal year 2004 and shall be calculated as all expenditures for instruction and support services except capital outlay and debt service expenditures minus the revenue from federal categorical sources; food service; student activities; categorical payments for transportation costs pursuant to section 163.161; state reimbursements for early childhood special education; the career ladder entitlement for the district, as provided for in sections 168.500 to 168.515; the vocational education entitlement for the district, as

provided for in section 167.332; and payments from other districts;

(b) In every fiscal year subsequent to fiscal year 2007, current operating expenditures shall be the amount in paragraph (a) of this subdivision plus any increases in state funding pursuant to sections 163.031 and 163.043 subsequent to fiscal year 2005, not to exceed five percent, per recalculation, of the state revenue received by a district in the 2004-05 school year from the foundation formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and free textbook payments for any district from the first preceding calculation of the state adequacy target. **Beginning on July 1, 2017, current operating expenditures shall be the amount in paragraph (a) of this subdivision plus any increases in state funding pursuant to sections 163.031 and 163.043 subsequent to fiscal year 2005 received by a district in the 2004-05 school year from the foundation formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and free textbook payments for any district from the first preceding calculation of the state adequacy target;**

(4) “District’s tax rate ceiling”, the highest tax rate ceiling in effect subsequent to the 1980 tax year or any subsequent year. Such tax rate ceiling shall not contain any tax levy for debt service;

(5) “Dollar-value modifier”, an index of the relative purchasing power of a dollar, calculated as one plus fifteen percent of the difference of the regional wage ratio minus one, provided that the dollar value modifier shall not be applied at a rate less than 1.0:

(a) “County wage per job”, the total county wage and salary disbursements divided by the total county wage and salary employment for each county and the City of St. Louis as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year;

(b) “Regional wage per job”:

a. The total Missouri wage and salary disbursements of the metropolitan area as defined by the Office of Management and Budget divided by the total Missouri metropolitan wage and salary employment for the metropolitan area for the county signified in the school district number or the City of St. Louis, as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year and recalculated upon every decennial census to incorporate counties that are newly added to the description of metropolitan areas; or if no such metropolitan area is established, then:

b. The total Missouri wage and salary disbursements of the micropolitan area as defined by the Office of Management and Budget divided by the total Missouri micropolitan wage and salary employment for the micropolitan area for the county signified in the school district number, as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year, if a micropolitan area for such county has been established and recalculated upon every decennial census to incorporate counties that are newly added to the description of micropolitan areas; or

c. If a county is not part of a metropolitan or micropolitan area as established by the Office of Management and Budget, then the county wage per job, as defined in paragraph (a) of this subdivision, shall be used for the school district, as signified by the school district number;

(c) “Regional wage ratio”, the ratio of the regional wage per job divided by the state median wage per job;

(d) “State median wage per job”, the fifty-eighth highest county wage per job;

(6) “Free and reduced price lunch pupil count”, for school districts not eligible for and those that do not choose the USDA Community Eligibility Option, the number of pupils eligible for free and reduced price lunch on the last Wednesday in January for the preceding school year who were enrolled as students of the district, as approved by the department in accordance with applicable federal regulations. For eligible school districts that choose the USDA Community Eligibility Option, the free and reduced price lunch pupil count shall be the percentage of free and reduced price lunch students calculated as eligible on the last Wednesday in January of the most recent school year that included household applications to determine free and reduced price lunch count multiplied by the district’s average daily attendance figure;

(7) “Free and reduced price lunch threshold” shall be calculated by dividing the total free and reduced price lunch pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(8) “Limited English proficiency pupil count”, the number in the preceding school year of pupils aged three through twenty-one enrolled or preparing to enroll in an elementary school or secondary school who were not born in the United States or whose native language is a language other than English or are Native American or Alaskan native, or a native resident of the outlying areas, and come from an environment where a language other than English has had a significant impact on such individuals’ level of English language proficiency, or are migratory, whose native language is a language other than English, and who come from an environment where a language other than English is dominant; and have difficulties in speaking, reading, writing, or understanding the English language sufficient to deny such individuals the ability to meet the state’s proficient level of achievement on state assessments described in Public Law 107-10, the ability to achieve successfully in classrooms where the language of instruction is English, or the opportunity to participate fully in society;

(9) “Limited English proficiency threshold” shall be calculated by dividing the total limited English proficiency pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(10) “Local effort”:

(a) For the fiscal year 2007 calculation, “local effort” shall be computed as the equalized assessed valuation of the property of a school district in calendar year 2004 divided by one hundred and multiplied by the performance levy less the percentage retained by the county assessor and collector plus one hundred percent of the amount received in fiscal year 2005 for school purposes from intangible taxes, fines, escheats, payments in lieu of taxes and receipts from state-assessed railroad and utility tax, one hundred percent of the amount received for school purposes pursuant to the merchants’ and manufacturers’ taxes under sections 150.010 to 150.370, one hundred percent of the amounts received for school purposes from federal properties under sections 12.070 and 12.080 except when such amounts are used in the calculation of federal impact aid pursuant to P.L. 81-874, fifty percent of Proposition C revenues received for school purposes from the school district trust fund under section 163.087, and one hundred percent of any local earnings or

income taxes received by the district for school purposes. Under this paragraph, for a special district established under sections 162.815 to 162.940 in a county with a charter form of government and with more than one million inhabitants, a tax levy of zero shall be utilized in lieu of the performance levy for the special school district;

(b) In every year subsequent to fiscal year 2007, “local effort” shall be the amount calculated under paragraph (a) of this subdivision plus any increase in the amount received for school purposes from fines. If a district’s assessed valuation has decreased subsequent to the calculation outlined in paragraph (a) of this subdivision, the district’s local effort shall be calculated using the district’s current assessed valuation in lieu of the assessed valuation utilized in the calculation outlined in paragraph (a) of this subdivision. When a change in a school district’s boundary lines occurs because of a boundary line change, annexation, attachment, consolidation, reorganization, or dissolution under section 162.071, 162.081, sections 162.171 to 162.201, section 162.221, 162.223, 162.431, 162.441, or 162.451, or in the event that a school district assumes any territory from a district that ceases to exist for any reason, the department of elementary and secondary education shall make a proper adjustment to each affected district’s local effort, so that each district’s local effort figure conforms to the new boundary lines of the district. The department shall compute the local effort figure by applying the calendar year 2004 assessed valuation data to the new land areas resulting from the boundary line change, annexation, attachment, consolidation, reorganization, or dissolution and otherwise follow the procedures described in this subdivision;

(11) “Membership” shall be the average of:

(a) The number of resident full-time students and the full-time equivalent number of part-time students who were enrolled in the public schools of the district on the last Wednesday in September of the previous year and who were in attendance one day or more during the preceding ten school days; and

(b) The number of resident full-time students and the full-time equivalent number of part-time students who were enrolled in the public schools of the district on the last Wednesday in January of the previous year and who were in attendance one day or more during the preceding ten school days, plus the full-time equivalent number of summer school pupils. “Full-time equivalent number of part-time students” is determined by dividing the total number of hours for which all part-time students are enrolled by the number of hours in the school term. “Full-time equivalent number of summer school pupils” is determined by dividing the total number of hours for which all summer school pupils were enrolled by the number of hours required pursuant to section 160.011 in the school term. Only students eligible to be counted for average daily attendance shall be counted for membership;

(12) “Operating levy for school purposes”, the sum of tax rates levied for teachers’ and incidental funds plus the operating levy or sales tax equivalent pursuant to section 162.1100 of any transitional school district containing the school district, in the payment year, not including any equalized operating levy for school purposes levied by a special school district in which the district is located;

(13) “Performance district”, any district that has met performance standards and indicators as established by the department of elementary and secondary education for purposes of accreditation under section 161.092 and as reported on the final annual performance report for that district each year; for calculations to be utilized for payments in fiscal years subsequent to fiscal year 2018, the number of performance districts shall not exceed twenty-five percent of all public school districts;

(14) “Performance levy”, three dollars and forty-three cents;

(15) “School purposes” pertains to teachers’ and incidental funds;

(16) “Special education pupil count”, the number of public school students with a current individualized education program or services plan and receiving services from the resident district as of December first of the preceding school year, except for special education services provided through a school district established under sections 162.815 to 162.940 in a county with a charter form of government and with more than one million inhabitants, in which case the sum of the students in each district within the county exceeding the special education threshold of each respective district within the county shall be counted within the special district and not in the district of residence for purposes of distributing the state aid derived from the special education pupil count;

(17) “Special education threshold” shall be calculated by dividing the total special education pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(18) “State adequacy target”, the sum of the current operating expenditures of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, divided by the total average daily attendance of all included performance districts. The department of elementary and secondary education shall first calculate the state adequacy target for fiscal year 2007 and recalculate the state adequacy target every two years using the most current available data. The recalculation shall never result in a decrease from the state adequacy target as calculated for fiscal years 2017 and 2018 and any state adequacy target figure calculated subsequent to fiscal year 2018. Should a recalculation result in an increase in the state adequacy target amount, fifty percent of that increase shall be included in the state adequacy target amount in the year of recalculation, and fifty percent of that increase shall be included in the state adequacy target amount in the subsequent year. The state adequacy target may be adjusted to accommodate available appropriations as provided in subsection 7 of section 163.031;

(19) “Teacher”, any teacher, teacher-secretary, substitute teacher, supervisor, principal, supervising principal, superintendent or assistant superintendent, school nurse, social worker, counselor or librarian who shall, regularly, teach or be employed for no higher than grade twelve more than one-half time in the public schools and who is certified under the laws governing the certification of teachers in Missouri;

(20) “Weighted average daily attendance”, the average daily attendance plus the product of twenty-five hundredths multiplied by the free and reduced price lunch pupil count that exceeds the free and reduced price lunch threshold, plus the product of seventy-five hundredths multiplied by the number of special education pupil count that exceeds the special education threshold, plus the product of six-tenths multiplied by the number of limited English proficiency pupil count that exceeds the limited English proficiency threshold. For special districts established under sections 162.815 to 162.940 in a county with a charter form of government and with more than one million inhabitants, weighted average daily attendance shall be the average daily attendance plus the product of twenty-five hundredths multiplied by the free and reduced price lunch pupil count that exceeds the free and reduced price lunch threshold, plus the product of seventy-five hundredths multiplied by the sum of the special education pupil count that exceeds the threshold for each county district, plus the product of six-tenths multiplied by the limited English proficiency pupil count that exceeds the limited English proficiency threshold. None of the districts comprising a special district

established under sections 162.815 to 162.940 in a county with a charter form of government and with more than one million inhabitants, shall use any special education pupil count in calculating their weighted average daily attendance.”; and

Further amend the title and enacting clause accordingly.

Senator Koenig moved that **SS No. 2** for **SCS** for **SB 313**, as amended, be adopted, which motion prevailed.

On motion of Senator Koenig, **SS No. 2** for **SCS** for **SB 313**, as amended, was declared perfected and ordered printed.

14. Unless otherwise provided in this chapter or in the certificate of amendment of an application or a renewal application, a certificate of amendment of an application or a renewal application or a withdrawal notice of an application or a renewal application shall be effective at the time of its filing with the secretary of state.

15. The secretary of state may provide forms for the application specified in subsection 1 of this section, the renewal application specified in subsection 9 of this section, the withdrawal notice specified in subsection 10 of this section, and the amendment or correction specified in subsection 12 of this section.

16. The secretary of state may remove from its active records the registration of a partnership whose registration has been withdrawn, revoked or has expired.

The secretary of state shall return the document and give notice of revocation to the filing party by regular mail. Failure to give or receive notice does not invalidate the revocation. A revocation of a filing does not affect an earlier filing.

18. If any person signs a document required or permitted to be filed pursuant to sections 358.440 to 358.500 which the person knows is false in any material respect with the intent that the document be delivered on behalf of a partnership to the secretary of state for filing, such person shall be guilty of a class A misdemeanor. 20. A partnership that registers as a limited liability partnership shall not be deemed to have dissolved as a result thereof and is for all purposes the same partnership that existed before the registration and continues to be a partnership under the laws of this state. If a registered limited liability partnership dissolves, a partnership which is a successor to such registered limited liability partnership and which intends to be a registered limited liability partnership shall not be required to file a new registration and shall be deemed to have filed any documents required or permitted under this chapter which were filed by the predecessor partnership.

In times of sorrow and hurts, troubles and heartaches and especially those times we have failed You, help us to remember that You are truly our father and we are Your children. Let us with boldness and confidences ask, as dear children, to trust always in Your love and mercy and find grace in times of need. And may we love You with childlike affection all the days of our lives. In Your Holy Name we pray. Amen.

Journal of the Senate

FIRST REGULAR SESSION

FIFTY-FOURTH DAY—THURSDAY, APRIL 13, 2017

The Senate met pursuant to adjournment.

Senator Kraus in the Chair.

Reverend Carl Gauck offered the following prayer:

“Keep your heart with all diligence, for out of it are the issues of life.” (Proverbs 4:23)

We acknowledge that the heart is seen by us as the seat of human emotion and it does us well to search it thoroughly to make sure all is in order, for we know what this coming week means for many Americans and to us, and it’s time to celebrate Your victory over death. So we complete our work here and prepare to spend precious time with our families and with You and enjoy the gift of new life You offer. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal of the previous day was read and approved.

Senator Kehoe announced photographers from the KOMU 8 News were given permission to take pictures in the Senate Chamber.

SENATE CONCURRENT RESOLUTION NO. 25

Whereas, the legislature finds that the Patient Protection and Affordable Care Act encourages states to develop innovative approaches to insuring their populations by authorizing states to apply for waivers from certain requirements of the act; and

Whereas, to be eligible, a state must demonstrate that its proposed health insurance reforms are as comprehensive and affordable as the federal requirements for insurance sold in its state; and

Whereas, proposed reforms must be budget neutral for the federal government; and

Whereas, states that are granted innovation waivers may receive federal assistance to operate their reform programs in an amount that is equivalent to the aggregate amount of tax credits and cost-sharing subsidies that the federal government would have paid for individuals enrolled in the state; and

Whereas, the legislature believes that the Affordable Care Act did not accomplish the intended result of providing affordable care for residents of the state as a whole and believes the state may be able to create a more effective alternative solution for providing affordable health coverage to individuals; and

Whereas, the purpose of this resolution is to establish a state innovation waiver task force to develop a health care reform plan that meets the requirements for obtaining a state innovation waiver:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-ninth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby create the State Innovation Waiver Task Force; and

Be It Further Resolved that the members of the task force shall serve without compensation but shall be reimbursed for expenses, including travel expenses, necessary for the performance of their duties; and

Be It Further Resolved that as used in this resolution, “federal act” means the Patient Protection and Affordable Health Care Act”; and

Be It Further Resolved that the mission of the task force shall be to fully consider and make recommendations in a report based on:

- (1) The feasibility of alternative approaches to the health reform requirements described under section 1332(a)(2) of the federal act;
- (2) Alternatives to and possible exemptions or waivers from requirements relating to allowable premium rate variations based upon age, as described in section 1201 of the federal act; and

Be It Further Resolved that the task force shall develop, and include in its report, a plan for applying for a state innovation waiver that meets the requirements of section 1332 of the federal act, including:

(1) Developing a strategy for health care reform that provides coverage that is at least as comprehensive as required by the federal act, provides coverage and cost-sharing protections that are at least as affordable as under the federal act, makes health insurance coverage available to as many residents of Missouri as under the federal act, and is budget neutral for the federal government;

(2) Examining the feasibility of options for providing affordable insurance coverage for uninsured and underinsured individuals in Missouri that include innovations to the state’s existing Medicaid program;

(3) Ensuring compliance with all applicable public notice requirements of 31 CFR 33 and 45 CFR 155, as amended; and

Be It Further Resolved that the task force shall prepare and include in its report a draft application for a state innovation waiver, to take effect for plan years beginning on or after January 1, 2018; and

Be It Further Resolved that the task force shall submit its report to the legislature, including any proposed legislation and the draft application, no later than twenty days prior to the convening of the veto session of 2017; and

Be It Further Resolved that if provisions of the federal act are repealed or replaced the task force shall remain in force to continue developing innovative approaches to providing comprehensive and affordable health care coverage to residents of this state; and

Be It Further Resolved that the task force shall terminate by either a majority of members voting for termination, or by December 31, 2017, whichever occurs first; and
